(57) **CLAIM**

I claim the ornamental design for a wearable data capture device, as shown and described.

DESCRIPTION

FIG. 1 is a first perspective view of a wearable data capture device with a rotatable assembly in a first position; FIG. 2 is a second perspective view thereof with the rotatable assembly in the first position; FIG. 3 is the first perspective view thereof with the rotatable assembly in a second position different than the first position; FIG. 4 is the second perspective view thereof with the rotatable assembly in the second position; FIG. 5 is a top view thereof with the rotatable assembly in the first position; FIG. 6 is a bottom view thereof with the rotatable assembly in the first position; FIG. 7 is a front view thereof with the rotatable assembly in the first position; FIG. 8 is a back view thereof with the rotatable assembly in the first position; FIG. 9 is a first side view thereof with the rotatable assembly in the first position; and, FIG. 10 is a second side view thereof with the rotatable assembly in the first position. The broken lines are directed to environment and are for illustrative purposes only. Broken lines form no part of the design claimed.
