(57) **CLAIM**

The ornamental design for bezel for information handling system, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the bezel for information handling system comprising the present invention; FIG. 2 is a front elevation view thereof; FIG. 3 is a rear elevation view thereof; FIG. 4 is a right side view thereof; FIG. 5 is a left side view thereof; FIG. 6 is a top view thereof; FIG. 7 is a bottom view thereof; and, FIG. 8 is a front elevation thereof stacked vertically with a related system.
Broken lines shown in the drawings illustrate portions of the bezel for information handling system and form no part of the claimed design.
