(57) **CLAIM**

We claim the ornamental design for display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface according to a first embodiment of the invention.

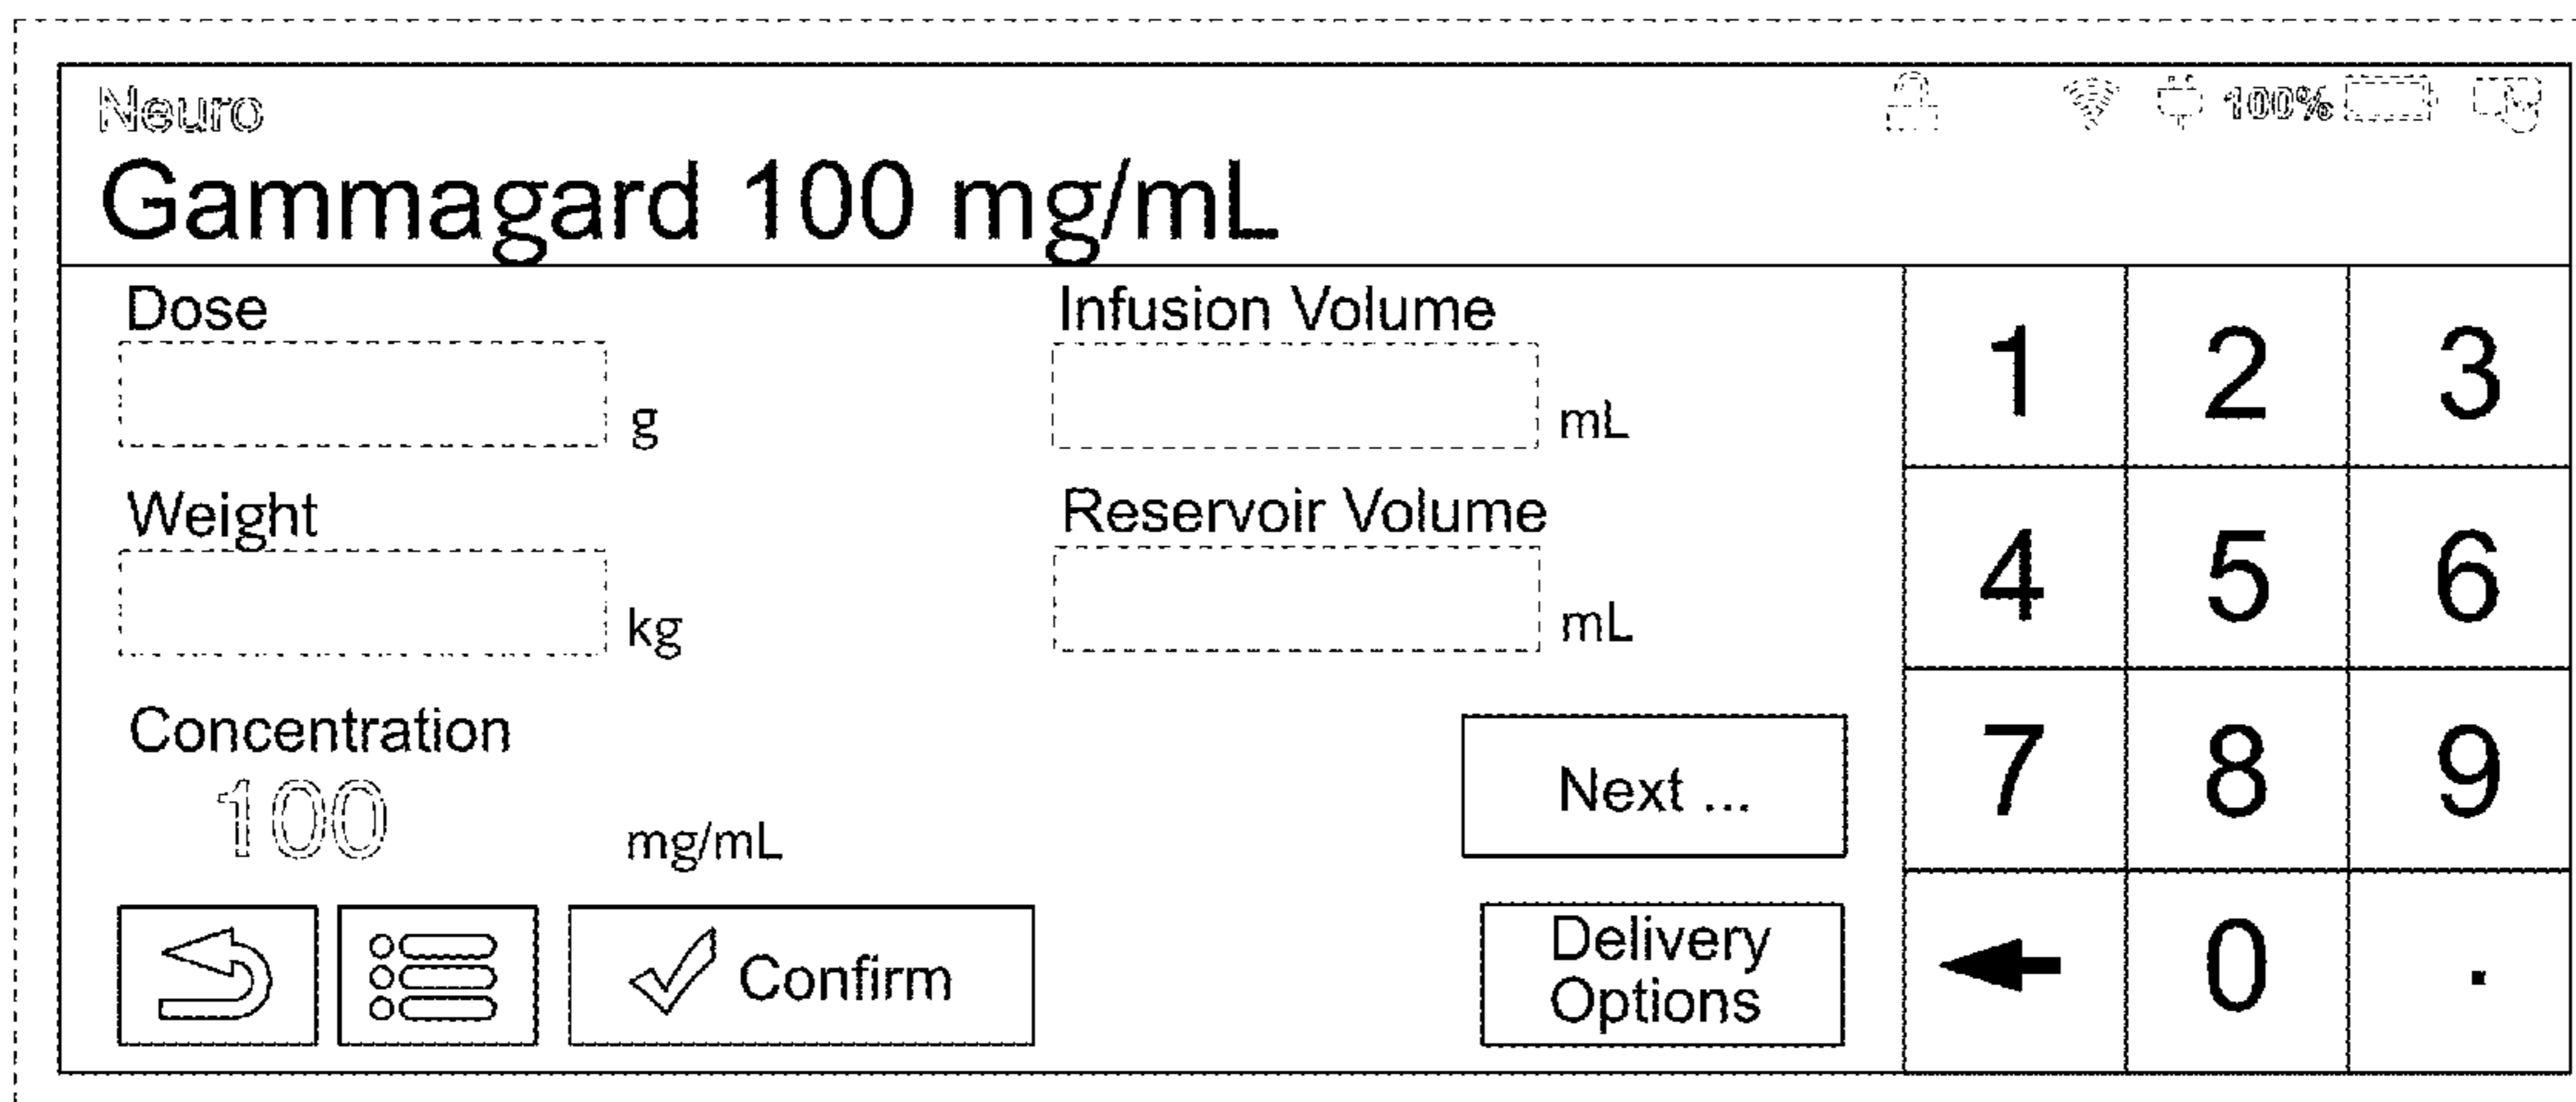

FIG. 2 is a front view of a display screen or portion thereof with graphical user interface according to a second embodiment.

FIG. 3 is a front view of the display screen or portion thereof with graphical user interface of FIG. 1 depicted on a device; and,

FIG. 4 is a front view of a display screen or portion thereof with graphical user interface according to a third embodiment.

The broken line showing of an electronic device in FIG. 3 illustrates environmental structure; whereas the broken lines showing a display screen and elements of the graphical user interface illustrate portions of the article. All subject matters depicted in broken lines do not form part of the claimed design.
