(57) CLAIM

The ornamental design for a wearable player with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a first embodiment of a rear elevational view of a wearable player with graphical user interfaces showing our new design; and

FIG. 2 is an enlarged portion of each one of the portions of the wearable player along the lines 2-2 and 2'-2' of FIG. 1. FIG. 3 is a second embodiment of a rear elevational view of a wearable player with graphical user interfaces showing our new design; and

FIG. 4 is an enlarged portion of each one of the portions of the wearable player along the lines 4-4 and 4'-4' of FIG. 3.

FIG. 5 is a third embodiment of a rear elevational view of a wearable player with graphical user interfaces showing our new design; and

FIG. 6 is an enlarged portion of each one of the portions of the wearable player along the lines 6-6 and 6'-6' of FIG. 5.

FIG. 7 is a fourth embodiment of a rear elevational view of a wearable player with graphical user interfaces showing our new design; and

FIG. 8 is an enlarged portion of each one of the portions of the wearable player along the lines 8-8 and 8'-8' of FIG. 7; and

FIG. 9 is a fifth embodiment of a rear elevational view of a wearable player with graphical user interfaces showing our new design; and,

FIG. 10 is an enlarged portion of each one of the portions of the wearable player along the lines 10-10 and 10'-10' of FIG. 9.

The broken lines shown in the drawings illustrate portions of the wearable player and portions of the graphical user interface and form no part of the claimed design.
