(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, substantially as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material for which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the US Patent and Trademark Office patent file or records, but reserves all other copyrights whatsoever.

FIG. 1 is a front view of a display screen or portion thereof showing a first image of a graphical user interface. FIG. 2 is a front view of a display screen or portion thereof showing a second image of the graphical user interface. FIG. 3 is a front view of a display screen or portion thereof showing a third image of the graphical user interface. FIG. 4 is a front view of a display screen or portion thereof showing a fourth image of the graphical user interface; and, FIG. 5 is a front view of a display screen or portion thereof showing a fifth image of the graphical user interface.

The appearance of the graphical user interface of the display screen or portion thereof sequentially transitions between the images shown in FIGS. 1-5. The process or period in which the graphical user interface transitions forms no part of the claimed design.

The outermost dashed broken lines illustrate a display screen or portion thereof. The remaining dashed broken lines illustrate portions of a graphical user interface. None of the broken lines form part of the claimed design.
