(**) Term: **15 Years**

(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical use interface for clinical practice guidelines, as shown and described.

(21) Appl. No.: **29/582,822**

DESCRIPTION

(22) Filed: **Oct. 31, 2016**

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

USPC D14/485-495

FIG. 1 is a front view of a first embodiment of a display screen or portion thereof with graphical use interface in accordance with our new design; and, FIG. 2 is a front view of another embodiment showing an enlarged view of the areas indicated with dot-dot-dash boundary lines of FIG. 1.

(Continued)

The dotted broken lines showing portions of the graphical user interface and the display screen or portion thereof represent environmental structure and form no part of the claimed design. The dot-dot-dashed broken lines represent boundaries and form no part of the claimed design. Elements that are shown outside of the rectangular dot-dot-dash boundaries form no part of the claimed design.
