(57) **CLAIM**

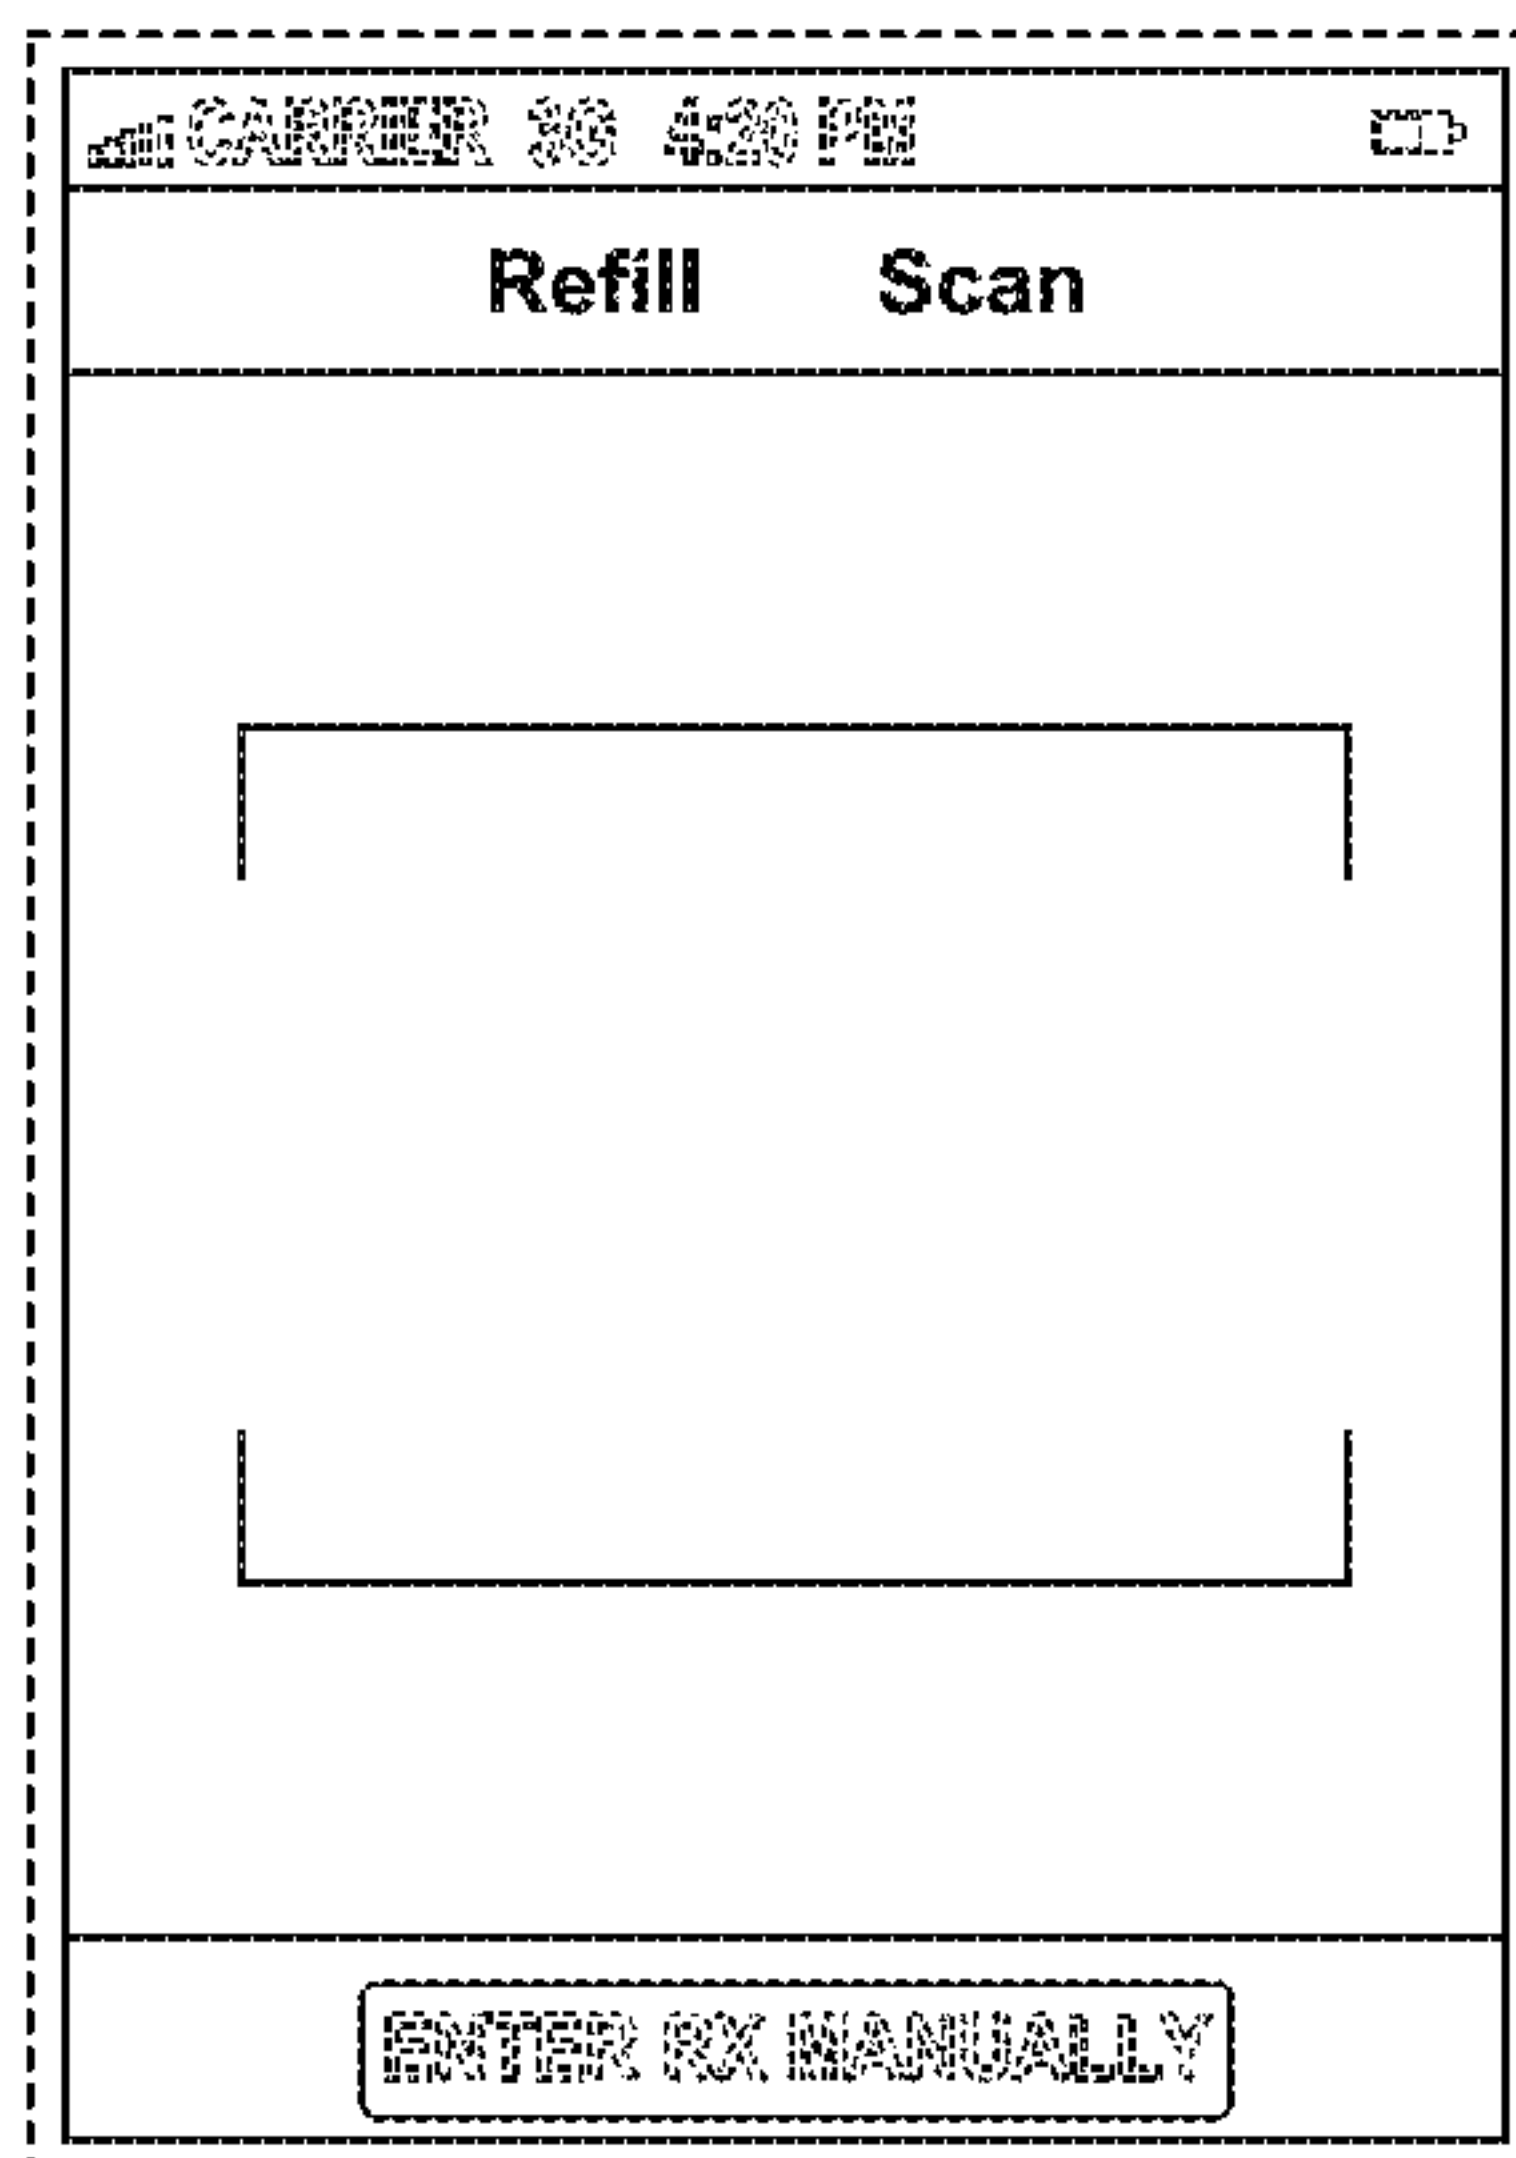

The ornamental design for a portion of a display panel with graphical user interface for refilling prescription medications, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a portion of a display panel with graphical user interface for refilling prescription medications of a first embodiment of the present invention; and, FIG. 2 is a front view of a second embodiment of the present invention;

The dashed lines showing portions of the portion of a display panel with graphical user interface are included for the purpose of illustrating environment and form no part of the claimed design.

1 Claim, 2 Drawing Sheets

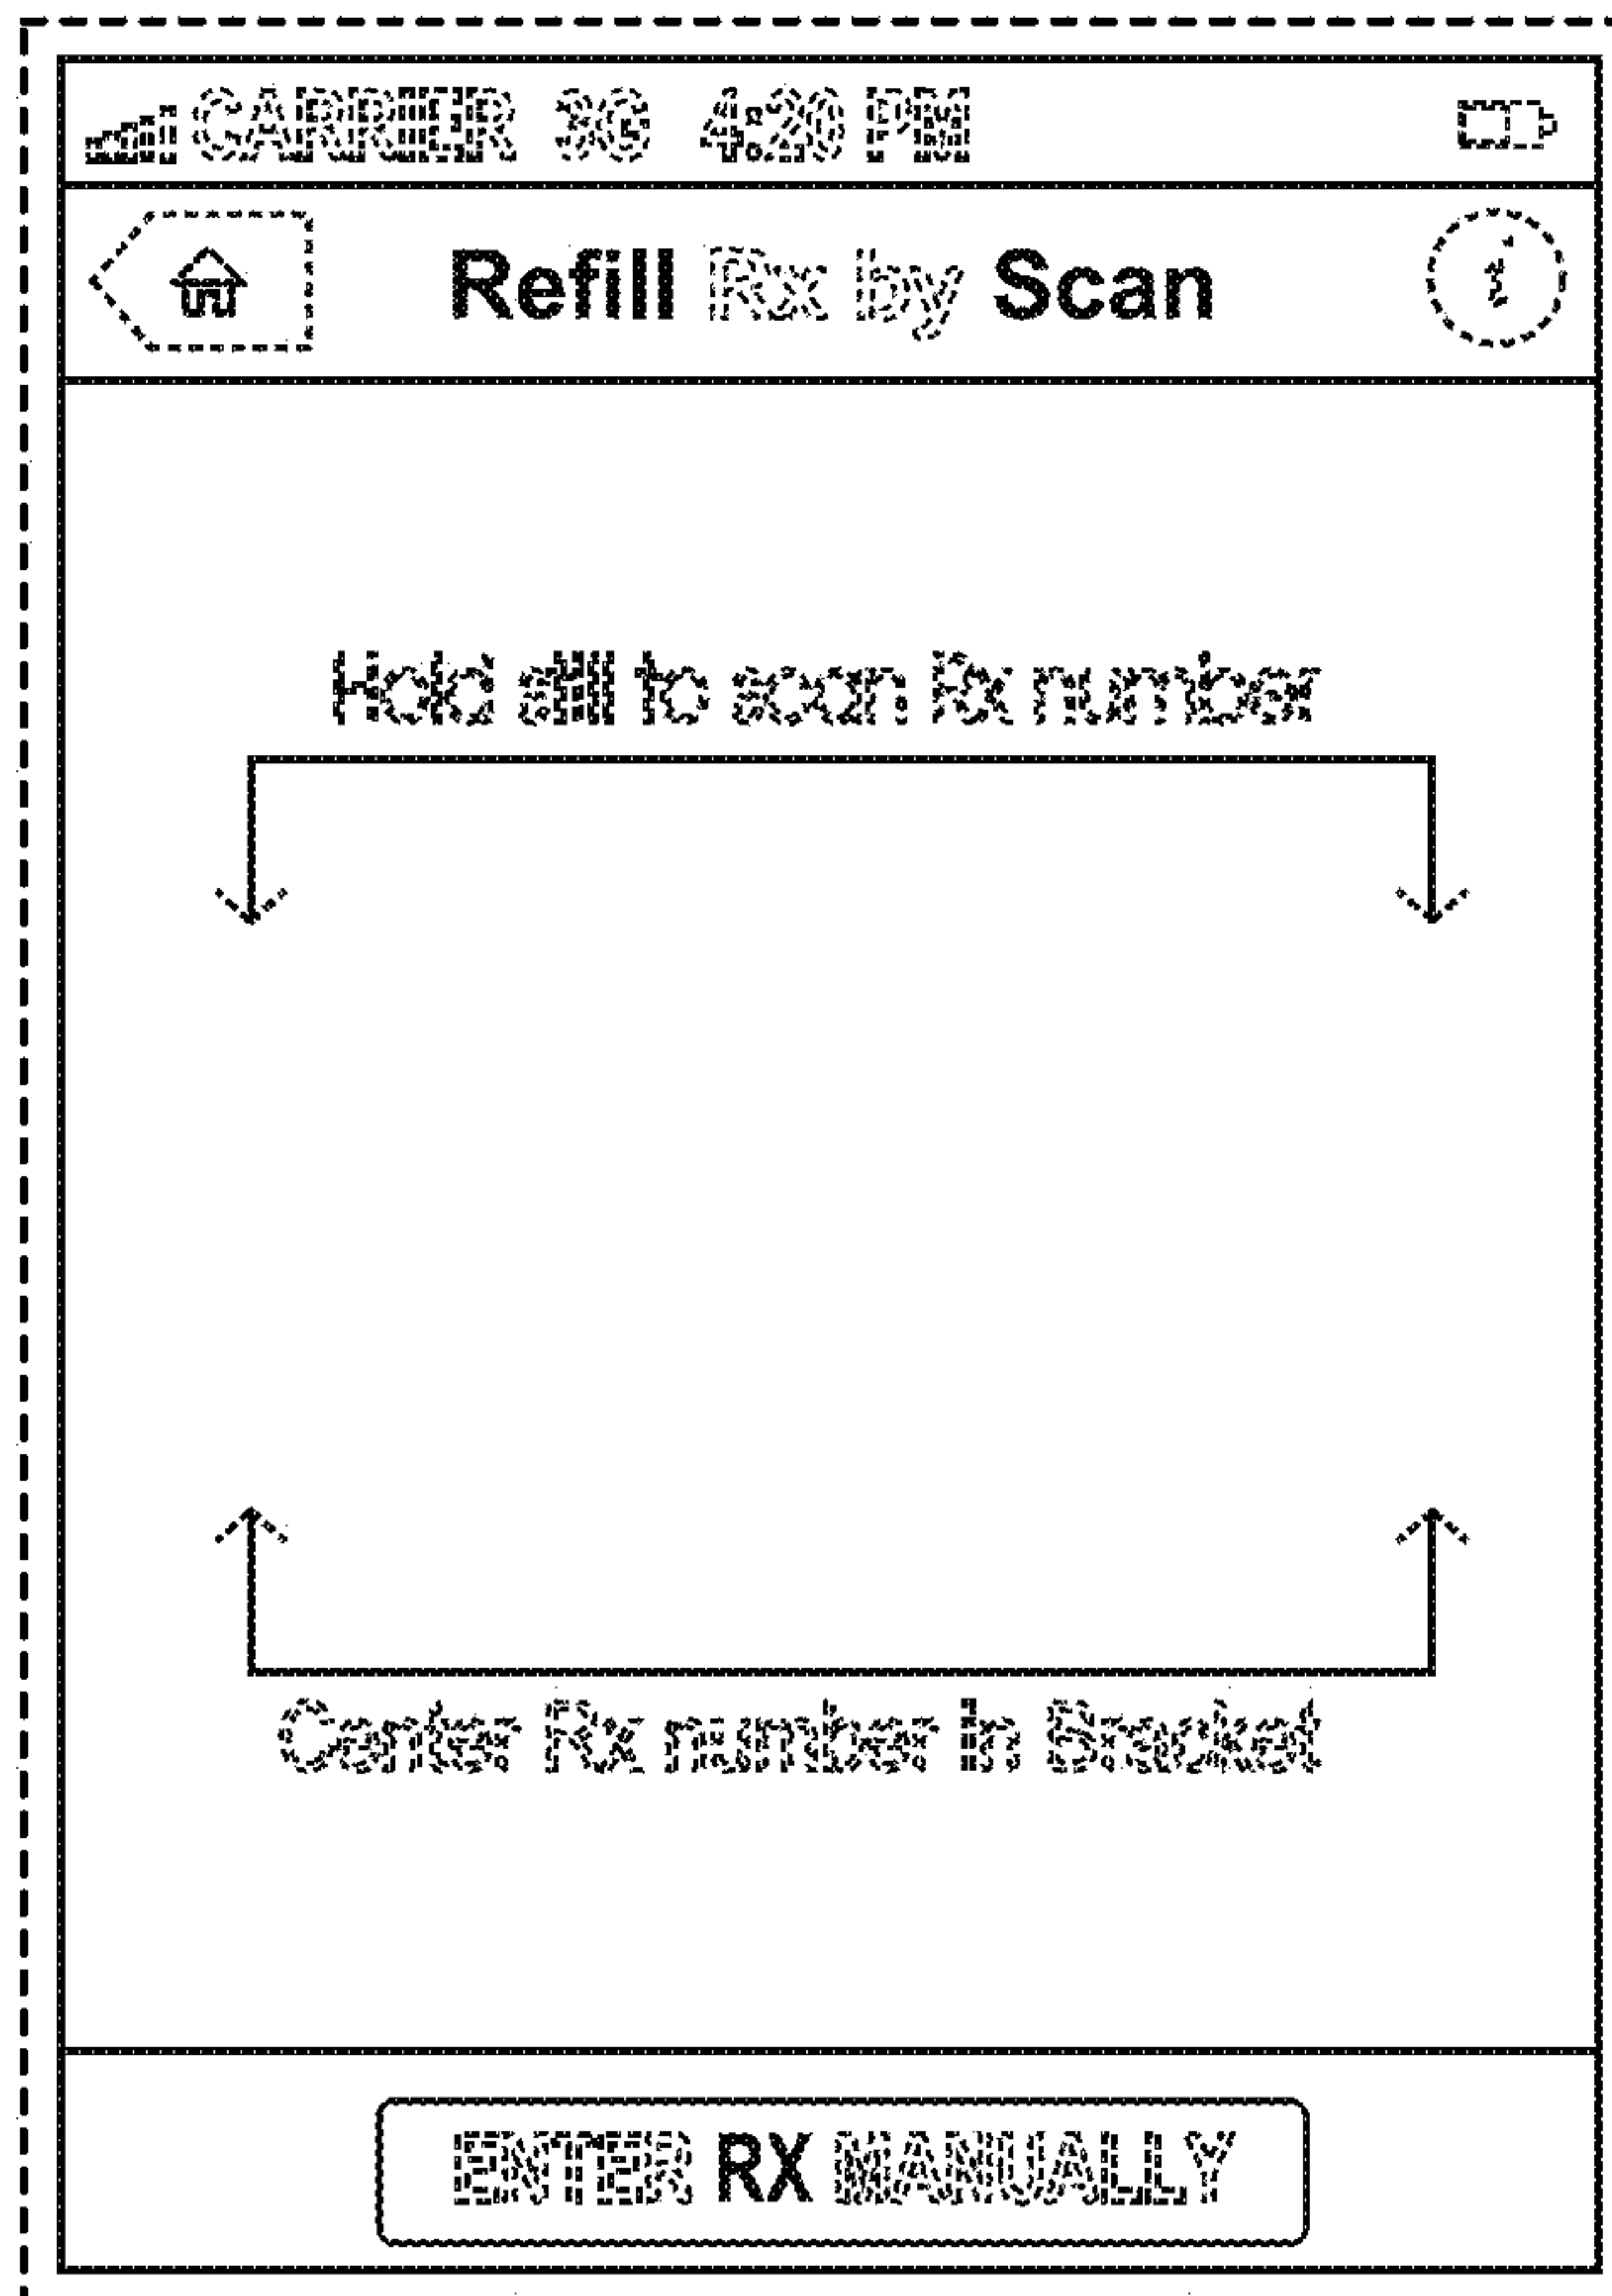

FIG. 1

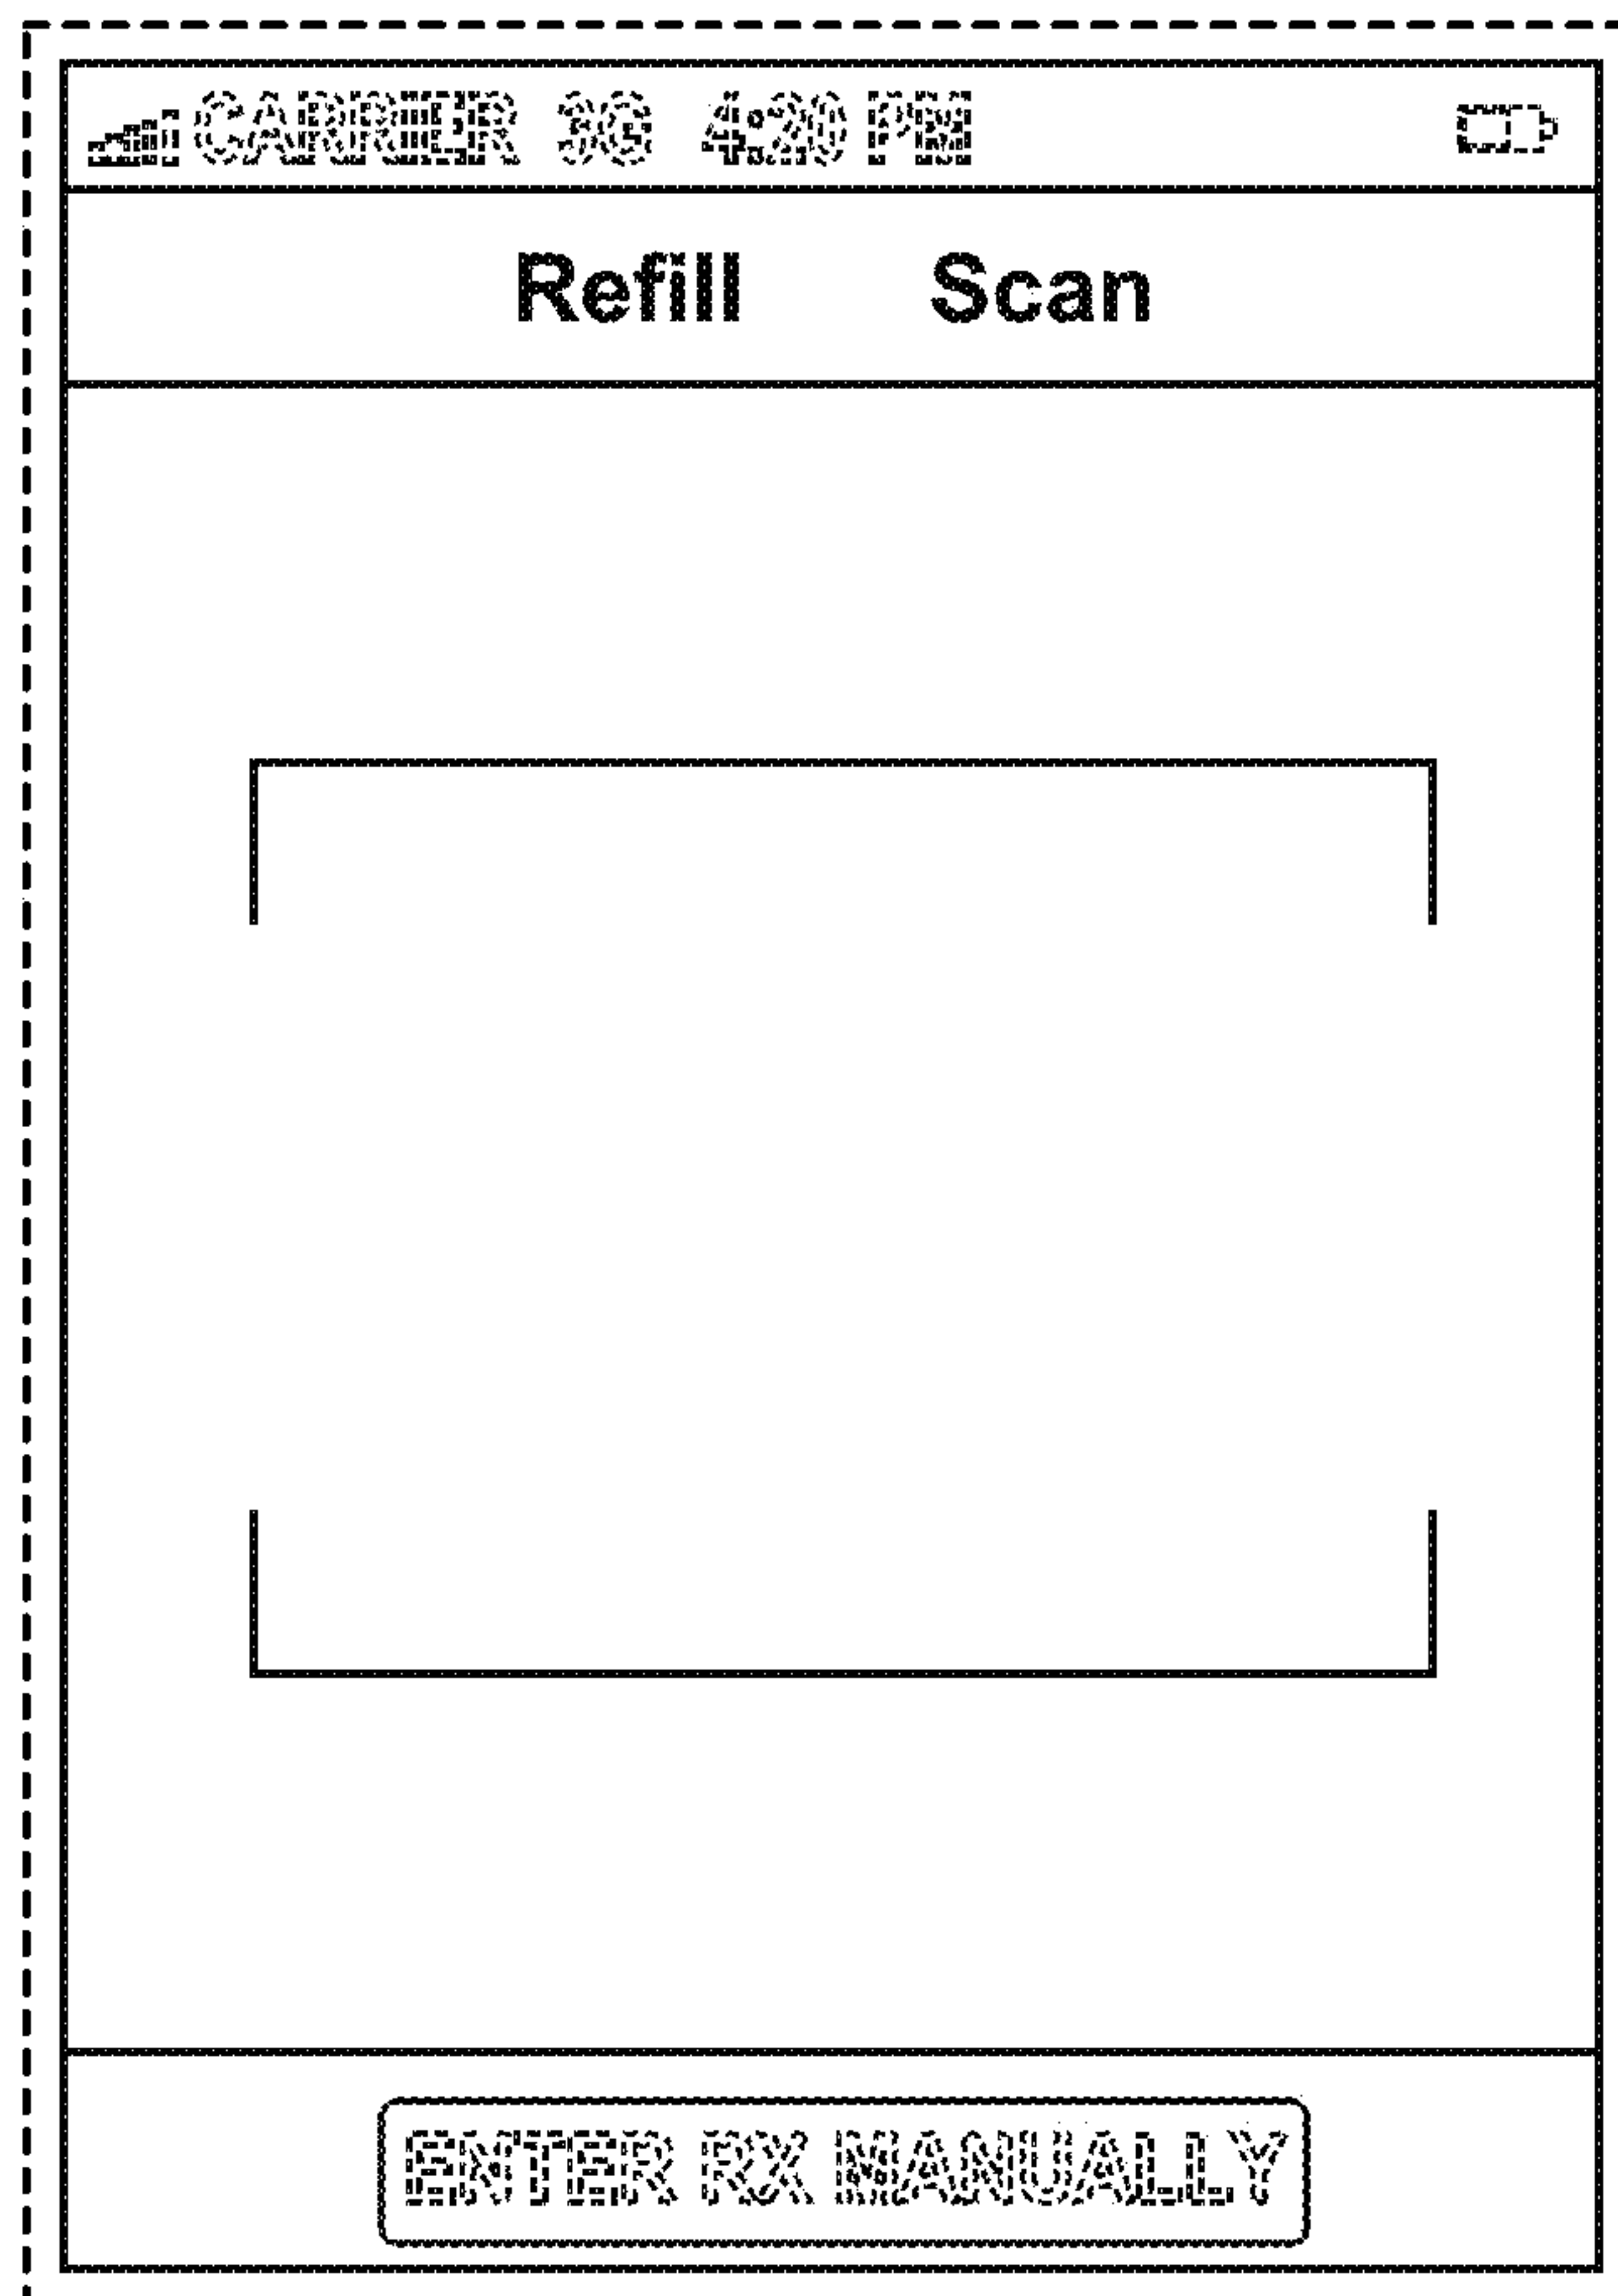

FIG. 2
