(57) **CLAIM**
The ornamental design for a mobile computing device with a graphical user interface with schematic representation of geographic locations, as shown and described.

DESCRIPTION

The FIGURE is a front plan view of a mobile computing device with a graphical user interface with schematic representation of geographic locations of the present invention.
(Continued)

The broken line showing of a display screen with graphical user interface is included for the purpose of showing portions of the article which form no part of the claim.
