(57) **CLAIM**

The ornamental design for a display screen or portion thereof with transitional graphical user interface, as shown and described.

DESCRIPTION

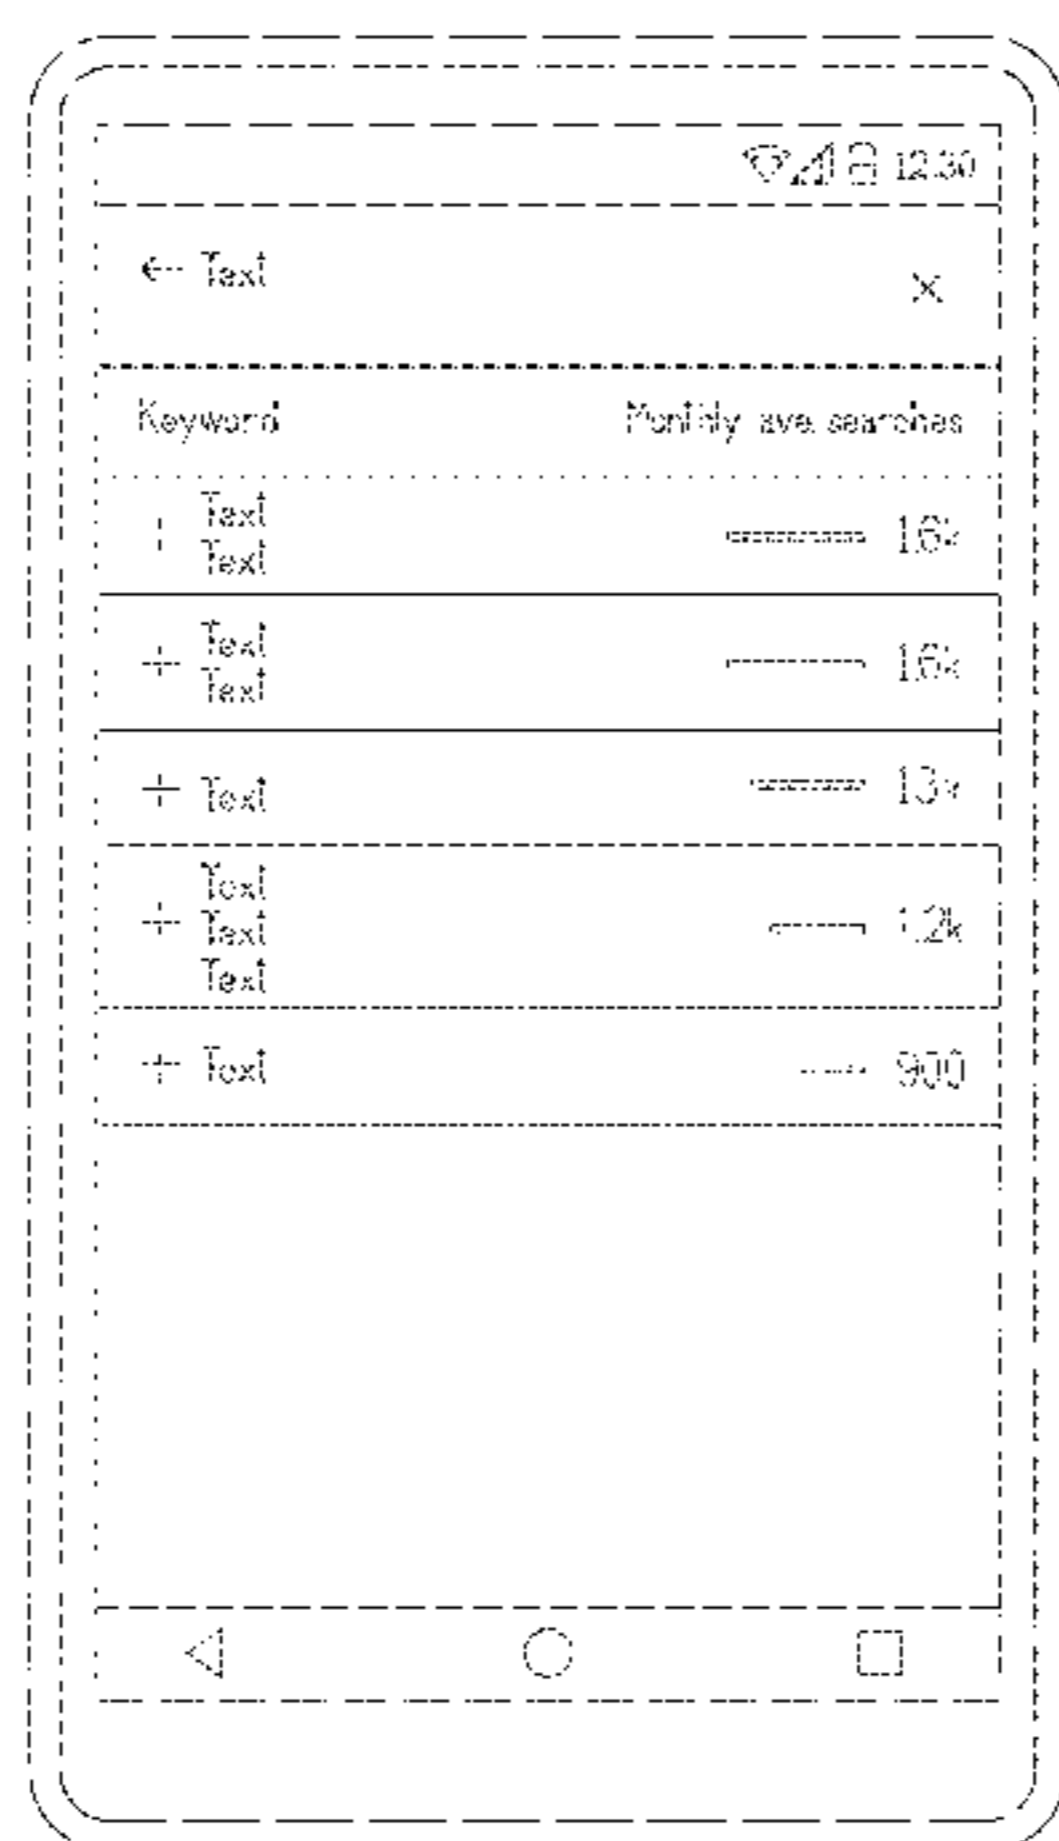

FIG. 1 is a front view of a display screen or portion thereof with transitional graphical user interface; and, FIG. 2 is a front view showing a second image in the sequence according to the claimed design.

The appearance of the image transitions sequentially between the images shown in FIGS. 1 through 2. The process or period in which on image transitions to another forms no part of the claimed design.

The shading depicts a contrast in appearance.

The outermost long-dashed broken lines illustrate an electronic device, which constitutes environment of the design and forms no part of the claim. The medium-length-dashed broken line illustrates the boundary of the design and forms no part of the claim. The remaining short-dashed broken

(Continued)

lines illustrate portions of the graphical user interface that form no part of the claimed design.
