## (57) CLAIM

The ornamental design for a container with cap, as shown and described.

## DESCRIPTION

FIG. 1 is an exploded, top perspective view of a container with cap showing a first embodiment of our new design; FIG. 2 is an exploded, bottom perspective view thereof; FIG. 3 is a non-exploded, front view thereof, the rear view being a mirror image of the front view; FIG. 4 is a non-exploded, right side view thereof, the left side view being a mirror image of the right side view; FIG. 5 is a non-exploded, top view thereof; and FIG. 6 is a non-exploded, bottom view thereof  
FIG. 7 is an exploded, top perspective view of a container with cap showing a second embodiment of our new design; FIG. 8 is an exploded, bottom perspective view thereof; FIG. 9 is a non-exploded, front view thereof, the rear view being a mirror image of the front view; FIG. 10 is a non-exploded, right side view thereof, the left side view being a mirror image of the right side view; FIG. 11 is a non-exploded, top view thereof; and FIG. 12 is a non-exploded, bottom view thereof.  
FIG. 13 is an exploded, top perspective view of a container with cap showing a third embodiment of our new design; FIG. 14 is an exploded, bottom perspective view thereof; FIG. 15 is a non-exploded, front view thereof, the rear view being a mirror image of the front view; FIG. 16 is a non-exploded, right side view thereof, the left side view being a mirror image of the right side view;

FIG. 17 is a non-exploded, top view thereof; and

FIG. 18 is a non-exploded, bottom view thereof.

FIG. 19 is an exploded, top perspective view of a container with cap showing a fourth embodiment of our new design;

FIG. 20 is an exploded, bottom perspective view thereof;

FIG. 21 is a non-exploded, front view thereof, the rear view being a mirror image of the front view;

FIG. 22 is a non-exploded, right side view thereof, the left side view being a mirror image of the right side view;

FIG. 23 is a non-exploded, top view thereof; and

FIG. 24 is a non-exploded, bottom view thereof.

FIG. 25 is an exploded, top perspective view of a container with cap showing a fifth embodiment of our new design;

FIG. 26 is an exploded, bottom perspective view thereof;

FIG. 27 is a non-exploded, front view thereof, the rear view being a mirror image of the front view;

FIG. 28 is a non-exploded, right side view thereof, the left side view being a mirror image of the right side view;

FIG. 29 is a non-exploded, top view thereof; and

FIG. 30 is a non-exploded, bottom view thereof.

FIG. 31 is an exploded, top perspective view of a container with cap showing a sixth embodiment of our new design;

FIG. 32 is an exploded, bottom perspective view thereof;

FIG. 33 is a non-exploded, front view thereof, the rear view being a mirror image of the front view;

FIG. 34 is a non-exploded, right side view thereof, the left side view being a mirror image of the right side view;

FIG. 35 is a non-exploded, top view thereof; and

FIG. 36 is a non-exploded, bottom view thereof.

FIG. 37 is an exploded, top perspective view of a container with cap showing a seventh embodiment of our new design;

FIG. 38 is an exploded, bottom perspective view thereof;

FIG. 39 is a non-exploded, front view thereof, the rear view being a mirror image of the front view;

FIG. 40 is a non-exploded, right side view thereof, the left side view being a mirror image of the right side view;

FIG. 41 is a non-exploded, top view thereof; and

FIG. 42 is a non-exploded, bottom view thereof.

FIG. 43 is an exploded, top perspective view of a container with cap showing an eighth embodiment of our new design;

FIG. 44 is an exploded, bottom perspective view thereof;

FIG. 45 is a non-exploded, front view thereof, the rear view being a mirror image of the front view;

FIG. 46 is a non-exploded, right side view thereof, the left side view being a mirror image of the right side view;

FIG. 47 is a non-exploded, top view thereof; and

FIG. 48 is a non-exploded, bottom view thereof.

FIG. 49 is an exploded, top perspective view of a container with cap showing a ninth embodiment of our new design;

FIG. 50 is an exploded, bottom perspective view thereof;

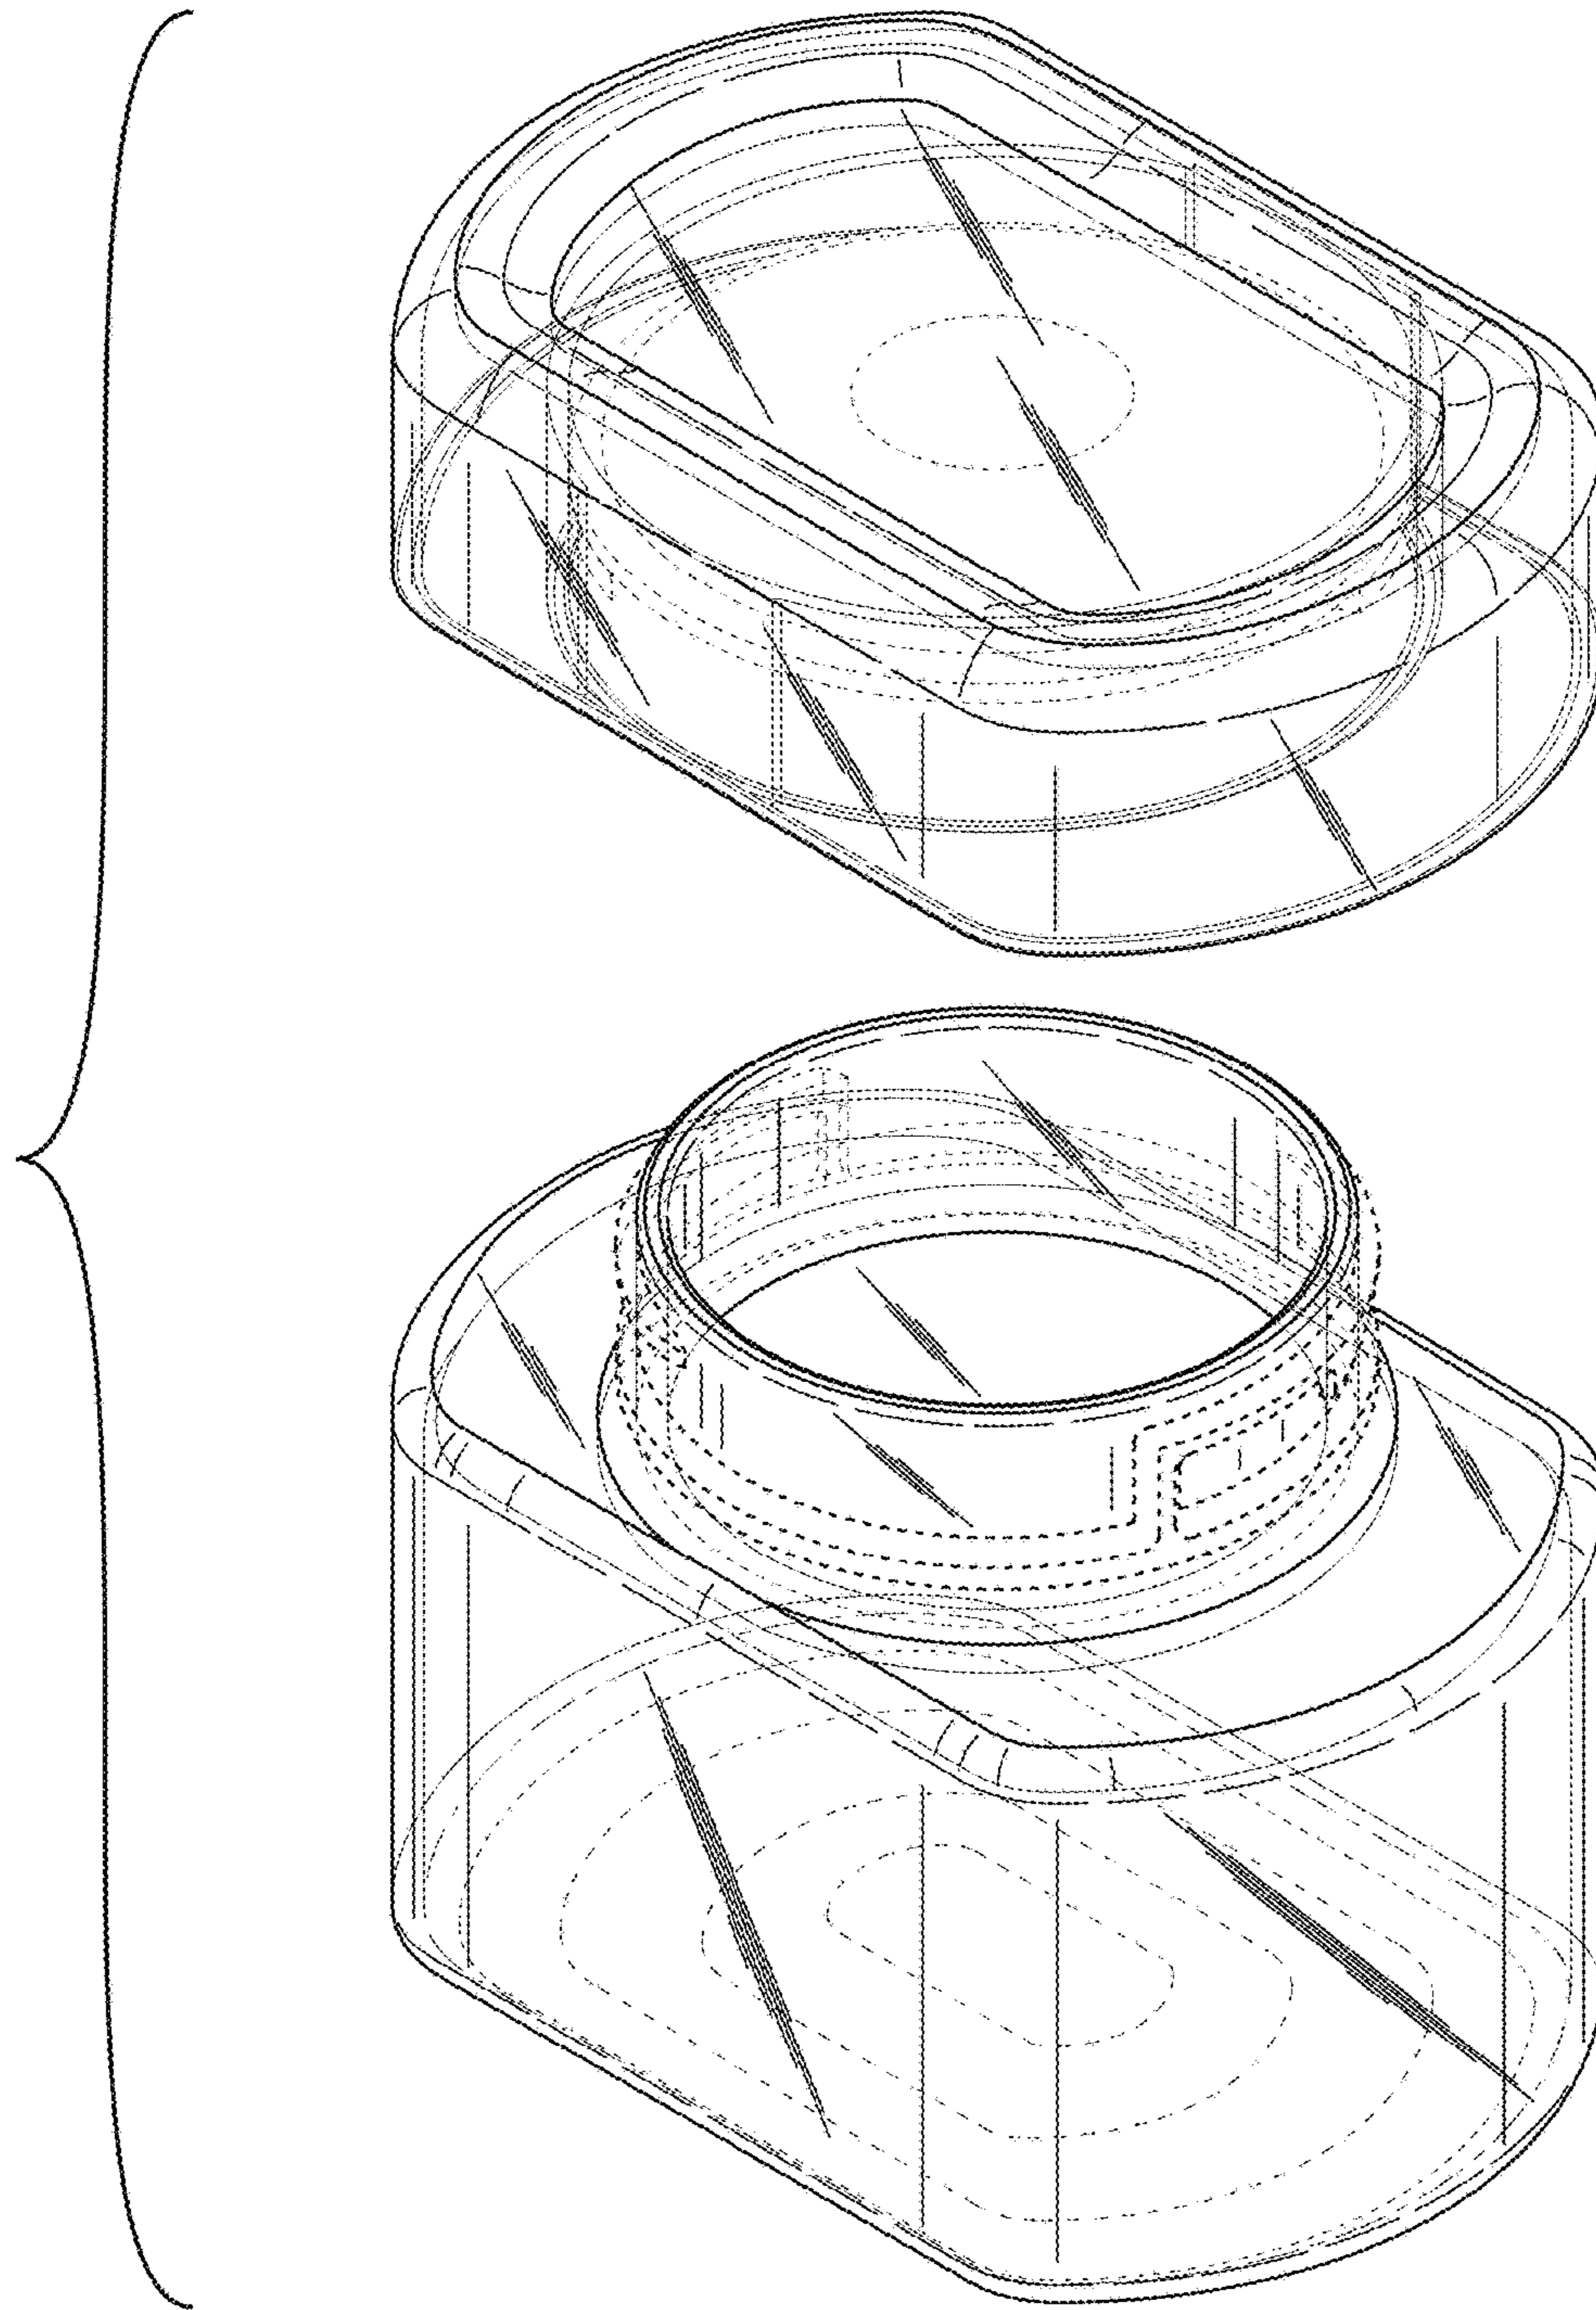

FIG. 51 is a non-exploded, front view thereof, the rear view being a mirror image of the front view;

FIG. 52 is a non-exploded, right side view thereof, the left side view being a mirror image of the right side view;

FIG. 53 is a non-exploded, top view thereof; and

FIG. 54 is a non-exploded, bottom view thereof.

The evenly spaced broken lines and the areas within them depict portions of the container with cap that form no part of the claimed design. The long dash-short dash broken lines depict the boundaries of the claim and form no part thereof.
