(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 shows a first image in a sequence for a display screen or portion thereof with animated graphical user interface showing our new design;

FIG. 2 shows a second image thereof; and,

FIG. 3 shows a third image thereof.

The claim is directed toward two embodiments. The appearance of the first embodiment of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-3. The appearance of the second embodiment sequentially transitions, in the reverse order of the first embodiment, between the images shown in FIGS. 3-1. The process or period which one image transitions to another image forms no part of the claimed design.

The broken line showing a display screen or portion thereof and all other broken lines showing portions of the graphical user interface form no part of the claimed design.
