(57) **CLAIM**

An ornamental design for a display screen with graphical user interface, as shown and described.

**DESCRIPTION**

The FIGURE is a front view of a display screen with graphical user interface showing our new design; The broken dot-dashed lines showing a perimeter of a display screen are included for purposes of illustrating an interface environment, and form no part of the claimed design. The remaining broken lines show elements of the graphical user interface and form no part of the claimed design.
