(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface set, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

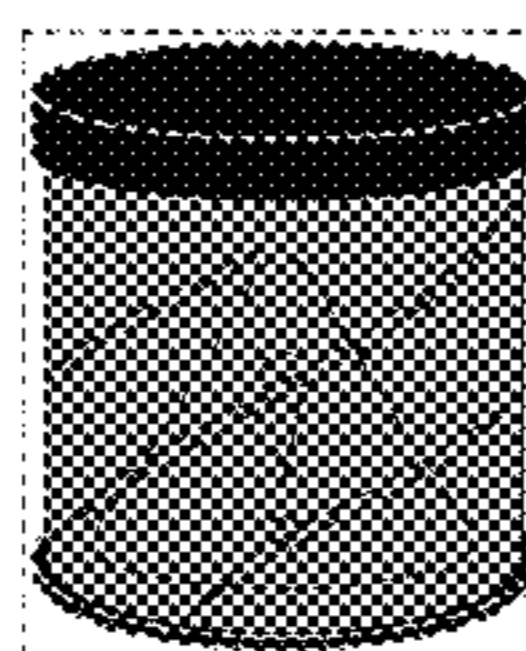

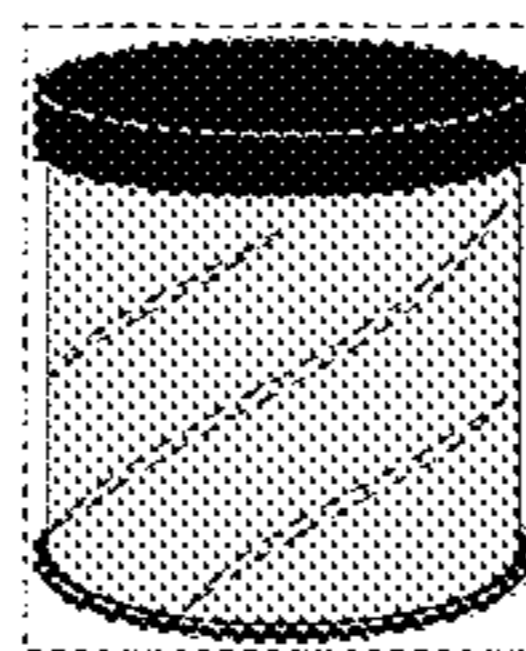

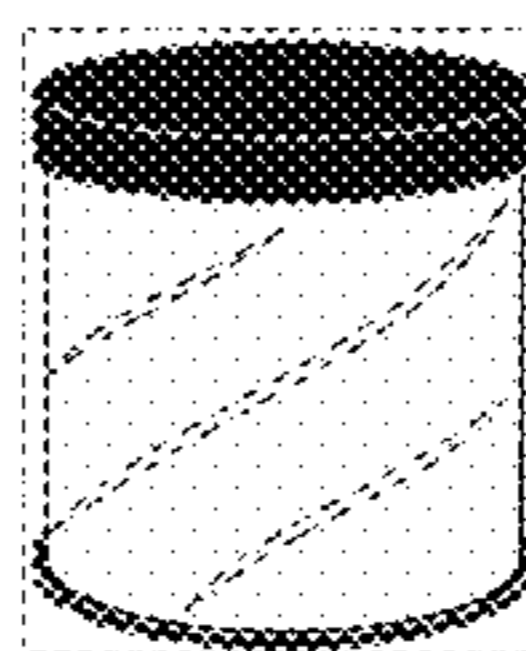

FIG. 1 shows a first image of a display screen or portion thereof with graphical user interface set showing our new design; and,

FIG. 2 shows a second embodiment thereof.

The peripheral broken lines showing of a display screen of portion thereof and the other broken lines showing elements of the graphical user interface illustrate portions of the article and do not form part of the claimed design.

The bracket shown in the figures indicates a set; the bracket forms no part of the claimed design. The graphical user interfaces of the sets are arranged relatively on the drawing sheets for the convenience of illustration, and the placement of each graphical user interface relative to another, or to the drawing sheet, forms no part of the claimed design.
