(57) **CLAIM**

The ornamental design for a microbiologically interactive growth platform, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a microbiologically interactive growth platform showing my new design; FIG. 2 is a bottom plan view thereof; FIG. 3 is a top plan view thereof; FIG. 4 is a front elevational view thereof; FIG. 5 is a left-side elevational view thereof; FIG. 6 is a rear elevational view thereof; FIG. 7 is a right-side elevational view thereof; and, FIG. 8 is a perspective view of a second embodiment of FIG. 1, the only difference being the configuration of the upper end of the positioning pin, it being understood that all other surfaces are the same as those of the first embodiment. The broken lines show portions of the microbiologically interactive growth platform that form no part of the claimed design.
