(57) **CLAIM**

The ornamental design for an anterior lumber interbody fusion device, as shown and described.

DESCRIPTION

FIG. 1 is a front-side-top perspective view of an anterior lumber interbody fusion device in accordance with an embodiment of the present invention, wherein the corresponding bottom perspective view is identical;

FIG. 2 is rear-side-top perspective view of the anterior lumber interbody fusion device shown in FIG. 1, wherein the corresponding bottom perspective view is identical;

FIG. 3 is front-top perspective view of the anterior lumber interbody fusion device shown in FIG. 1, wherein the corresponding bottom perspective view is identical;

FIG. 4 is top view of the anterior lumber interbody fusion device shown in FIG. 1, wherein a bottom view is identical to the top view;

FIG. 5 is front elevation view of the anterior lumber interbody fusion device shown in FIG. 1;

FIG. 6 is a rear elevation view of the anterior lumber interbody fusion device shown in FIG. 1; and,

FIG. 7 is a right-side elevation view of the anterior lumber interbody fusion device shown in FIG. 1, wherein a left-side view is identical to the right-side elevation view.
