(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface of a structural genetic variation indicator, as shown and described.

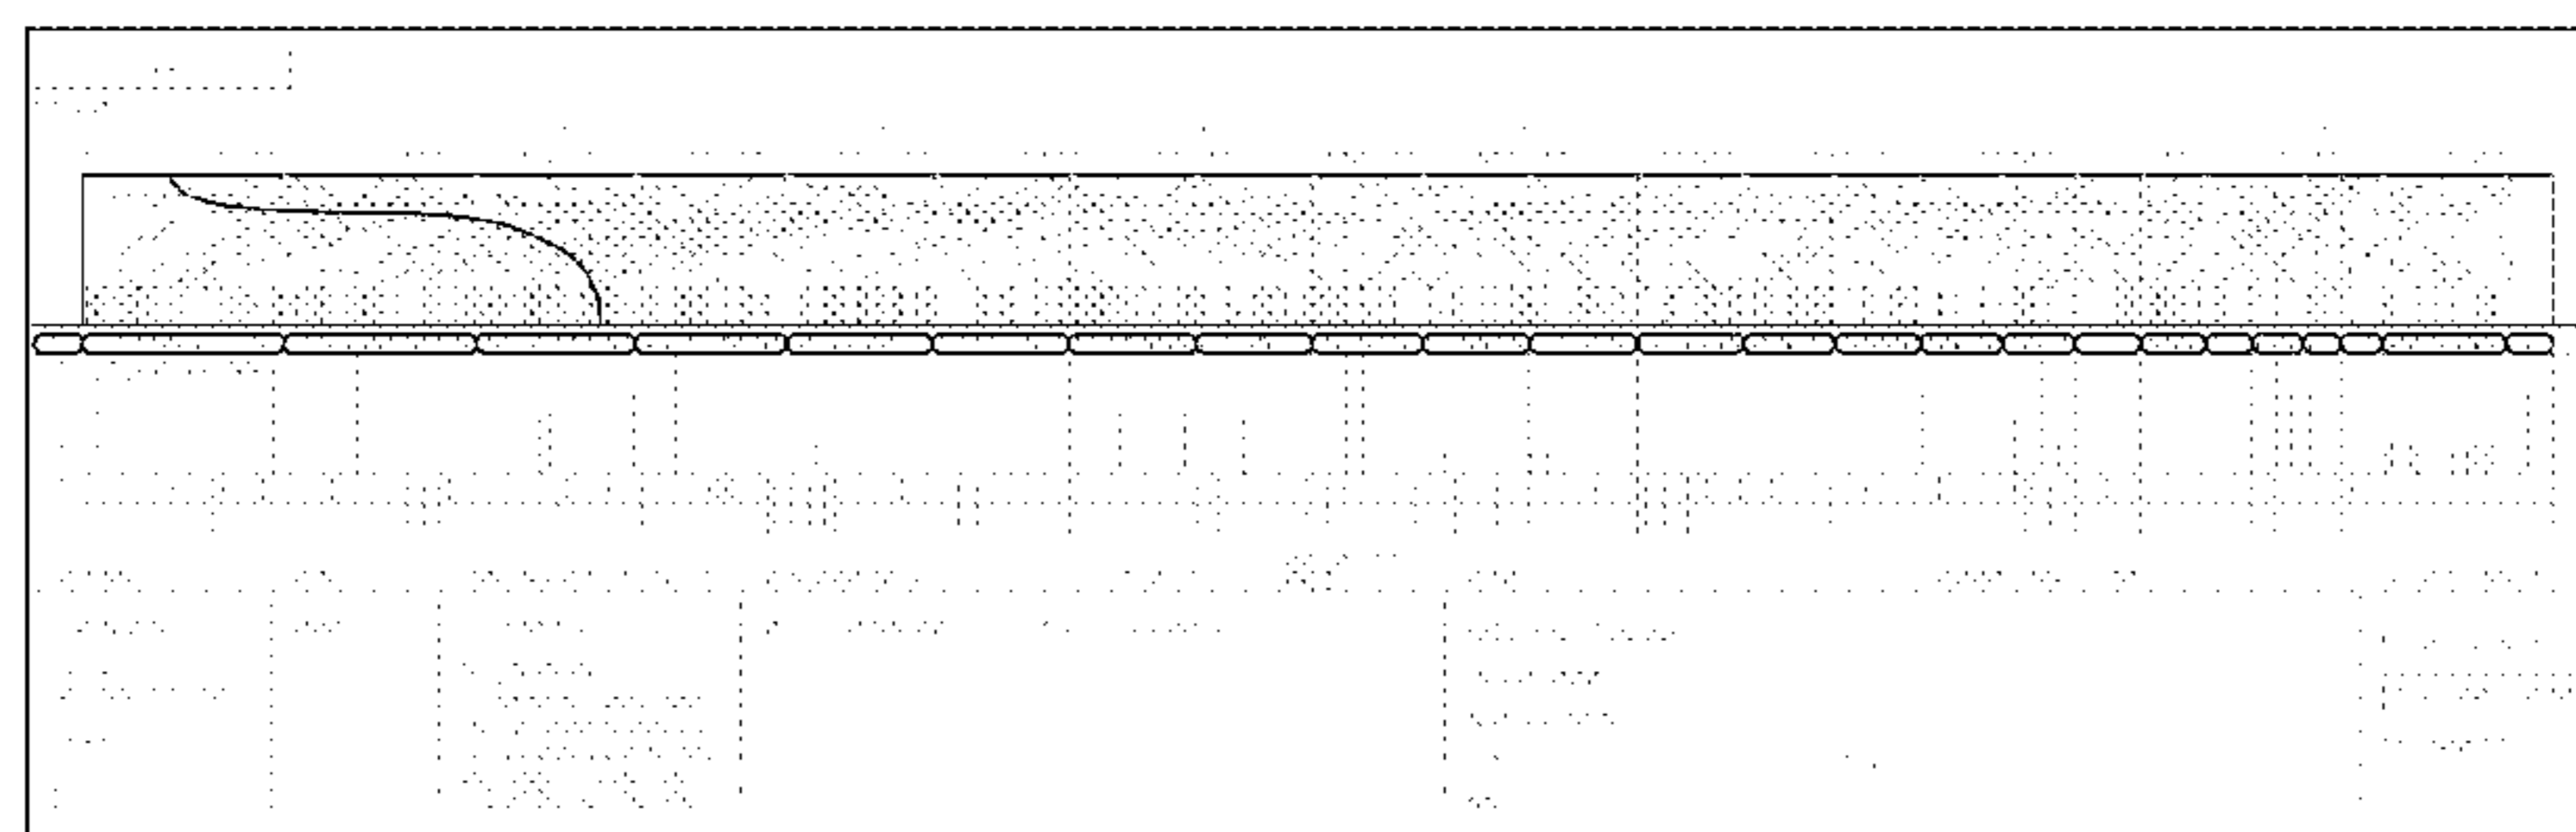

DESCRIPTION

FIG. 1 is a front view of a first image of a display screen or portion thereof with structural genetic variation indicator graphical user interface showing my new design; and, FIG. 2 is a second image thereof.

The dot-dash broken lines showing a display screen or portion thereof and even broken lines showing elements of the graphical user interface illustrate portions of the article which form no part of the claimed design.

The appearance of the graphical user interface transitions sequentially between FIGS. 1 and 2 wherein FIG. 2 shows an enlarged portion of FIG. 1 to create a zoom-like appearance. The process or period in which one image transitions to another forms no part of the claimed design.

1 Claim, 2 Drawing Sheets
