(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with animated graphical user interface showing a first image in the sequence;

FIG. 2 is a front view of the display screen showing a second image in the sequence;

FIG. 3 is a front view of the display screen showing a third image in the sequence;

FIG. 4 is a front view of the display screen showing a fourth image in the sequence;

FIG. 5 is a front view of the display screen showing a fifth image in the sequence; and,

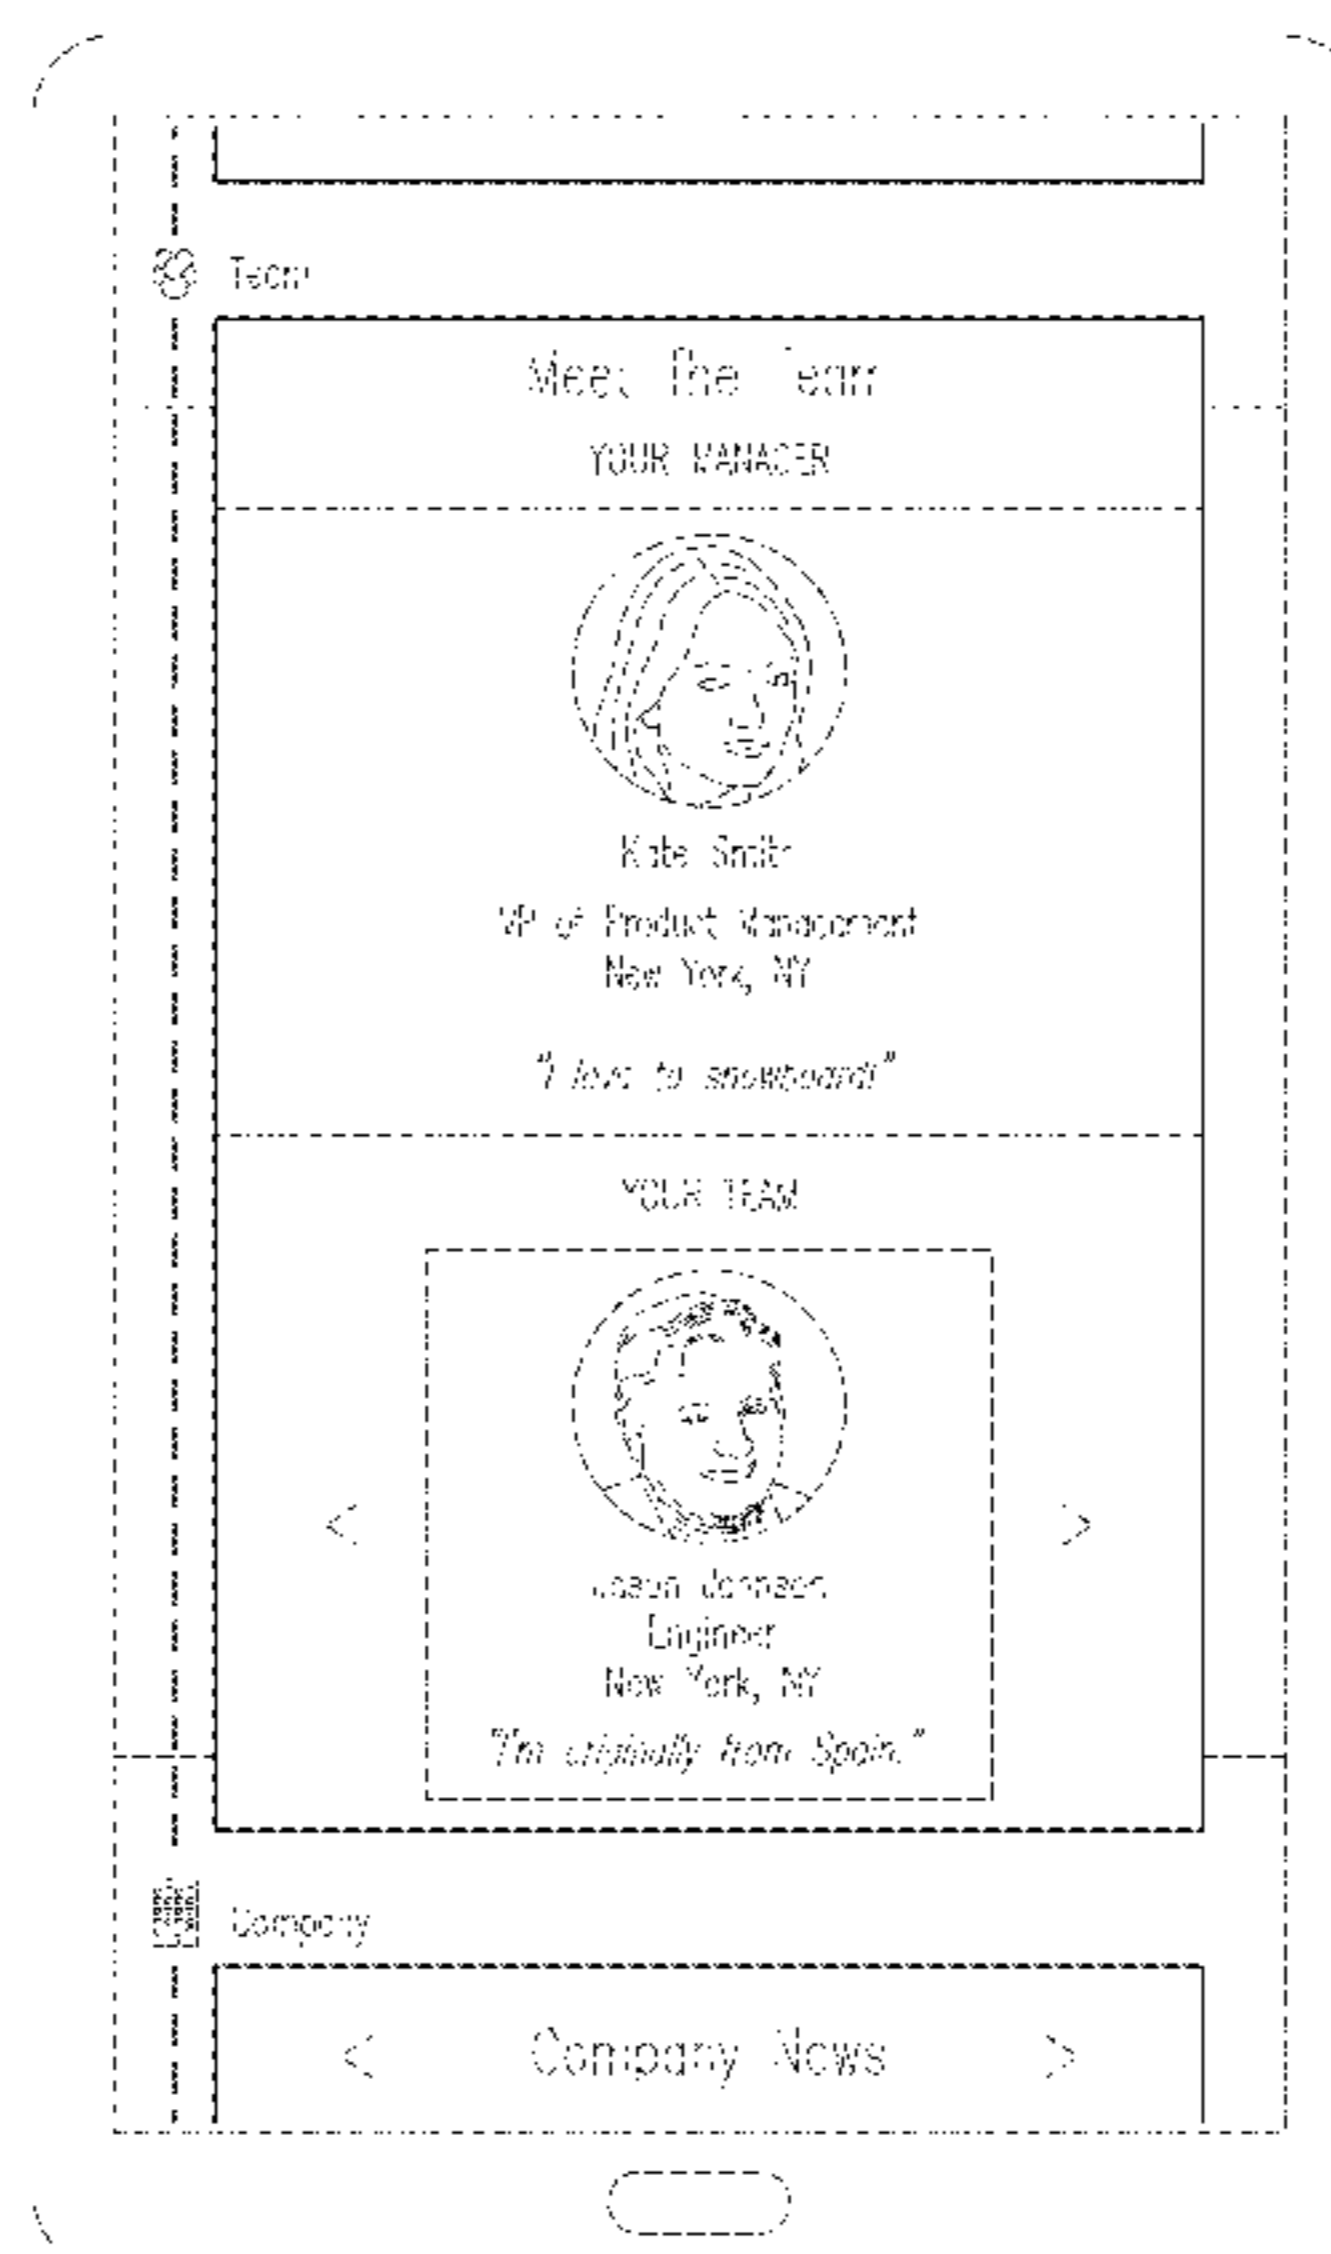

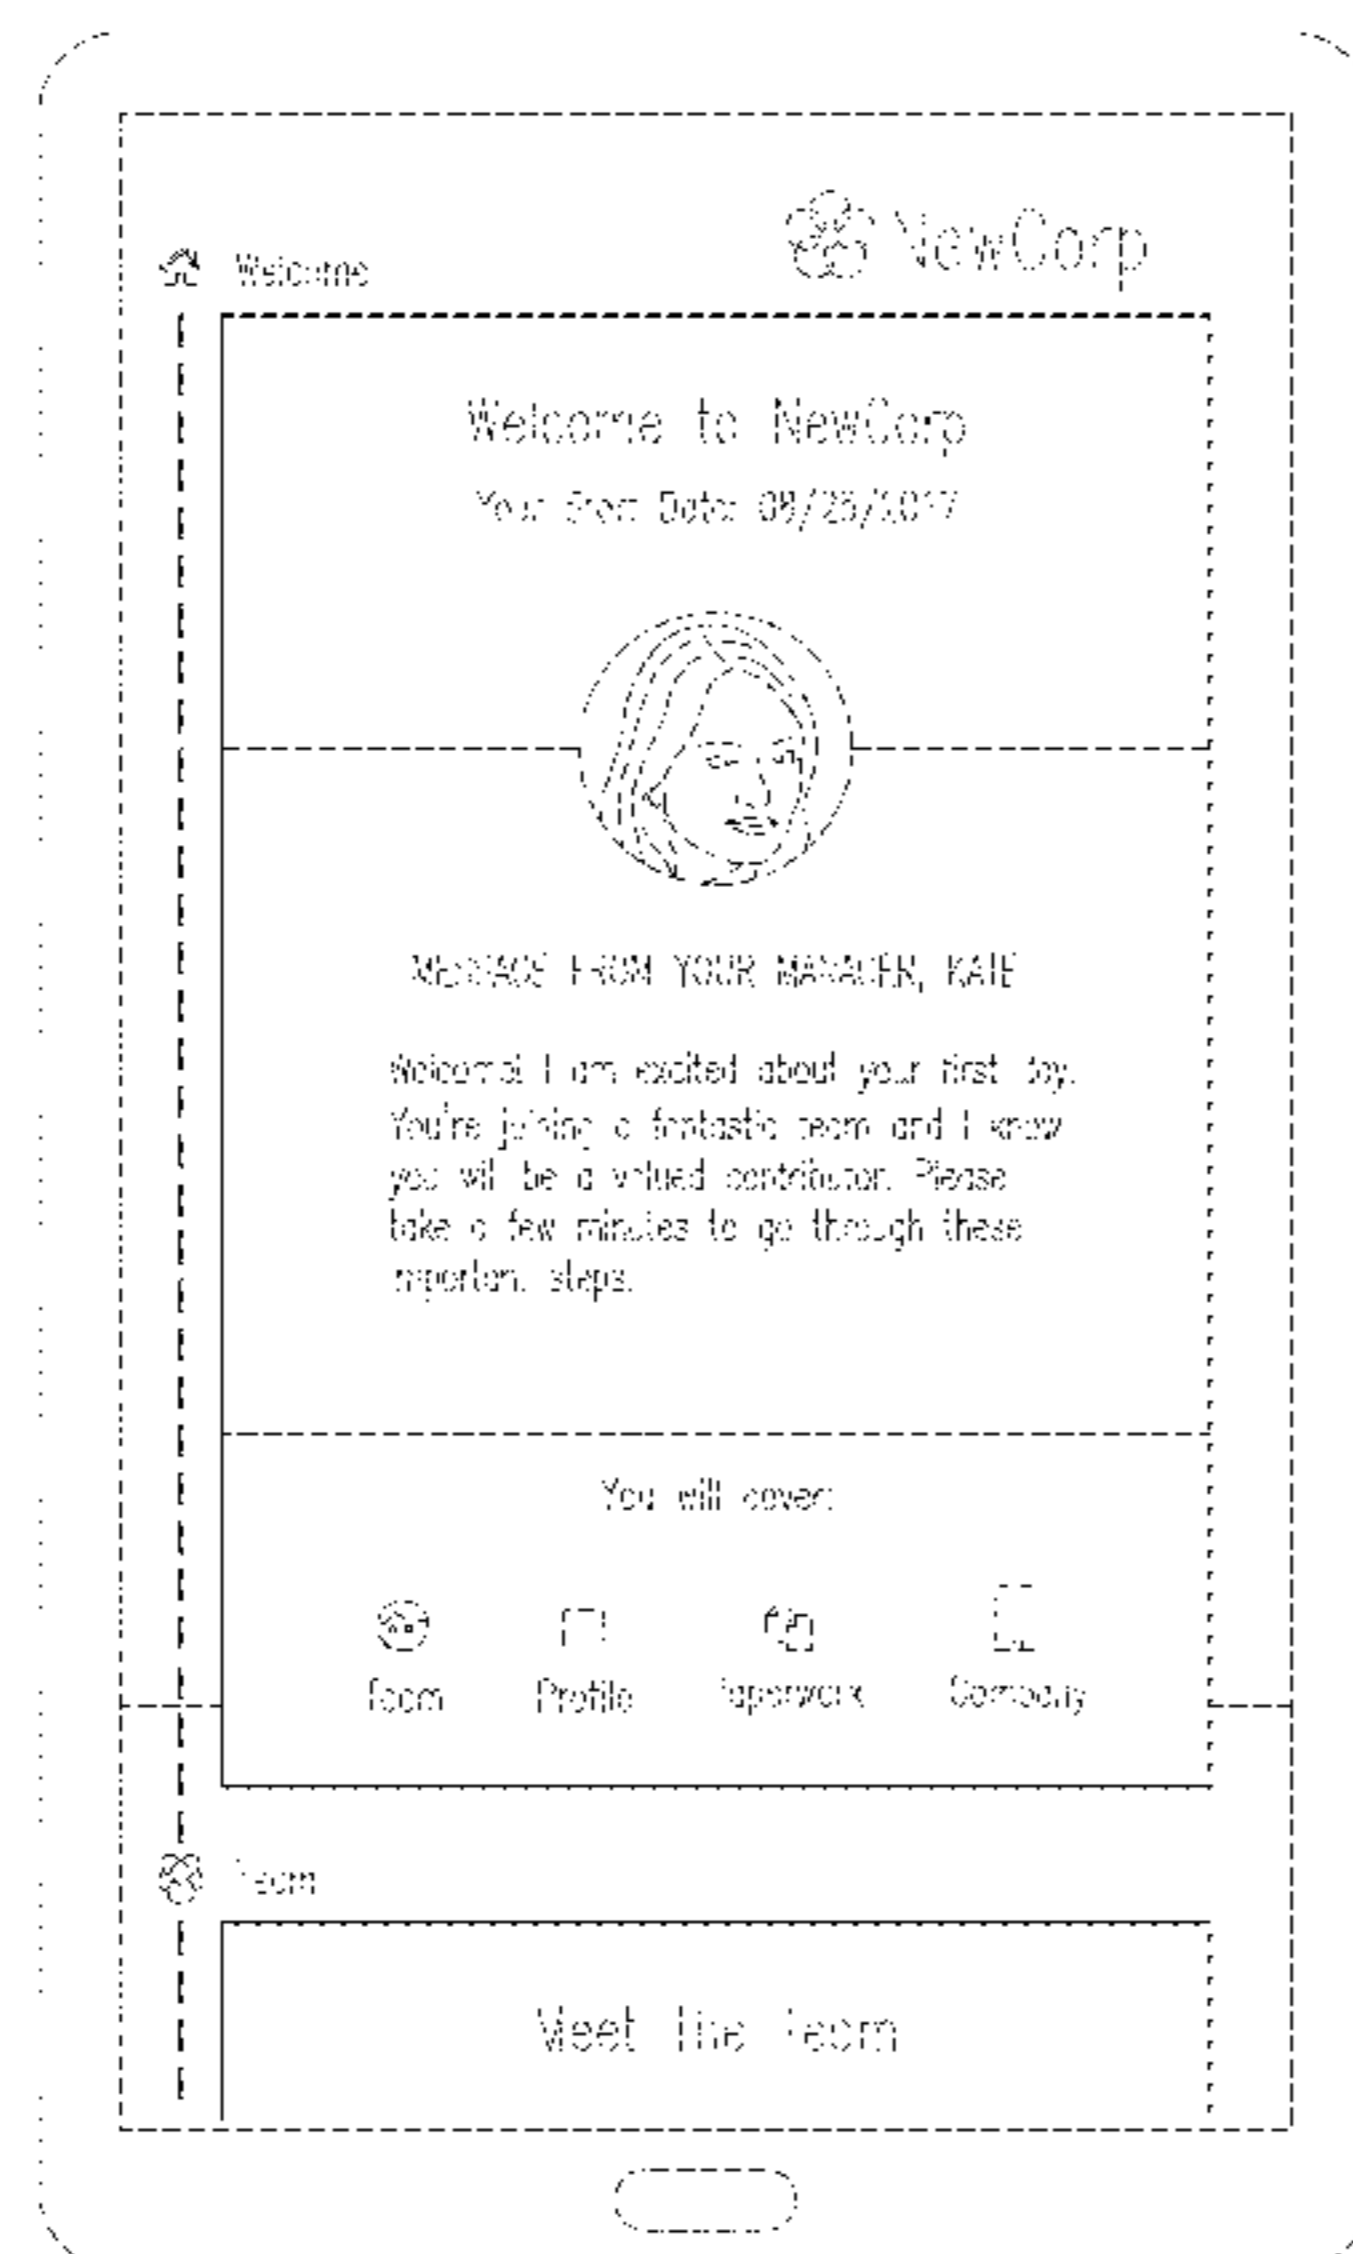

FIG. 6 is a front view of the display screen showing a sixth image in the sequence.

The larger dashed vertical lines shown in outline at the left of the rectangular boxes in the figures form part of the claimed design.

The outermost broken line showing of an environmental electronic device and the remaining broken line showing of portions of the display screen with graphical user interface do not form part of the claimed design.

The appearance of the transitional image transitions between the images shown in FIGS. 1-6. The process or period in which one image transitions to another forms no part of the claimed design.
