(57) **CLAIM**

The ornamental design for a guiding surface rail.

DESCRIPTION

FIG. 1 is a perspective view of a guiding surface rail with a rounded surface;

FIG. 2 is a front view and back view of the guiding surface rail with the rounded surface;

FIG. 3 is a top view of the guiding surface rail with the rounded surface;

FIG. 4 is a bottom view of the guiding surface rail with the rounded surface;

FIG. 5 is a left view of the guiding surface rail with the rounded surface, the right view being a mirror image thereof;

FIG. 6 is a perspective view of a guiding surface rail with a rounded surface and an inverted pyramidal opening;

FIG. 7 is a front view and back view of the guiding surface rail with the rounded surface and the inverted pyramidal opening;

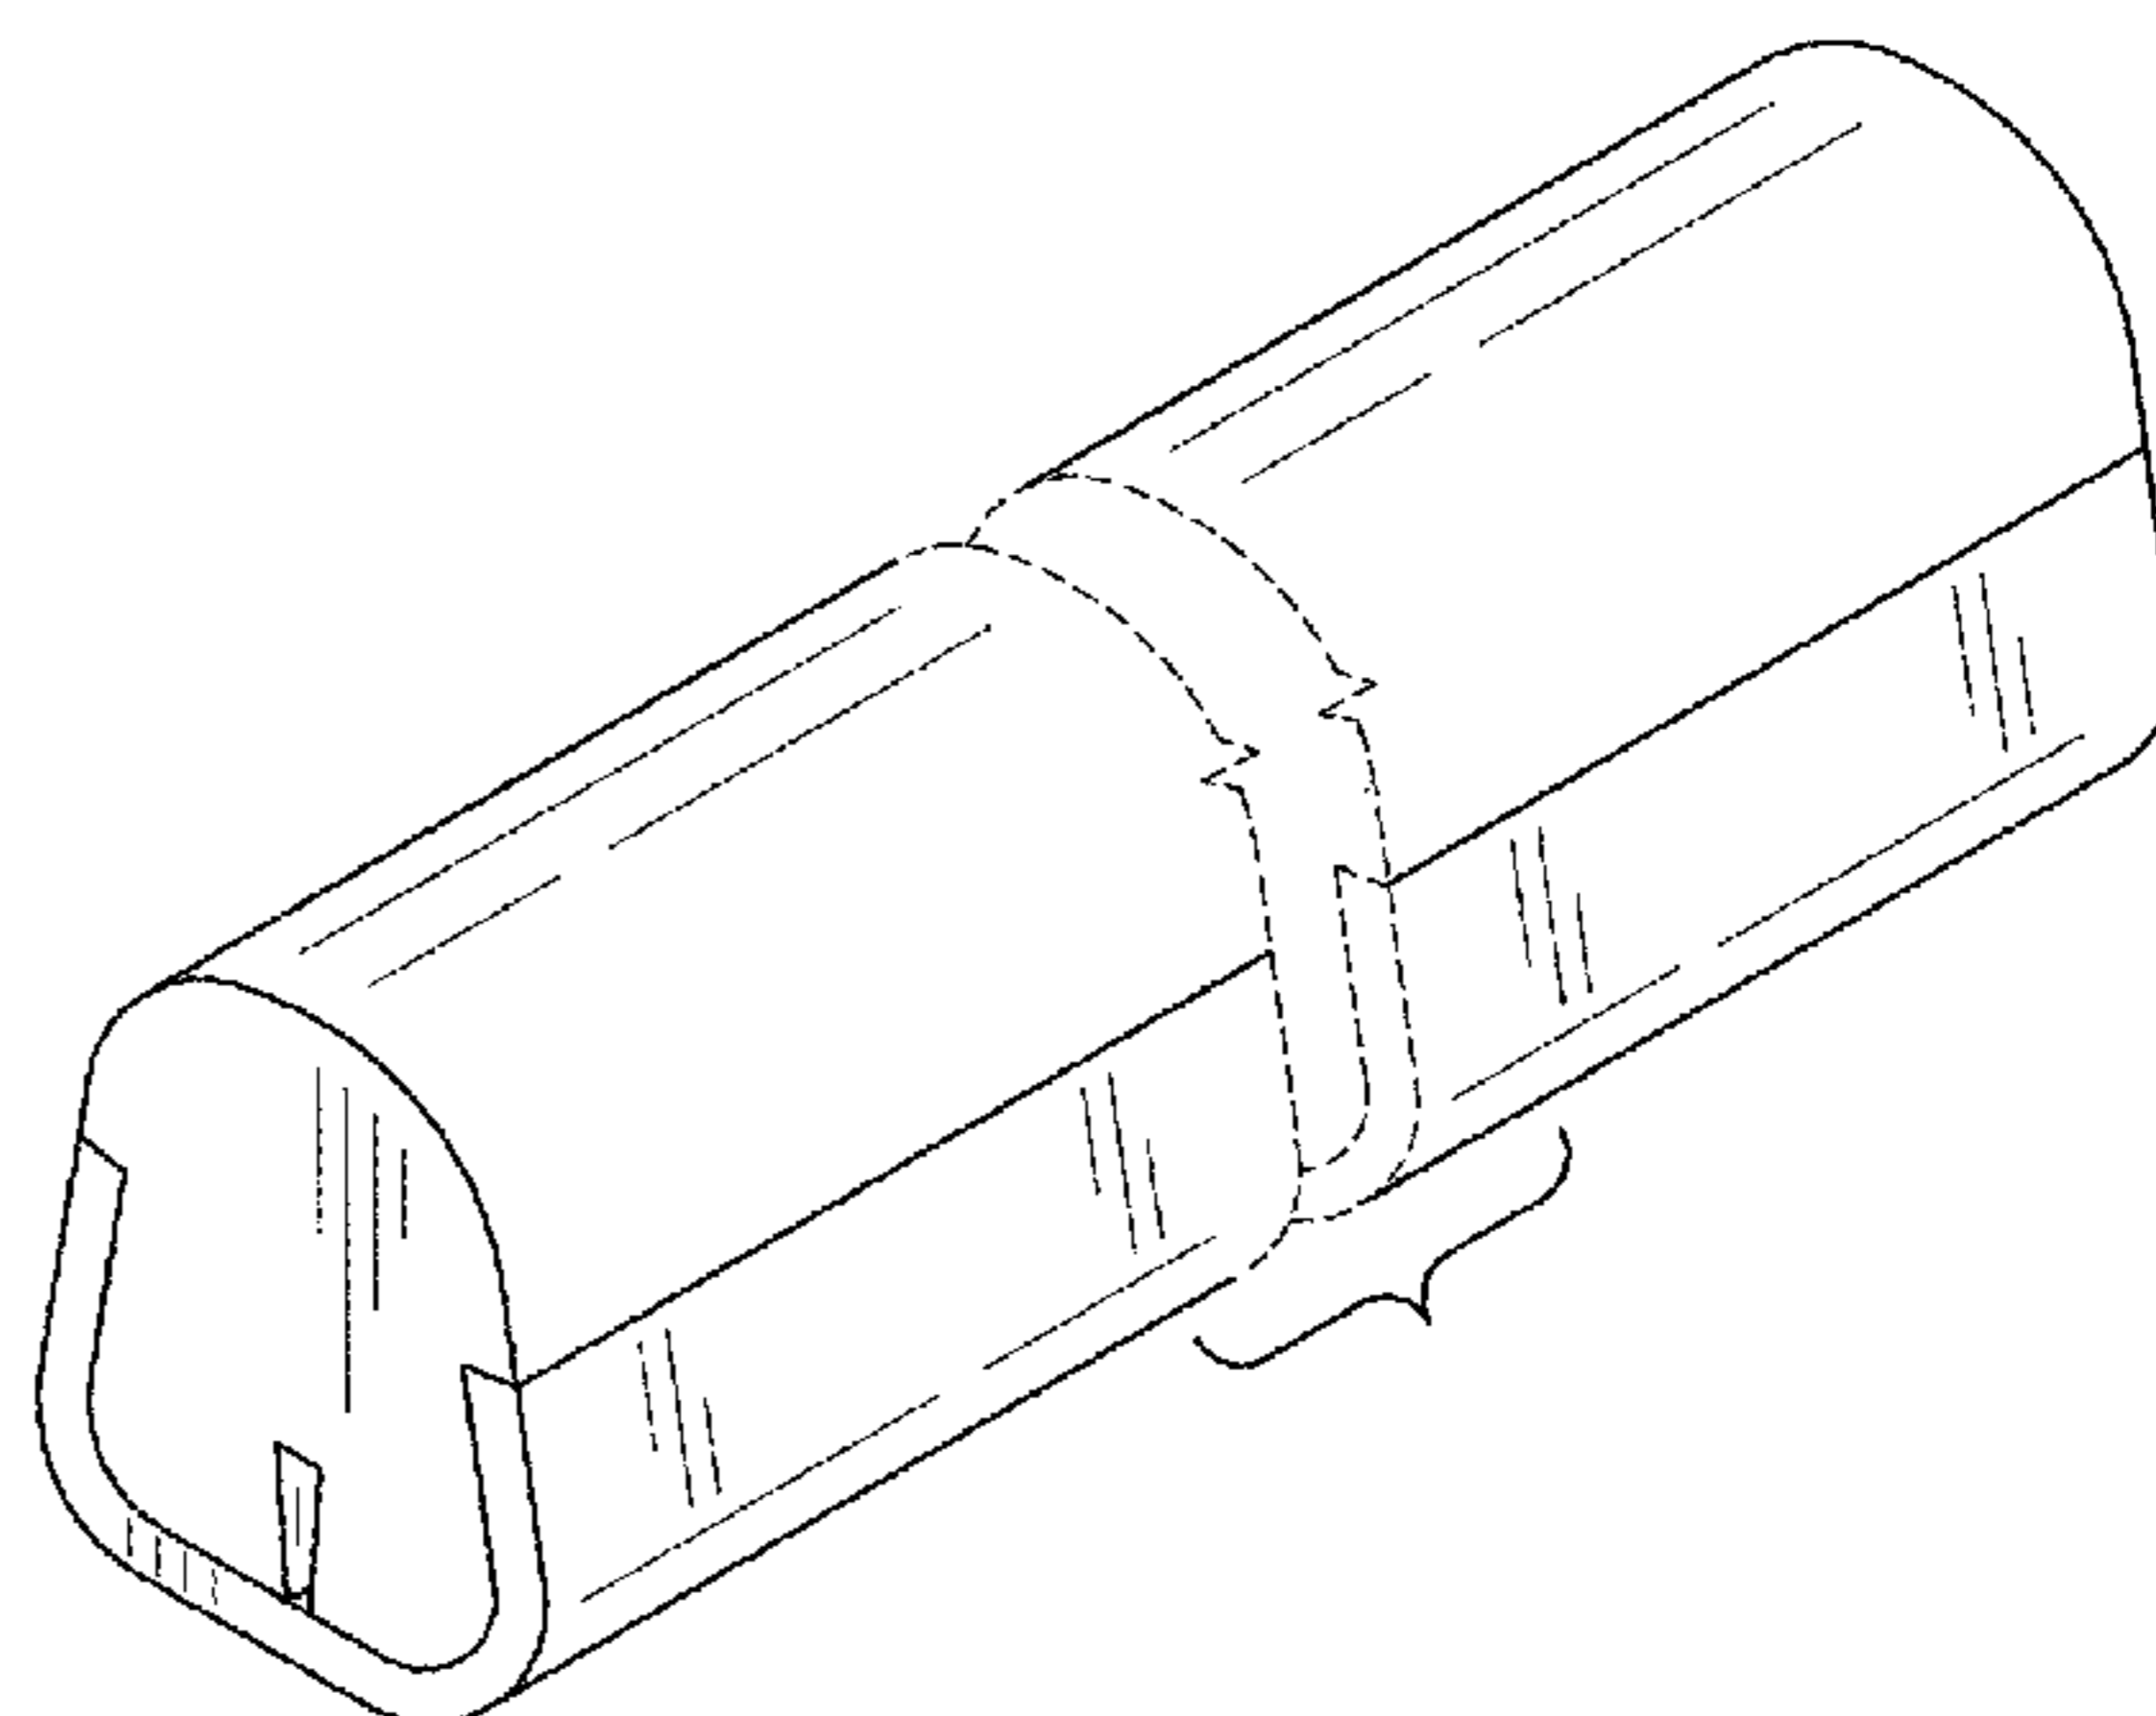

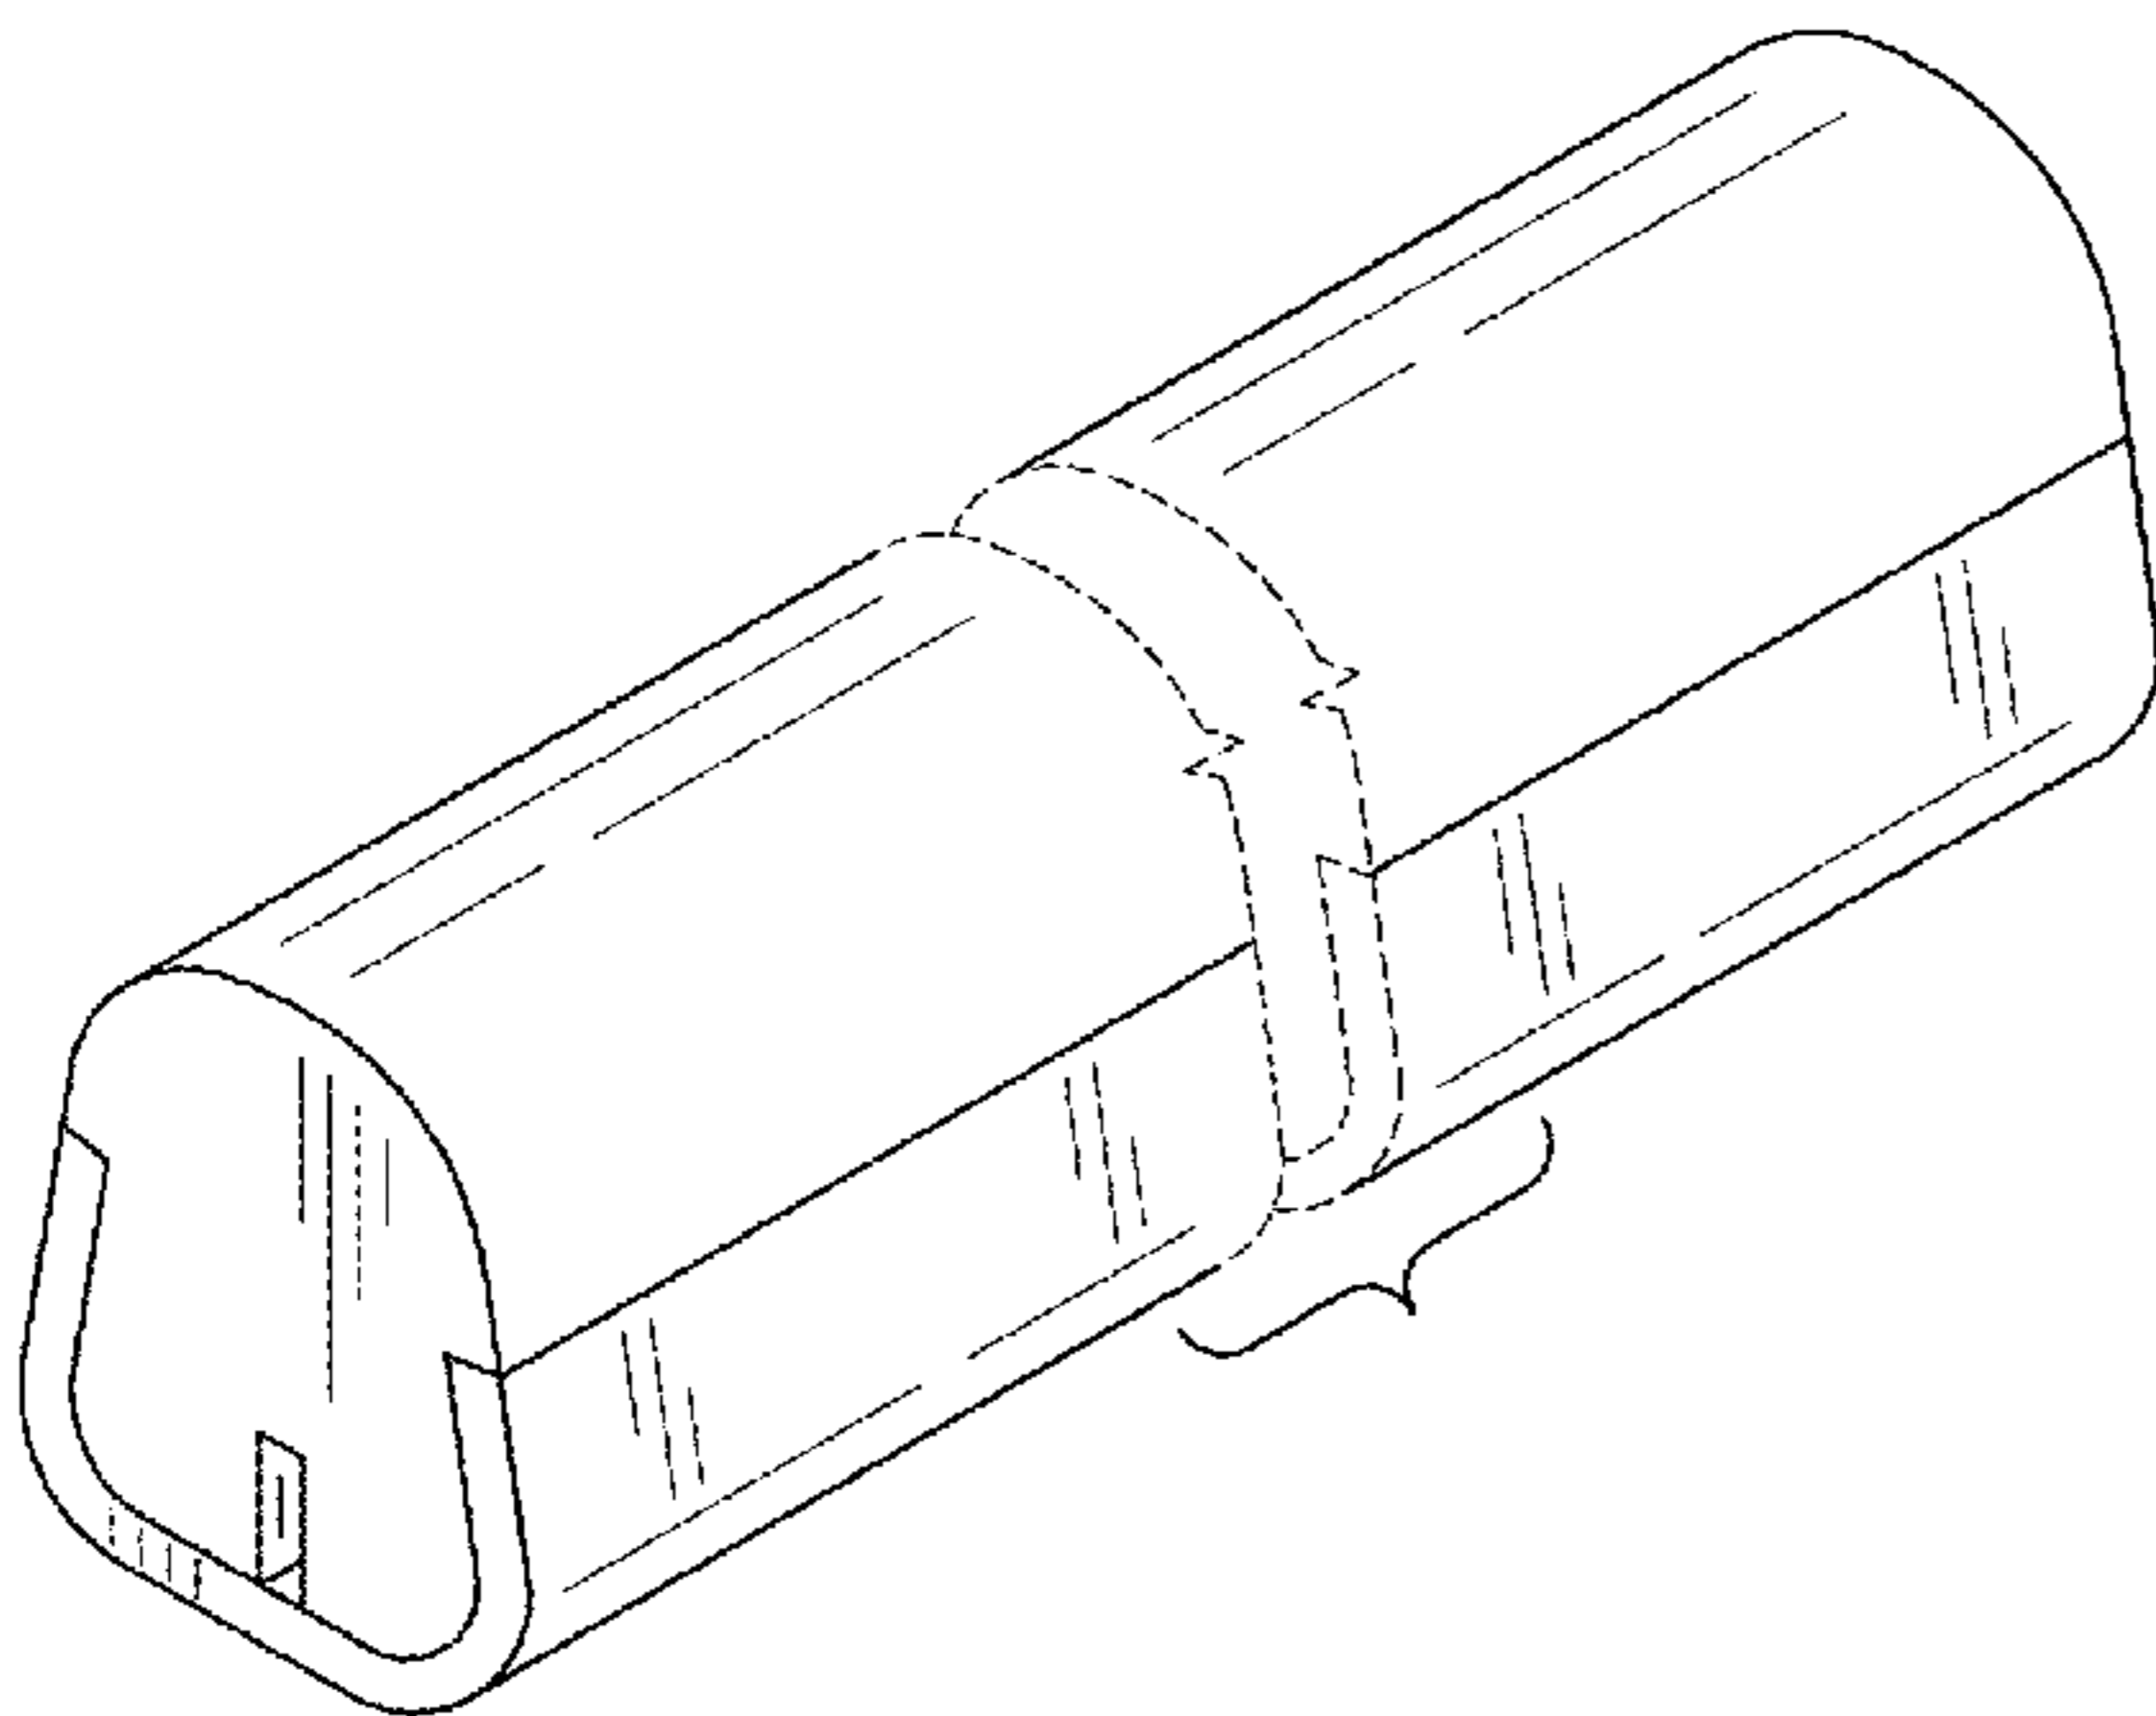

FIG. 8 is a top view of the guiding surface rail with the rounded surface and the inverted pyramidal opening;

FIG. 9 is a bottom view of the guiding surface rail with the rounded surface and the inverted pyramidal opening; and,

FIG. 10 is a left view of the guiding surface rail with the arcuate surface, the right view being a mirror image thereof.

The break lines depict the bounds of the Claim. The portion of the guiding surface rail between the break lines forms no part of the claimed design.

1 Claim, 2 Drawing Sheets
