(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is the first image in a sequence for a display screen with transitional graphical user interface showing our new design; and,

FIG. 2 is the second image thereof.

The appearance of the transitional graphical user interface sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another forms no part of the claimed design. The broken line showing of text and the remainder of the graphical user interface and display screen illustrates portions of the graphical user interface and display screen that form no part of the claimed design.
