FIG. 17 is a rear perspective view thereof shown separately for clarity of disclosure.

Although the case for electronic communications device, in which the claimed design is embodied, consists of an inner shell, an outer frame, and a support leg, the claim is directed to the ornamental appearance of the case for electronic communications device in its entirety and does not extend to the ornamental appearance of each of the individual components of the case for electronic communications device. The broken lines throughout the drawing figures depict portions of the case for electronic communications device that form no part of the claimed design. The broken lines and regions bounded by broken lines form no part of the claimed design.

The interior of the case shown in FIGS. 1, 3, 10 and 14 (specifically, that region within the innermost of the solid
