The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

**DESCRIPTION**

See application file for complete search history.

The FIGURE is a front view of a display screen or portion thereof with graphical user interface showing our new design.

The outer perimeter shown in broken line in the FIGURE depicts a display screen or portion thereof and forms no part of the claimed design. The broken lines that are contiguous with the edges of solid-tone subject matter shown in the FIGURE show interior boundaries of the claimed design and form no part thereof. The remaining broken lines in the FIGURE illustrate portions of the graphical user interface that form no part of the claimed design.
