(57) **CLAIM**

The ornamental design for a display screen or portion thereof with interactive graphical user interface, as shown and described.

**DESCRIPTION**

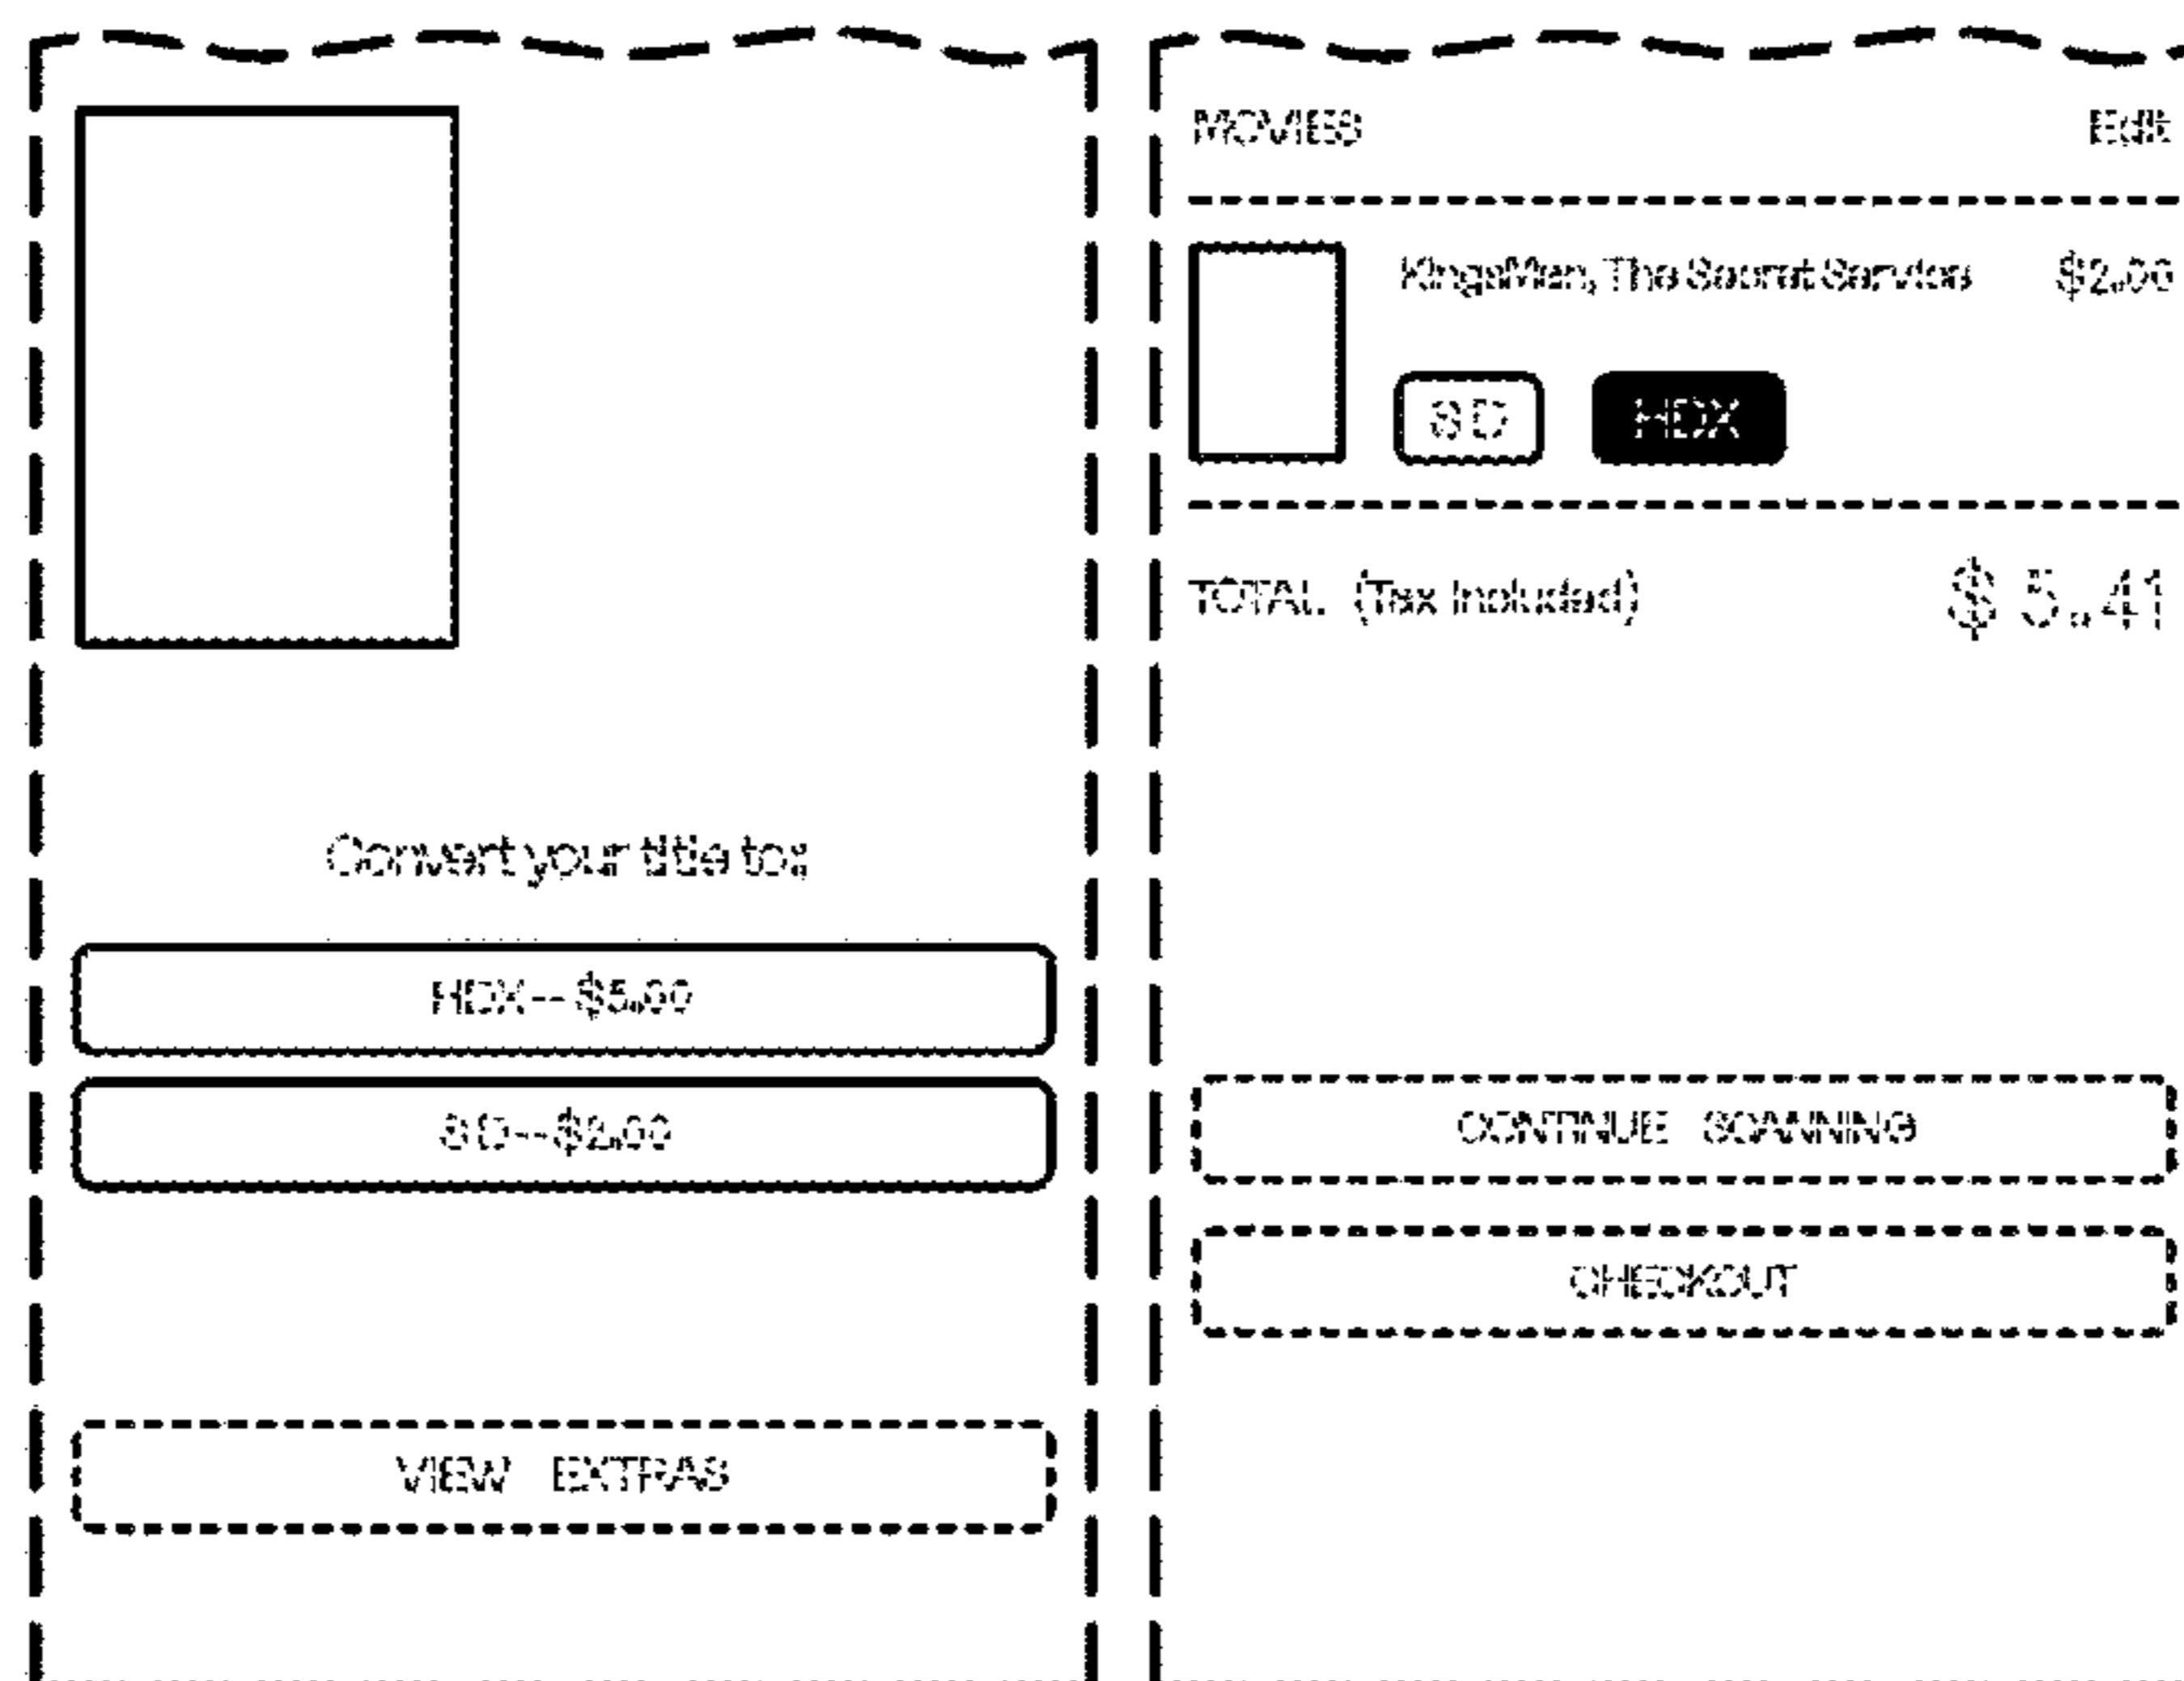

FIG. 1 is a front view of a first image of the display screen or portion thereof with interactive graphical user interface, according to our new design;

FIG. 2 is a front view of a second image of the display screen or portion thereof with interactive graphical user interface, according to our new design; and,

FIG. 3 is a front view of a third image the display screen or portion thereof with interactive graphical user interface, according to our new design.

The broken line showing of portions of display screens, text, and graphical elements is for the purpose of illustrating environment and forms no part of the claimed design. The appearance of the image interactively transitions between the images shown in FIGS. 1-3. The process by which an image transitions to another forms no part of the claimed design.
