(57) **CLAIM**

We claim the ornamental design for padding for head mounted audio-visual display system, as shown and described.

DESCRIPTION

FIG. 1 is a left front perspective view of padding for a head mounted audio-visual display system in a closed configuration showing our design;

FIG. 2 is a right rear perspective view thereof with the head mounted audio-visual display system in the closed configuration;

FIG. 3 is a left rear perspective view thereof with the head mounted audio-visual display system in the closed configuration;

FIG. 4 is a rear view thereof with the head mounted audio-visual display system in the closed configuration;

FIG. 5 is a top view thereof with the head mounted audio-visual display system in the closed configuration;

FIG. 6 is a bottom view thereof with the head mounted audio-visual display system in the closed configuration; and,

FIG. 7 is a rear view thereof with the head mounted audio-visual display system in an open configuration.

The broken lines depicting various portions of the head mounted audio-visual display system are included for the purpose of illustrating environmental structure and form no part of the claimed design.
