(57) **CLAIM**

The ornamental design for a shoe midsole, as shown and described.

DESCRIPTION

The patent or application file contains at least one photograph executed in color. Copies of this patent with color photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a lateral side view of an embodiment a shoe midsole, it being understood that there is no claim being made to the bottom, front, back, or medial side features of the shoe midsole, therefore the bottom, front, back, and medial side views have been omitted; and, FIG. 2 is an enlarged view of the encircled area of the lateral side of the shoe midsole seen in FIG. 1.

The broken lines represent an unclaimed boundary of the claimed design. The broken lines immediately adjacent to shaded areas represent unclaimed boundaries of the claimed design. The areas within the color photographs surrounded by broken lines and partially obscured with translucent shading form no part of the claimed design. The remainder of the shoe shown in broken lines is for environmental purposes only and forms no part of the claimed design.
