(57) **CLAIM**

The ornamental design for the avionics display with icon, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all copyright rights whatsoever.

The FIGURE is a front view of a portion of an avionics display with icon showing the claimed design. The outermost broken-line rectangle illustrates a portion of an avionics display and forms no part of the claimed design. The remaining broken lines illustrate portions of a graphical use interface and form no part of the claimed design. The claimed design for an “avionics display with icon” is used as a visual instrument interface for assisting spatial awareness of loading and unloading position, and the position of other aircraft.
