DESCRIPTION

1. Display screen with animated graphical user interface
1.1 is a front view of the first image in the sequence for a display screen with animated graphical user interface showing our new design;

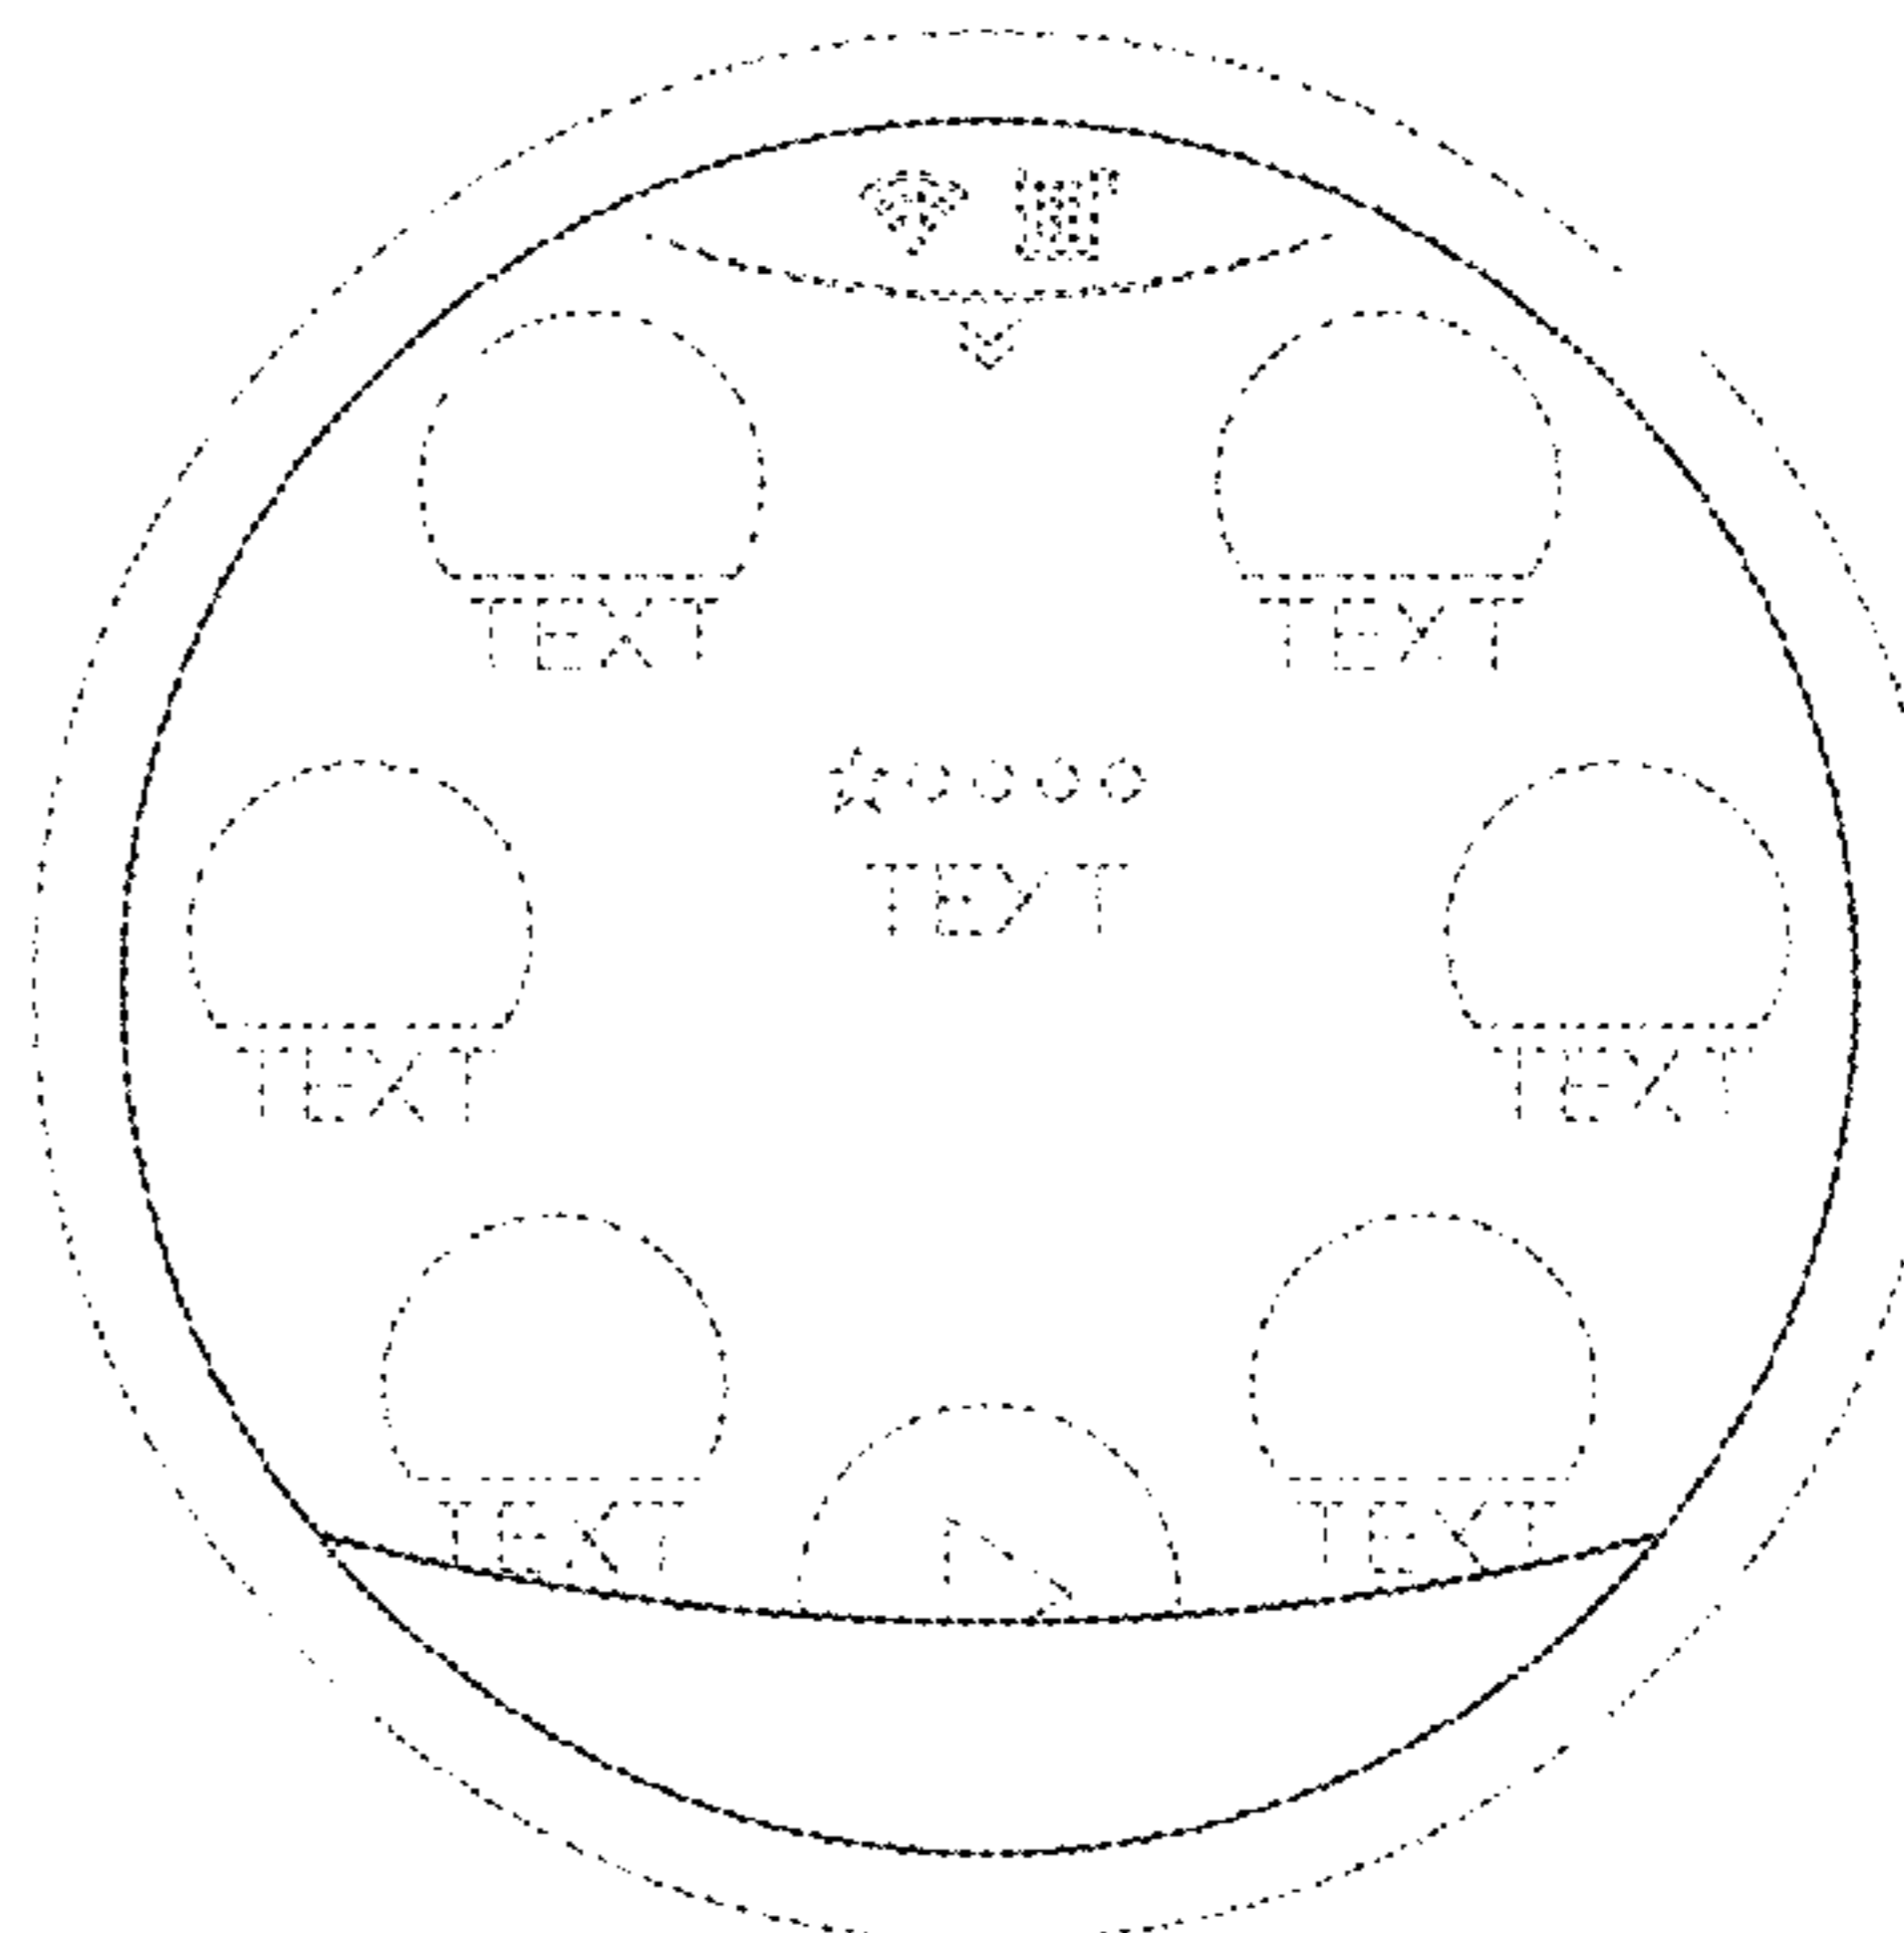

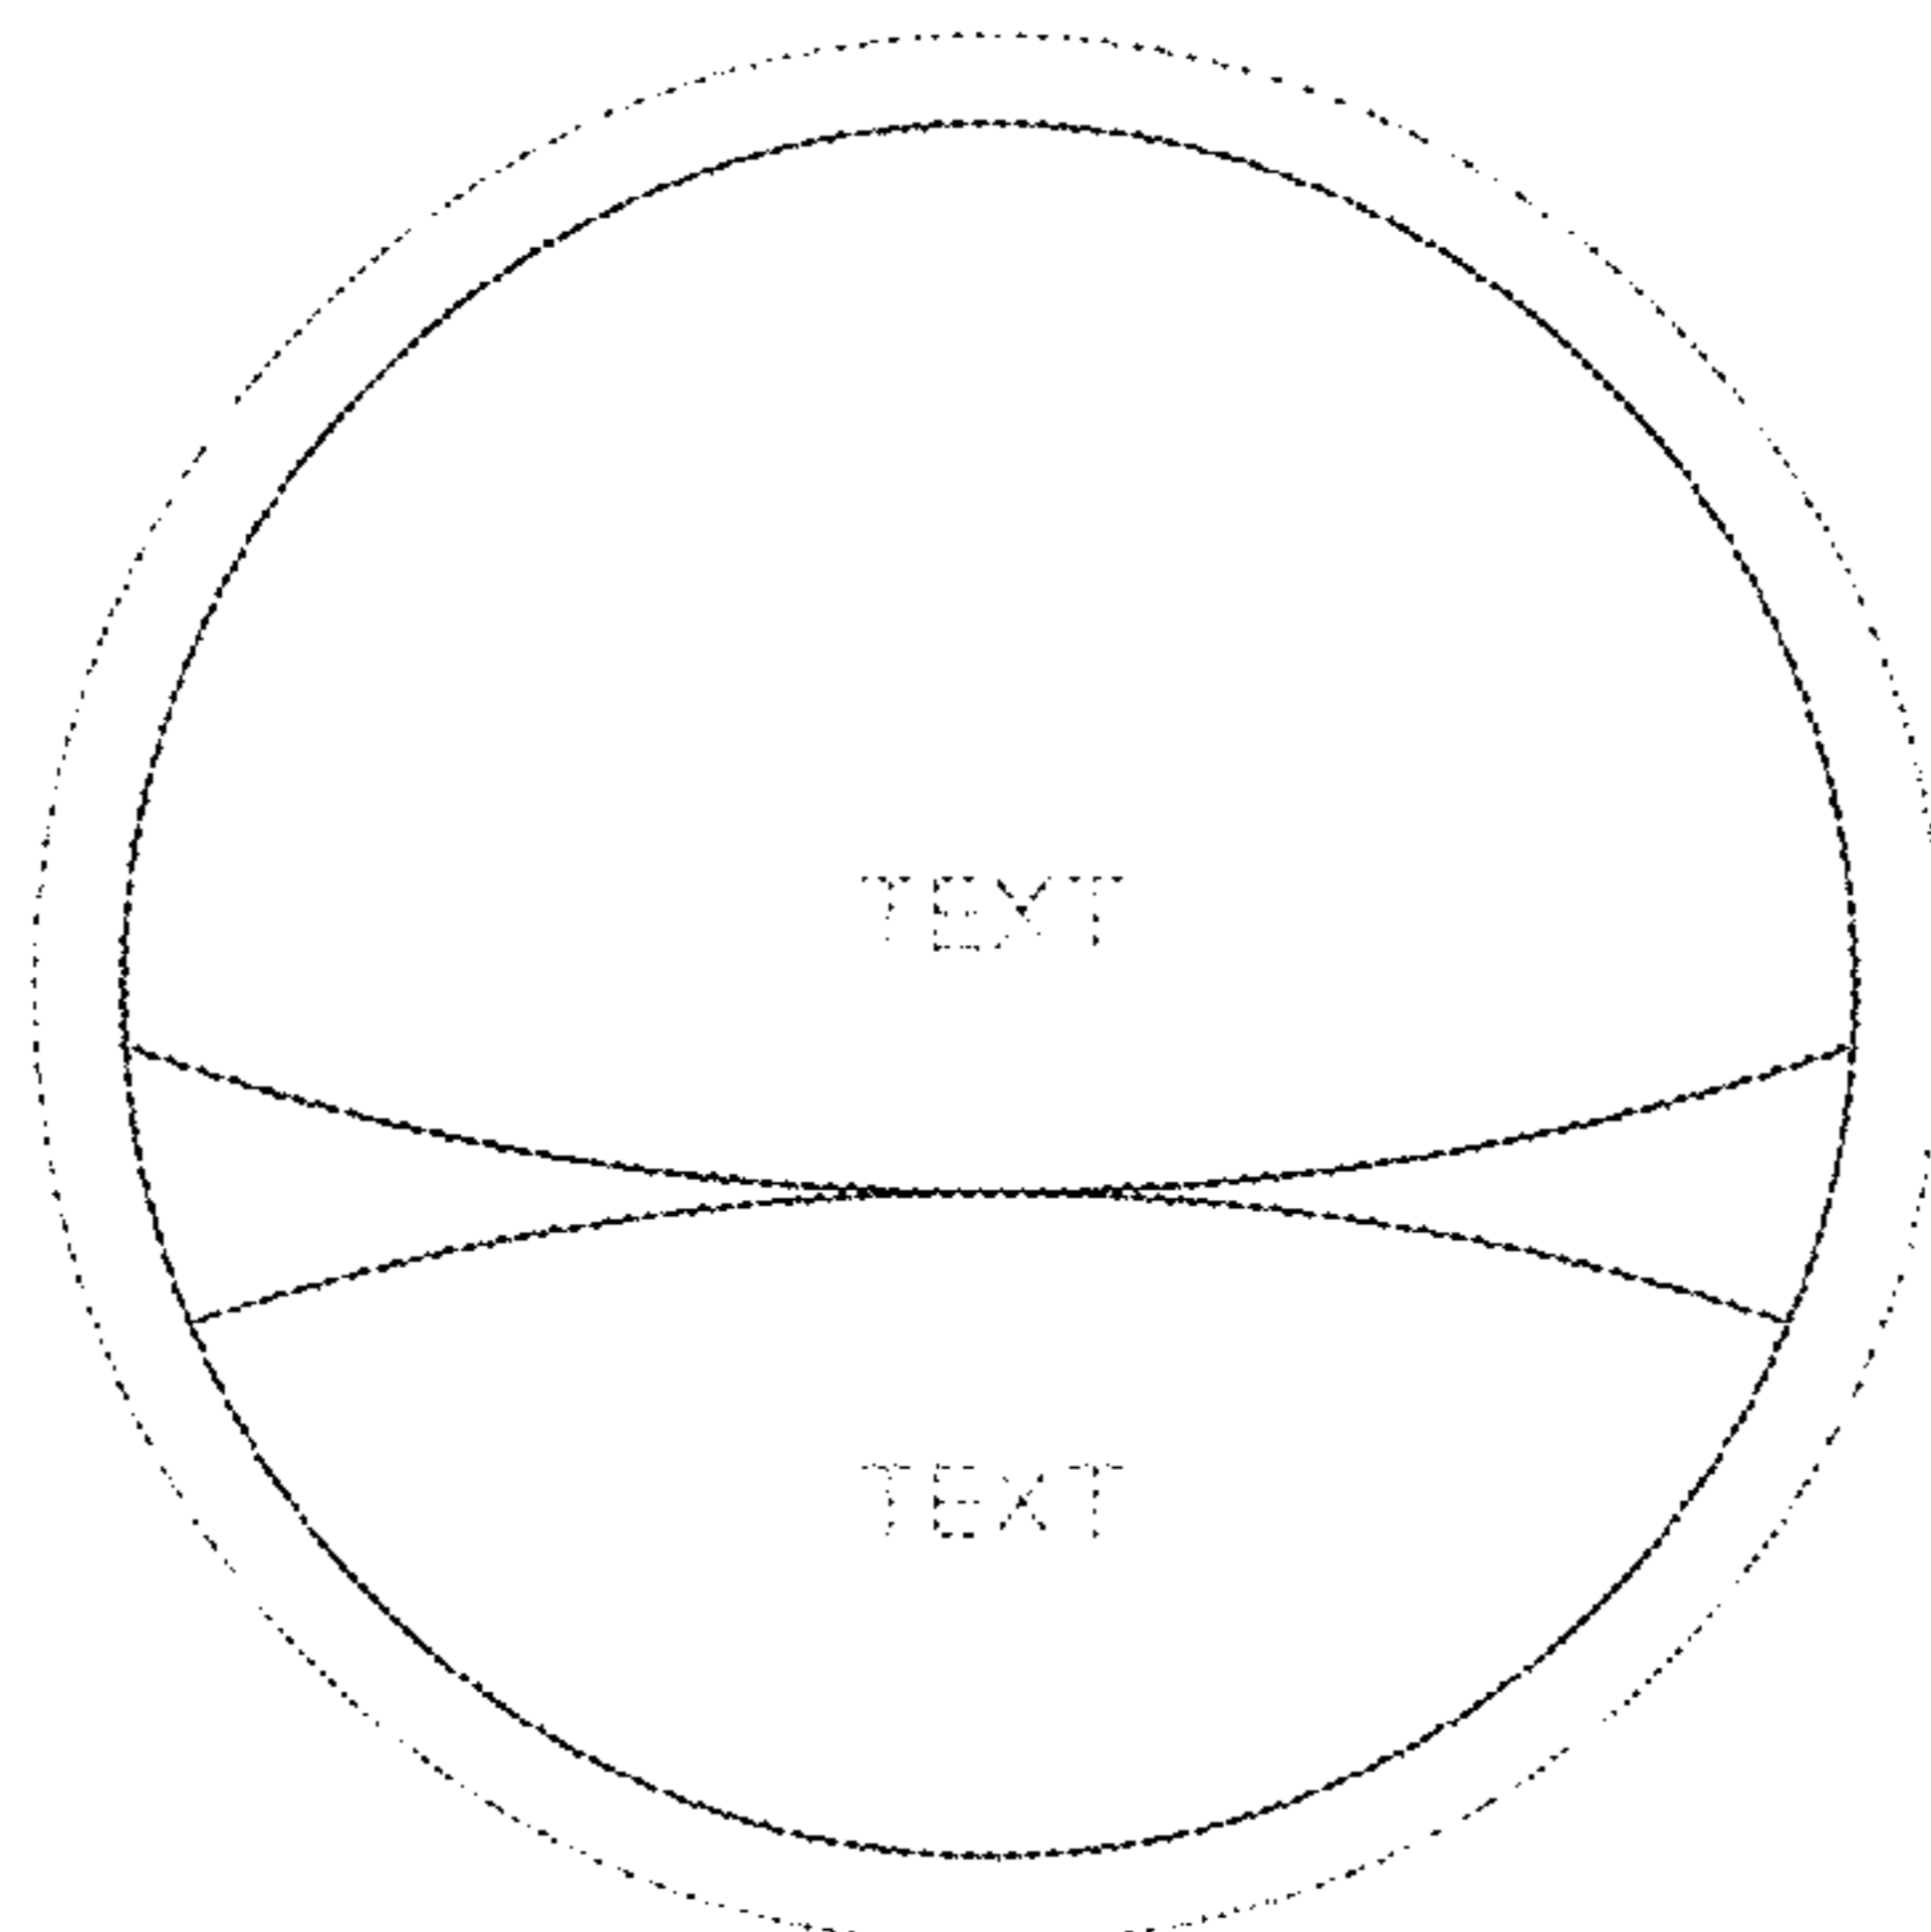

1.2 is a front view of the second image thereof;

1.3 is a front view of the third image thereof; and

1.4 is a front view of the fourth image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in figures 1.1 to 1.4. The process or period in which one image transitions to another forms no part of the claimed design. The broken line showing of a display screen is provided for the purpose of illustrating environmental structure; whereas the broken lines showing text and elements of the graphical user interface are provided for the purpose of illustrating portions of the article. No subject matter shown in broken lines forms part of the claimed design.
