(57) **CLAIM**

The ornamental design for a tire tread, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the tire tread of my design; FIG. 2 is a front elevation view of the tire tread of my design; FIG. 3 is a side elevation view of the tire tread of my design; FIG. 4 is a side elevation view of the tire tread of my design, taken from the opposite side of that shown in FIG. 3; and, FIG. 5 is an enlarged, partial view of the tire tread of FIG. 1, as indicated by the break lines.

In the drawings, the broken line disclosure depicts environmental subject matter and forms no part of the claimed design. The dash-dot-dot-dash lines, which extend on one side about the tire adjacent the sidewall and on another side along a line bisecting the tire tread about its circumference, represent the peripheral boundary of the claim.
