(57) **CLAIM**

The ornamental design for a pipe with alternating sections, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation view of a first embodiment of a pipe with alternating sections.

FIG. 2 is a front view of the pipe with alternating sections of FIG. 1, with the rear view being a mirror image thereof. FIG. 3 is a right side view of the pipe with alternating sections of FIG. 1, with the left side being a mirror image thereof.

FIG. 4 is a top view of the pipe with alternating sections of FIG. 1.

FIG. 5 is an enlarged view of the encircled area seen in FIG. 2 of a portion of the pipe with alternating sections of FIG. 1.

FIG. 6 is a front elevation view of a second embodiment of a pipe with alternating sections, it being understood that no claim is being made to the left side features, other than those visible in the views of the drawing disclosure, therefore the left side view of FIG. 6 has been omitted.

FIG. 7 is a front view of the pipe with alternating sections of FIG. 6, with the rear view being a mirror image thereof. FIG. 8 is a right side view of the pipe with alternating sections of FIG. 6; and,

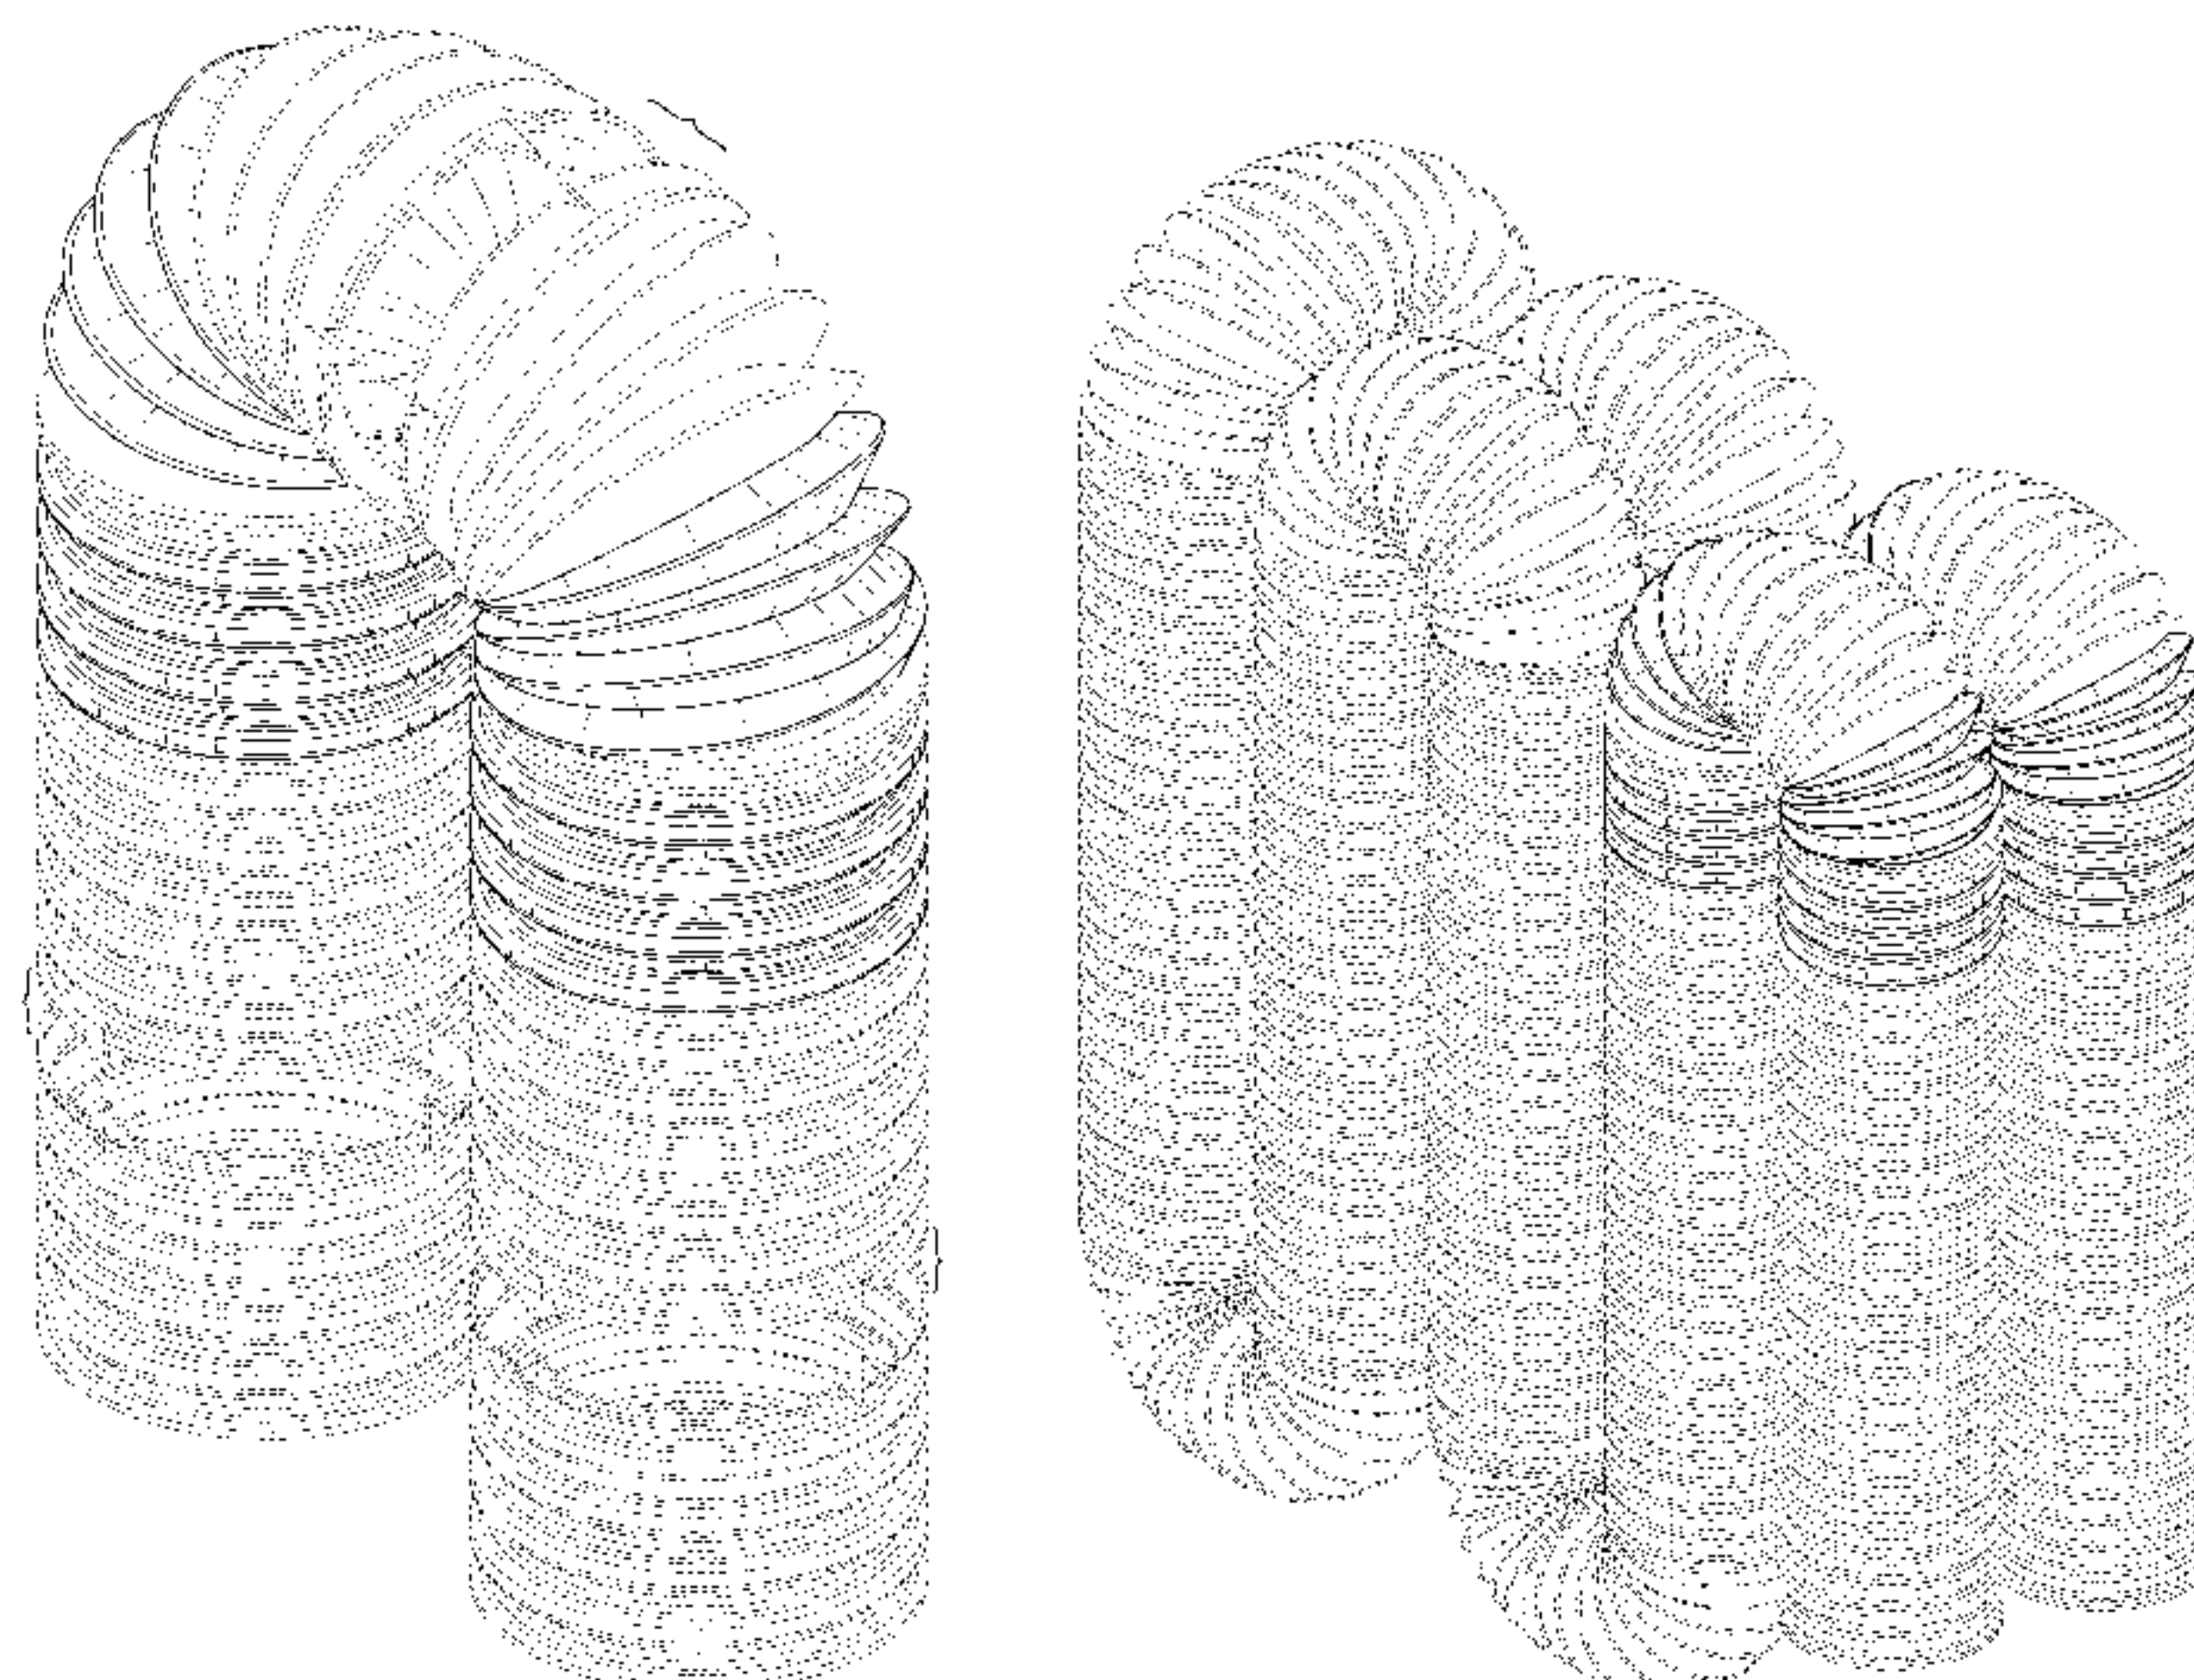

FIG. 9 is a top view of the pipe with alternating sections of FIG. 6.

The dash-dot rectangle located within certain locations of the pipe is included to indicate an enlarged view of the claimed area of the pipe only and forms no part of the claimed design. The remaining dash-dot broken lines represent unclaimed boundaries of the claimed design.

The broken lines immediately adjacent to shaded areas represent unclaimed boundaries of the claimed design.

FIGS. 1-4 are shown with a symbolic break in their length. The appearance of any portion of the pipe with alternating sections between the break lines forms no part of the claim.

(Continued)

The remainder of the pipe shown in broken lines is for environmental purposes only and forms no part of the claimed design.

1 Claim, 9 Drawing Sheets
