(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with animated graphical user interface showing a first image in a sequence according to an embodiment of the claimed design;

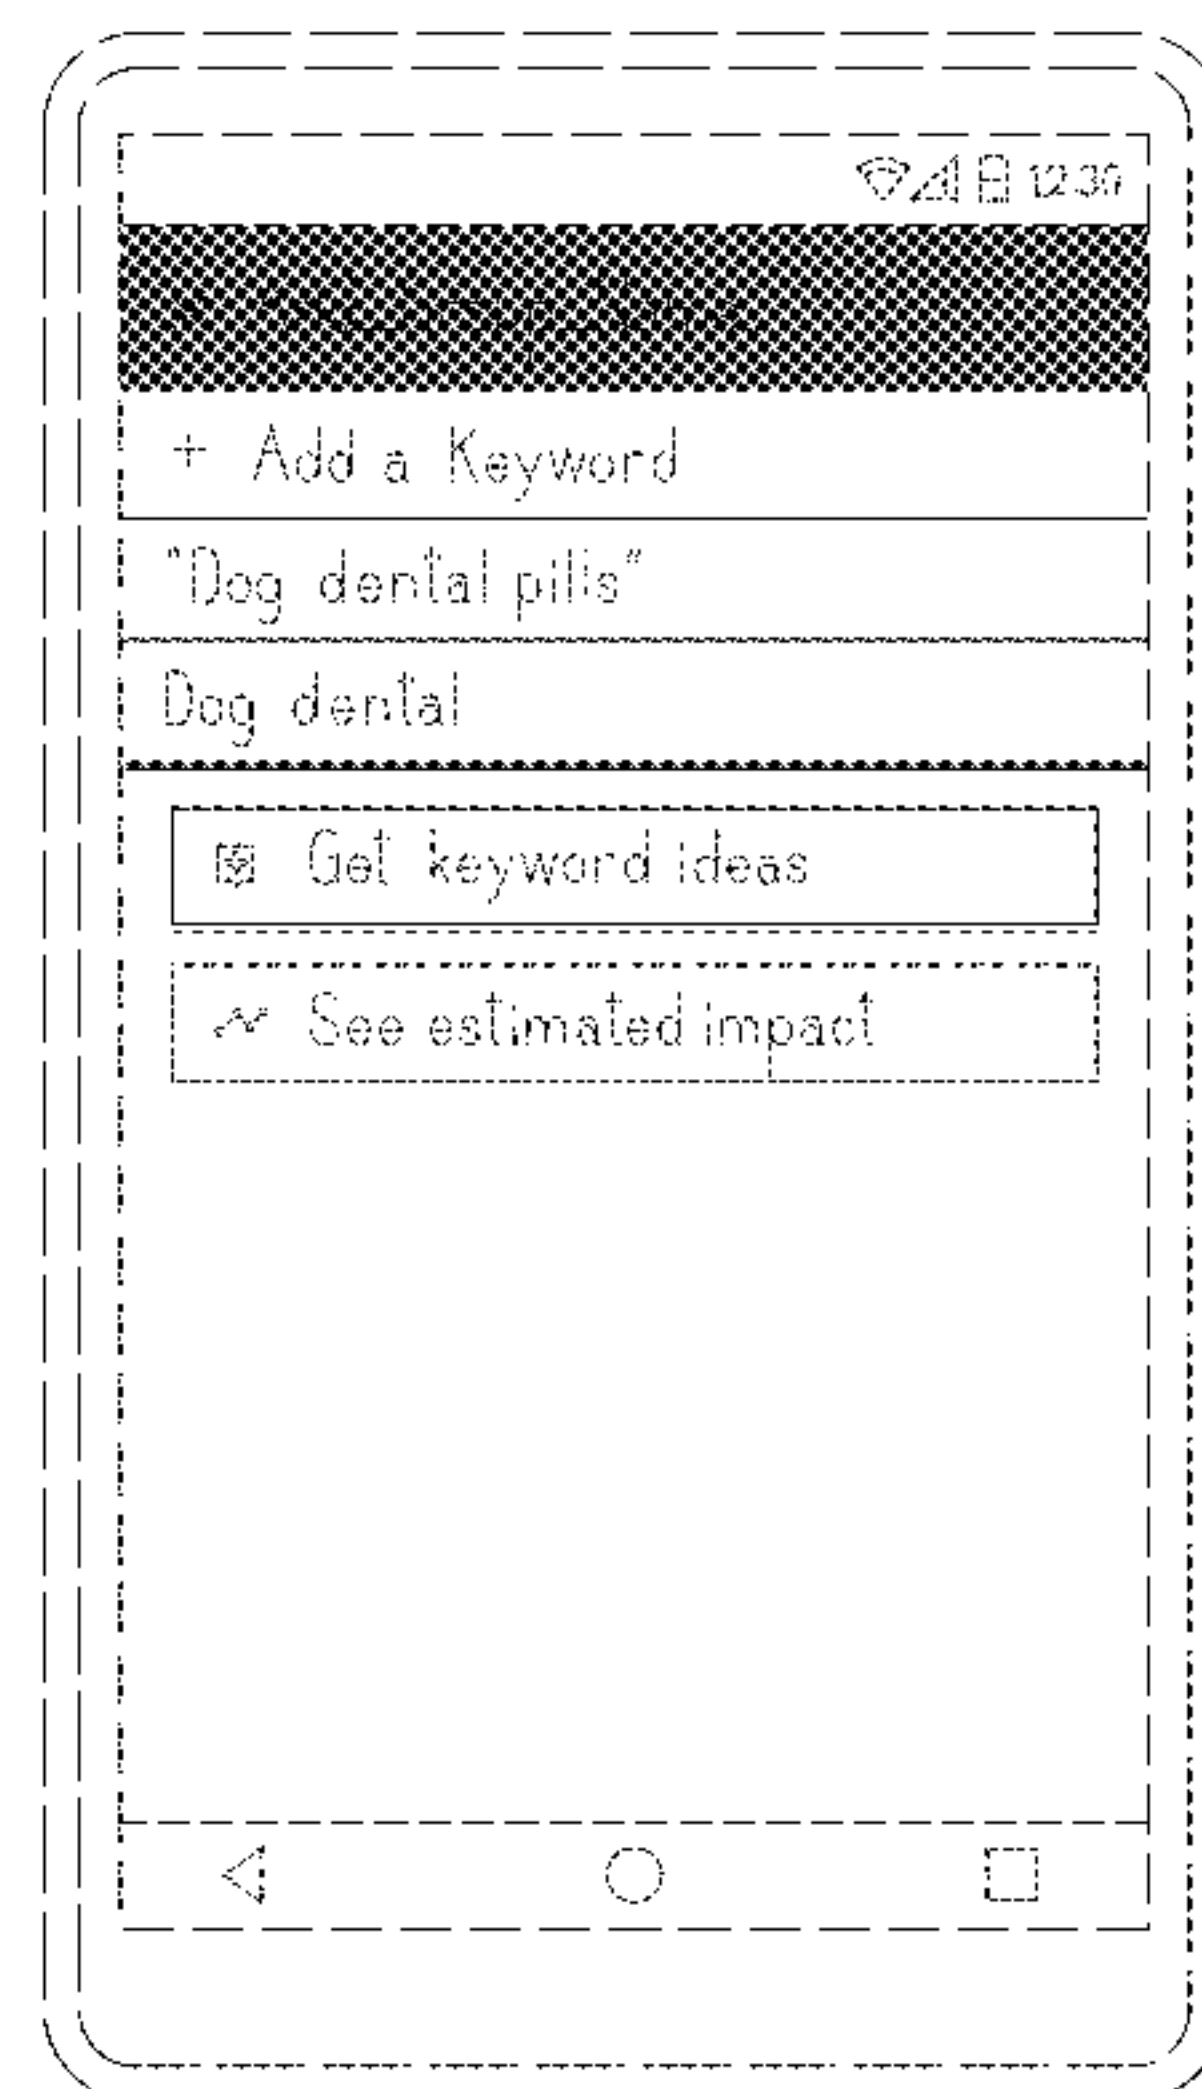

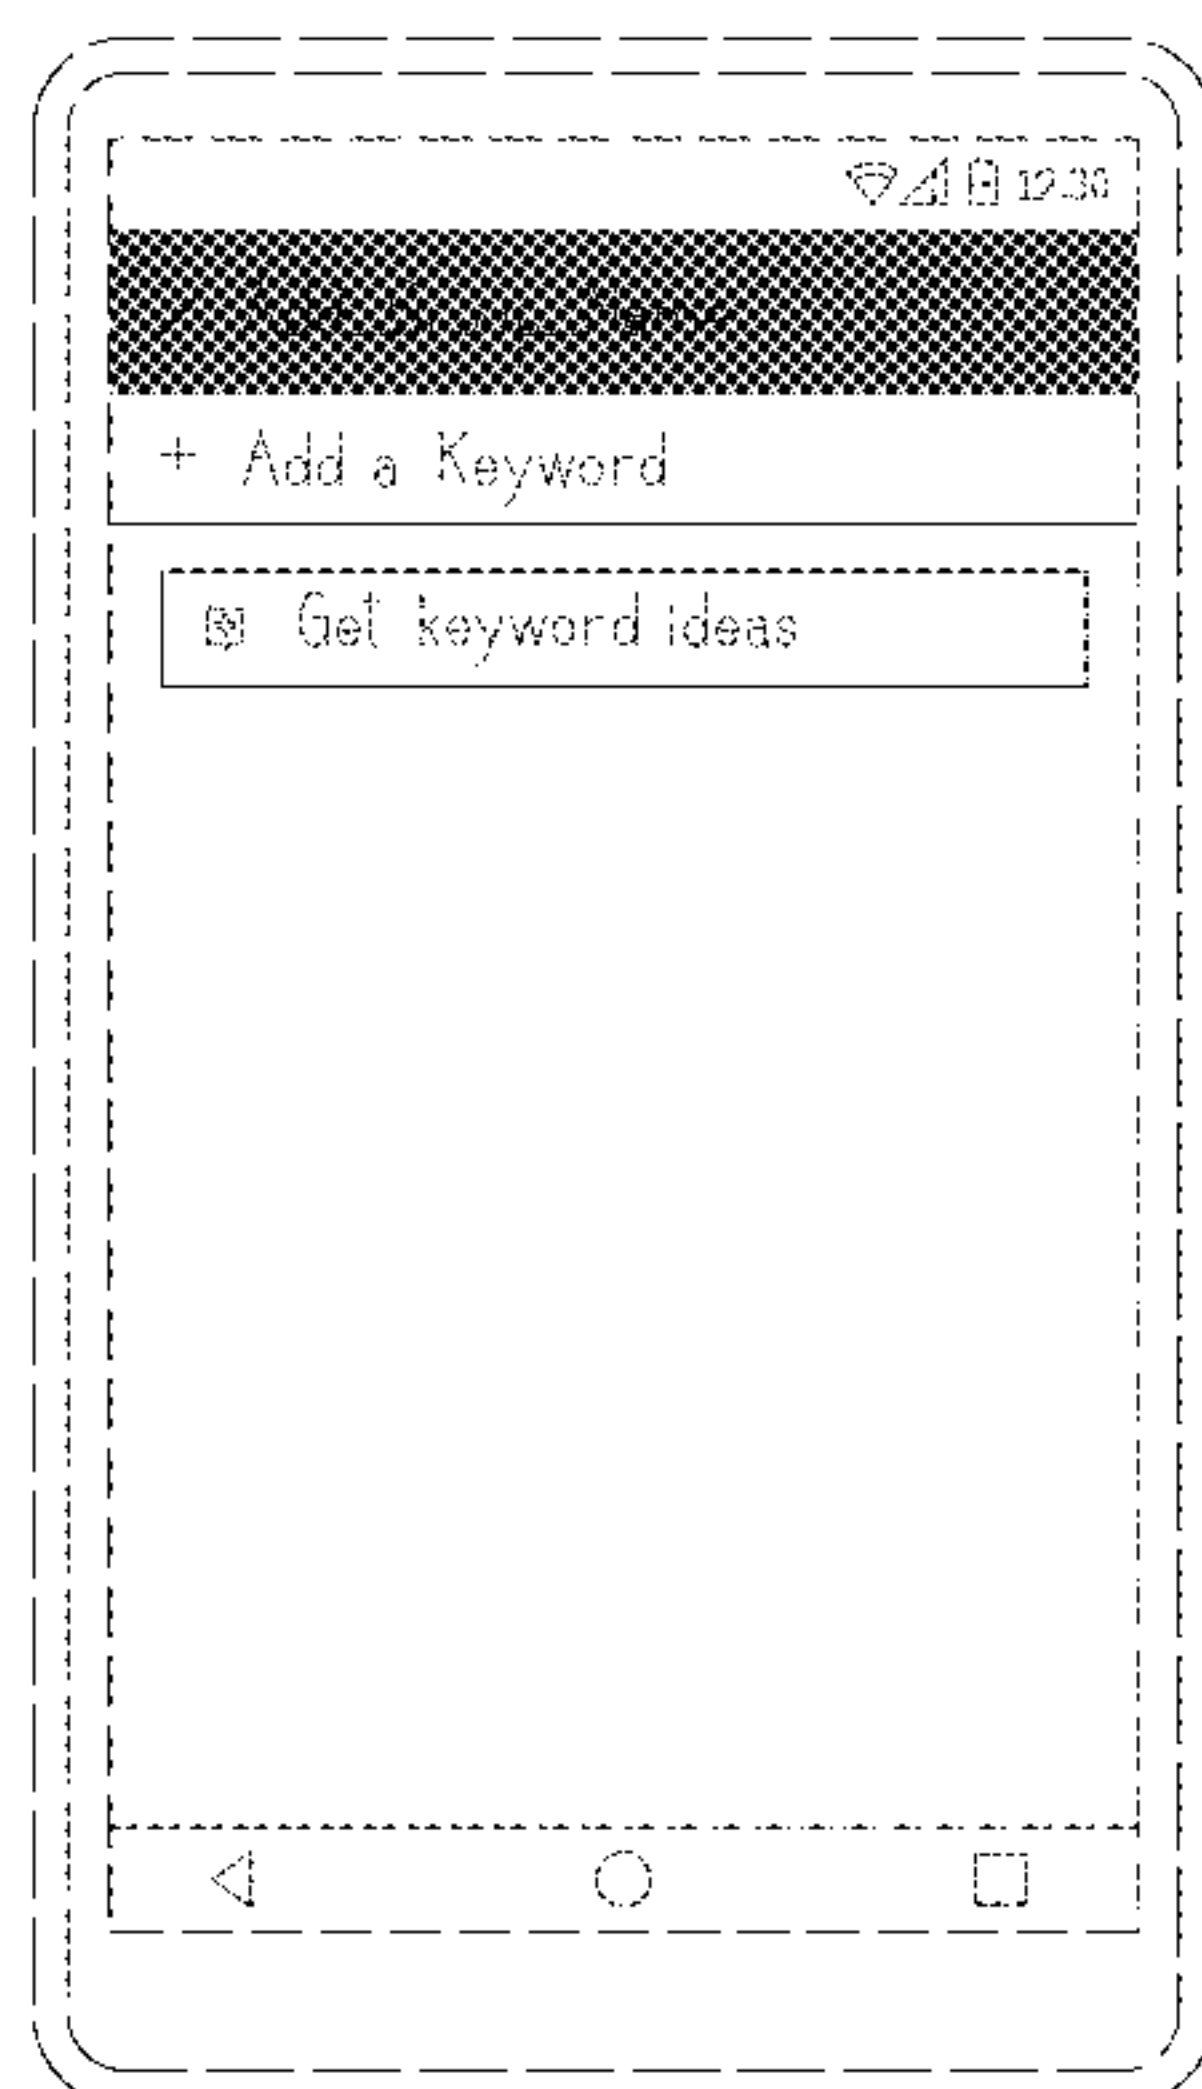

FIG. 2 is a front view showing a second image in the sequence according to the claimed design; and,

FIG. 3 is a front view showing a third image in the sequence according to the claimed design.

The process or period in which an image transitions to another image forms no part of the claimed design.

The longer broken-line showing of a mobile electronic device and all other broken lines illustrate environmental structure and form no part of the claimed design. The boundaries shown for the electronic device and the display screen provide a context of the claimed design as being on an article of manufacture, and are not intended to be limiting of a scale of the claimed design relative to the display screen.
