(57) **CLAIM**

The ornamental design for an electric motor control device, as shown and described.

DESCRIPTION

FIG. **1** is a front view of the electric motor control device showing my new design;
FIG. **2** is a rear view thereof;
FIG. **3** is a top view thereof;
FIG. **4** is a bottom view thereof;
FIG. **5** is a left side view thereof;
FIG. **6** is a right side view thereof;
FIG. **7** is a front, left side and top perspective view thereof,
FIG. **8** is a front view of the electric motor control device of FIG. **1**, showing a cover of the electric motor control device in an open state;
FIG. **9** is a rear view of the electric motor control device of FIG. **1**, showing the cover in an open state;
FIG. **10** is a top view of the electric motor control device of FIG. **1**, showing the cover in an open state;
FIG. **11** is a left side view of the electric motor control device of FIG. **1**, showing the cover in an open state;
FIG. **12** is a right side view of the electric motor control device of FIG. **1**, showing the cover in an open state; and,
FIG. **13** is a front, left side and top perspective view of the electric motor control device of FIG. **1**, showing the cover in an open state.
That portion of the drawings shown in broken lines forms no part of the claimed design.
