(57) **CLAIM**

The ornamental design for a portion of a water filter fitting, as shown and described.

DESCRIPTION

FIG. 1 illustrates a front perspective view of a portion of a fitting on two fittings of a water filter.

FIG. 2 illustrates a front view of the portion of the fitting on the two fittings illustrated in FIG. 1.

FIG. 3 illustrates a back view of the portion of the fitting on the two fittings illustrated in FIG. 1.

FIG. 4 illustrates a first side view of the portion of the fitting on the two fittings illustrated in FIG. 1.

FIG. 5 illustrates a second side view of the portion of the fitting on the two fittings illustrated in FIG. 1.

FIG. 6 illustrates a top view of the portion of the fitting on the two fittings illustrated in FIG. 1.

FIG. 7 illustrates a top perspective view of the portion of the fitting on two fittings of an implementation of a water filter.

FIG. 8 illustrates a bottom perspective view of the portion of the fitting on two fittings of the implementation of the water filter illustrated in FIG. 7.

FIG. 9 illustrates an exploded bottom perspective view of the portion of the fitting on the two fittings of the implementation of the water filter illustrated in FIG. 7 in a portion of a valve assembly; and,

FIG. 10 illustrates a bottom perspective view of the portion of the fitting on the two fittings of the implementation of the water filter illustrated in FIG. 7 in a portion of a valve assembly.

The broken lines, when present in the drawings, represent portions of the water filter. The broken lines are for the purpose of illustrating the environment of the design and form no part of the claimed design. The surface shading lines, when present in the drawings, show contour and/or distinguish between open and solid areas. The surface shading lines are not surface ornamentation. The design is not limited to the scale shown herein.

1 Claim, 7 Drawing Sheets
