In a first embodiment, the appearance of the transitional icon transitions sequentially from the image illustrated in FIG. 1 to the image illustrated in FIG. 14.

In a second embodiment, the appearance of the transitional icon transitions sequentially from the image illustrated in FIG. 14 to the image illustrated in FIG. 1.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period does not form any part of the claimed design. Further, the broken lines in the drawings showing a display screen or portion thereof do not form any part of the claimed design.
