CLAIM

(57) We claim the ornamental design for a door facing, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of a door facing.
FIG. 2 is a front view of the door facing of FIG. 1.
FIG. 3 is an enlarged section view of the door facing of FIG. 1, taken along line 3-3 of FIG. 2.
FIG. 4 is a top view of the door facing of FIG. 1, of which a bottom view is the top view flipped from top to bottom; and,
FIG. 5 is a right side view of the door facing of FIG. 1, of which a left side view is a mirror image.
In FIG. 3, the lateral broken lines depict the limits of the enlarged view taken from FIG. 2 and the broken-line hatching indicating a sectional view is not intended to illustrate the internal construction of the door facing. Accordingly, the aforementioned broken lines in FIG. 3 form no part of the claimed design.
