(57) **CLAIM**
The ornamental design for a display screen with transitional graphical user interface of a financial markets orders and executed trades viewer application, as shown and described.

DESCRIPTION
FIG. 1 is a front view of a first image in a sequence for a display screen with transitional graphical user interface of a financial markets orders and executed trades viewer application showing our new design;
FIG. 2 is a front view of a second image thereof;
FIG. 3 is a front view of a third image thereof;
FIG. 4 is a front view of a fourth image thereof;
FIG. 5 is a front view of a fifth image thereof; and,
FIG. 6 is a front view of a sixth image thereof.
The appearance of the image transitions sequentially between the images shown in FIGS. 1 through 6. The process or period in which one image transitions to another forms no part of the claimed design. The outermost broken line rectangle illustrates a display screen and forms no part of the claimed design. The remaining broken lines, illustrating portions of the graphical user interface, form no part of the claimed design.
