(57) **CLAIM**

The ornamental design for a three dimensional mastopexy implant, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a three dimensional mastopexy implant showing our new design;
 FIG. 2 is a top view of the three dimensional mastopexy implant shown in FIG. 1;
 FIG. 3 is a side view of the three dimensional mastopexy implant shown in FIG. 1;
 FIG. 4 is a bottom view of the three dimensional mastopexy implant shown in FIG. 1;
 FIG. 5 is another side view of the three dimensional mastopexy implant shown in FIG. 1;
 FIG. 6 is a rear view of the three dimensional mastopexy implant shown in FIG. 1
 FIG. 7 is a top, front, side perspective view of the three dimensional mastopexy implant shown in FIG. 1;
 FIG. 8 is a front view of another three dimensional mastopexy implant showing our new design;
 FIG. 9 is a top view of the three dimensional mastopexy implant shown in FIG. 8;
 FIG. 10 is a side view of the three dimensional mastopexy implant shown in FIG. 8;
 FIG. 11 is a bottom view of the three dimensional mastopexy implant shown in FIG. 8;
 FIG. 12 is another side view of the three dimensional mastopexy implant shown in FIG. 8;
 FIG. 13 is a rear view of the three dimensional mastopexy implant shown in FIG. 8;
 FIG. 14 is a top, front, side perspective view of the three dimensional mastopexy implant shown in FIG. 8;
 FIG. 15 is a front view of another three dimensional mastopexy implant showing our new design;
 FIG. 16 is a top view of the three dimensional mastopexy implant shown in FIG. 15;
 FIG. 17 is a side view of the three dimensional mastopexy implant shown in FIG. 15;
 FIG. 18 is a bottom view of the three dimensional mastopexy implant shown in FIG. 15;
 FIG. 19 is another side view of the three dimensional mastopexy implant shown in FIG. 15;
 FIG. 20 is a rear view of the three dimensional mastopexy implant shown in FIG. 15;
 FIG. 21 is a top, front, side perspective view of the three dimensional mastopexy implant shown in FIG. 15;
 FIG. 22 is a front view of another three dimensional mastopexy implant showing our new design;
 FIG. 23 is a top view of the three dimensional mastopexy implant shown in FIG. 22;
 FIG. 24 is a side view of the three dimensional mastopexy implant shown in FIG. 22;

FIG. **25** is a bottom view of the three dimensional mastopexy implant shown in FIG. **22**;

FIG. **26** is another side view of the three dimensional mastopexy implant shown in FIG. **22**;

FIG. **27** is a rear view of the three dimensional mastopexy implant shown in FIG. **22**; and,

FIG. **28** is a top, front, side perspective view of the three dimensional mastopexy implant shown in FIG. **22**.

The broken lines shown in the figures form no part of the claimed design.

UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO. : D836,778 S
APPLICATION NO. : 29/542048
DATED : December 25, 2018
INVENTOR(S) : Limem et al.

Page 1 of 1

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

On the Title Page

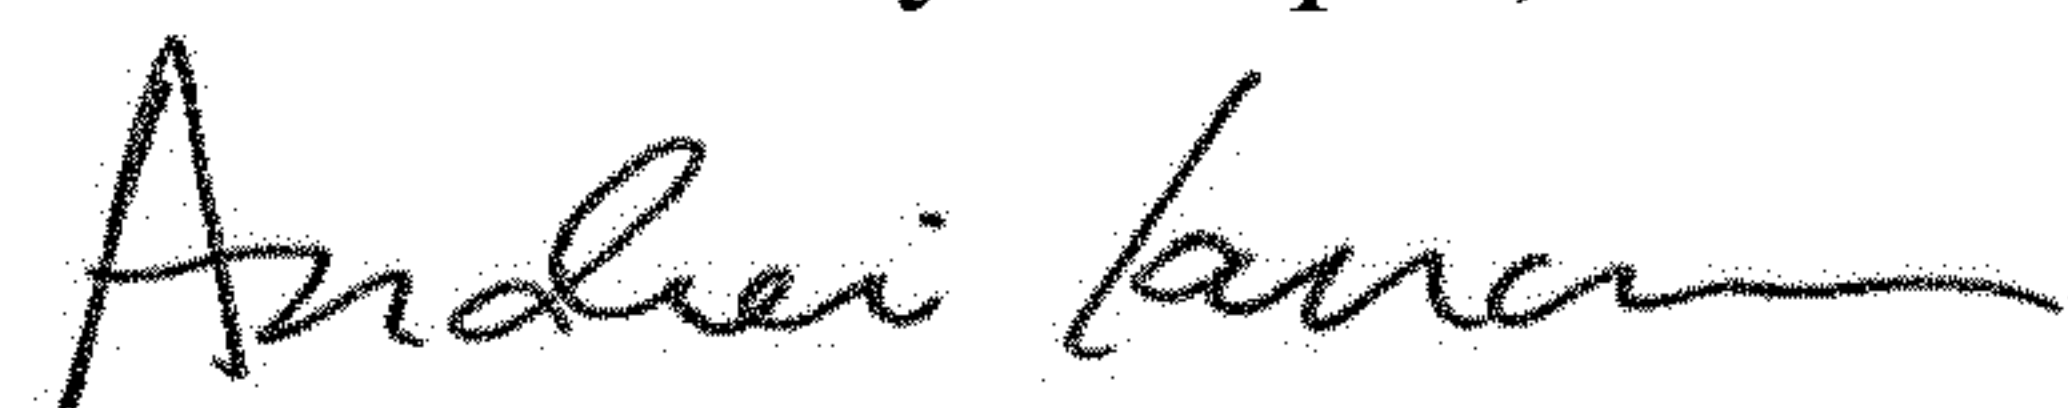

In the DESCRIPTION, page 2, Column 2, cancel the text beginning with “FIG. 8 is a front view of another three dimensional mastopexy implant showing our new design;” and ending with the text “FIG. 28 is a top, front, side perspective view of the three dimensional mastopexy implant shown in FIG. 22.” at page 3, Column 1.

Under the DESCRIPTION, “1 Claim, 25 Drawing Sheets” should read --1 Claim, 7 Drawing Sheets--.

In the Drawings

Cancel figures 8-28.

Signed and Sealed this
