(57) **CLAIM**

The ornamental design for a display panel or screen with an animated graphical user interface, as shown and described.

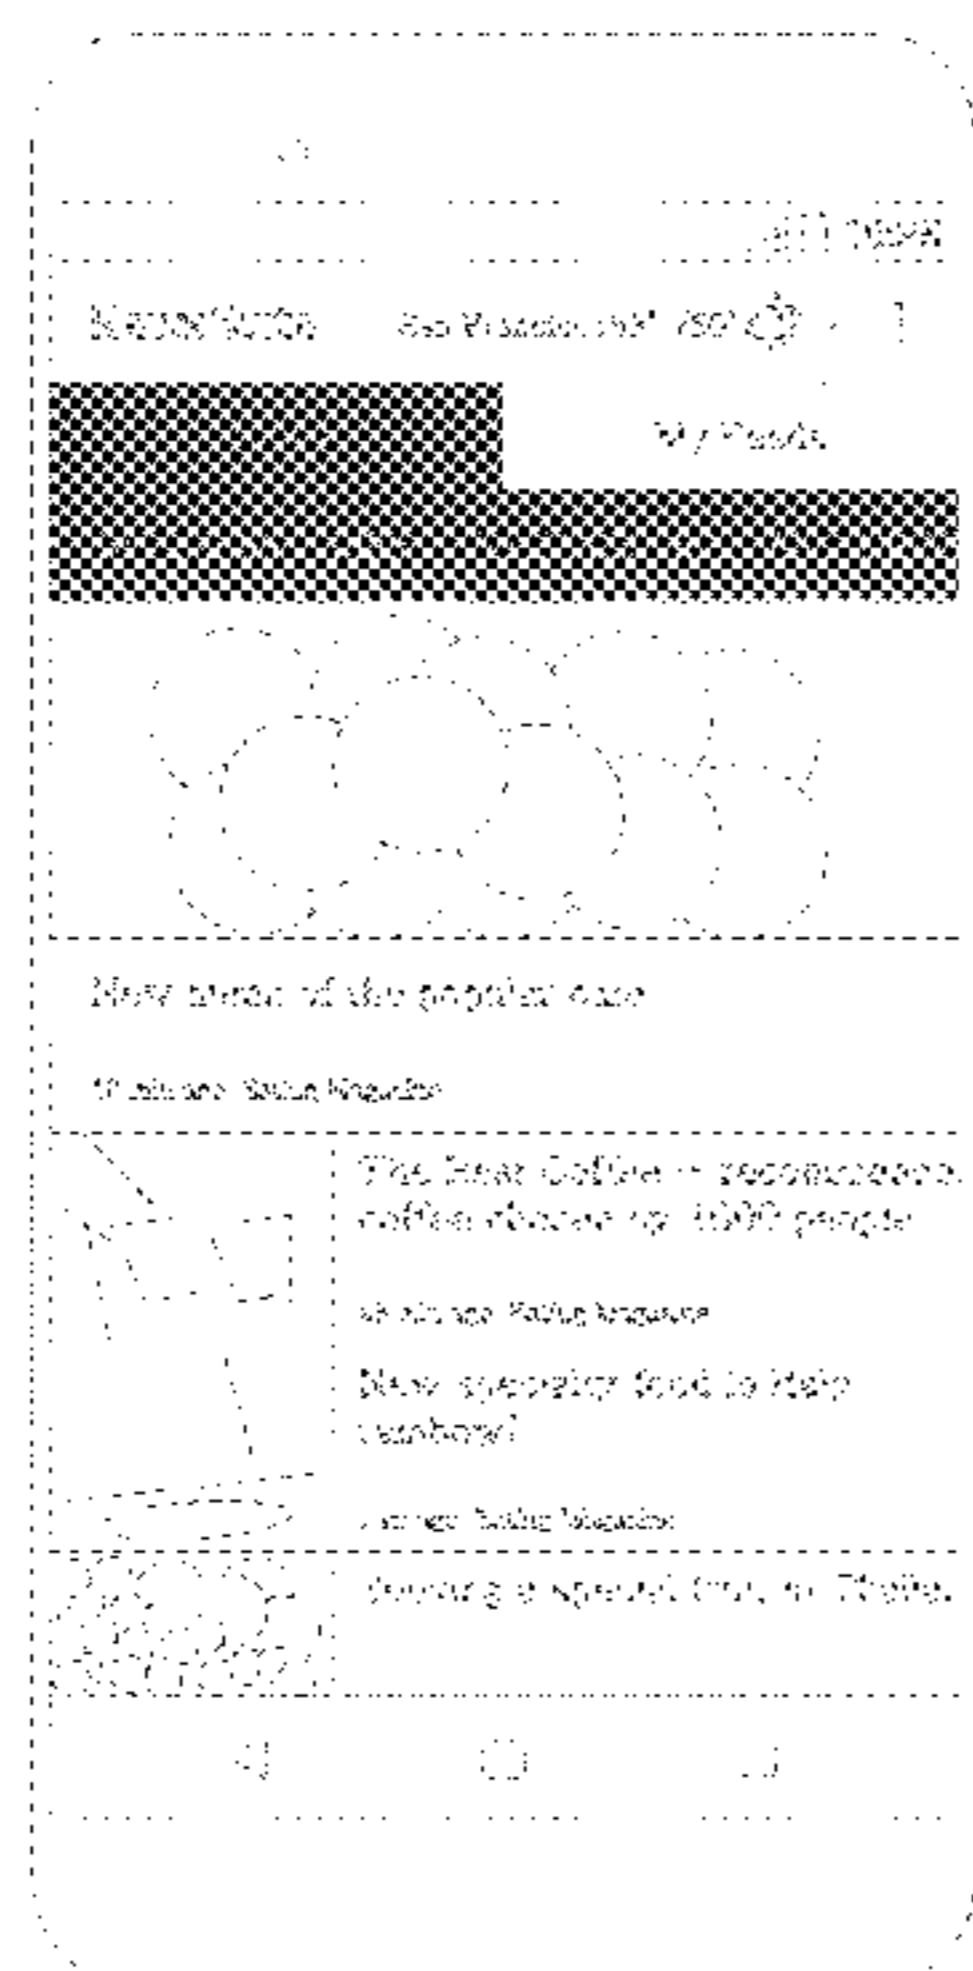

DESCRIPTION

FIG. 1 is a front view of a display panel or screen with a first image of an animated graphical user interface showing our new design; and,
FIG. 2 is a second image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 and 2. The process or period in which an image transitions to another forms no part of the claimed design.

The broken lines illustrating unclaimed portions of a display panel or screen with an animated graphical user interface form no part of the claimed design.
