(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image in a sequence of a display screen with animated graphical user interface, showing my new design;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a third image thereof;

FIG. 4 is a front view of a fourth image thereof; and,

FIG. 5 is a front view of a fifth image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-5. The process or period in which an image transitions to another forms no part of the claimed design.

The broken lines of uneven length show the display screen and form no part of the claimed design. The broken lines of even length illustrate portions of the display screen with animated graphical user interface that form no part of the claimed design.

**1 Claim, 5 Drawing Sheets**
