CLAIM

The ornamental design for a reflecting-mirror exchanger for telescope, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the front, left, and top sides of a reflecting-mirror exchanger for telescope showing our new design;

FIG. 2 is a front view thereof;

FIG. 3 is a rear view thereof;

FIG. 4 is a left side view thereof;

FIG. 5 is a right side view thereof;

FIG. 6 is a top plan view thereof;

FIG. 7 is a bottom plan view thereof;

FIG. 8 is a front view in an alternate position in which the links are shortened; and,

FIG. 9 is a perspective view in an environment of usage.

The broken lines shown in the drawings depict environmental subject matter that forms no part of the claimed design.

1 Claim, 9 Drawing Sheets
