Primary Examiner — Jack Reickel*Assistant Examiner* — John M Otte(74) *Attorney, Agent, or Firm* — Leason Ellis LLP(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with transitional graphical user interface showing a first image in a first sequence according to a first embodiment of the claimed design;

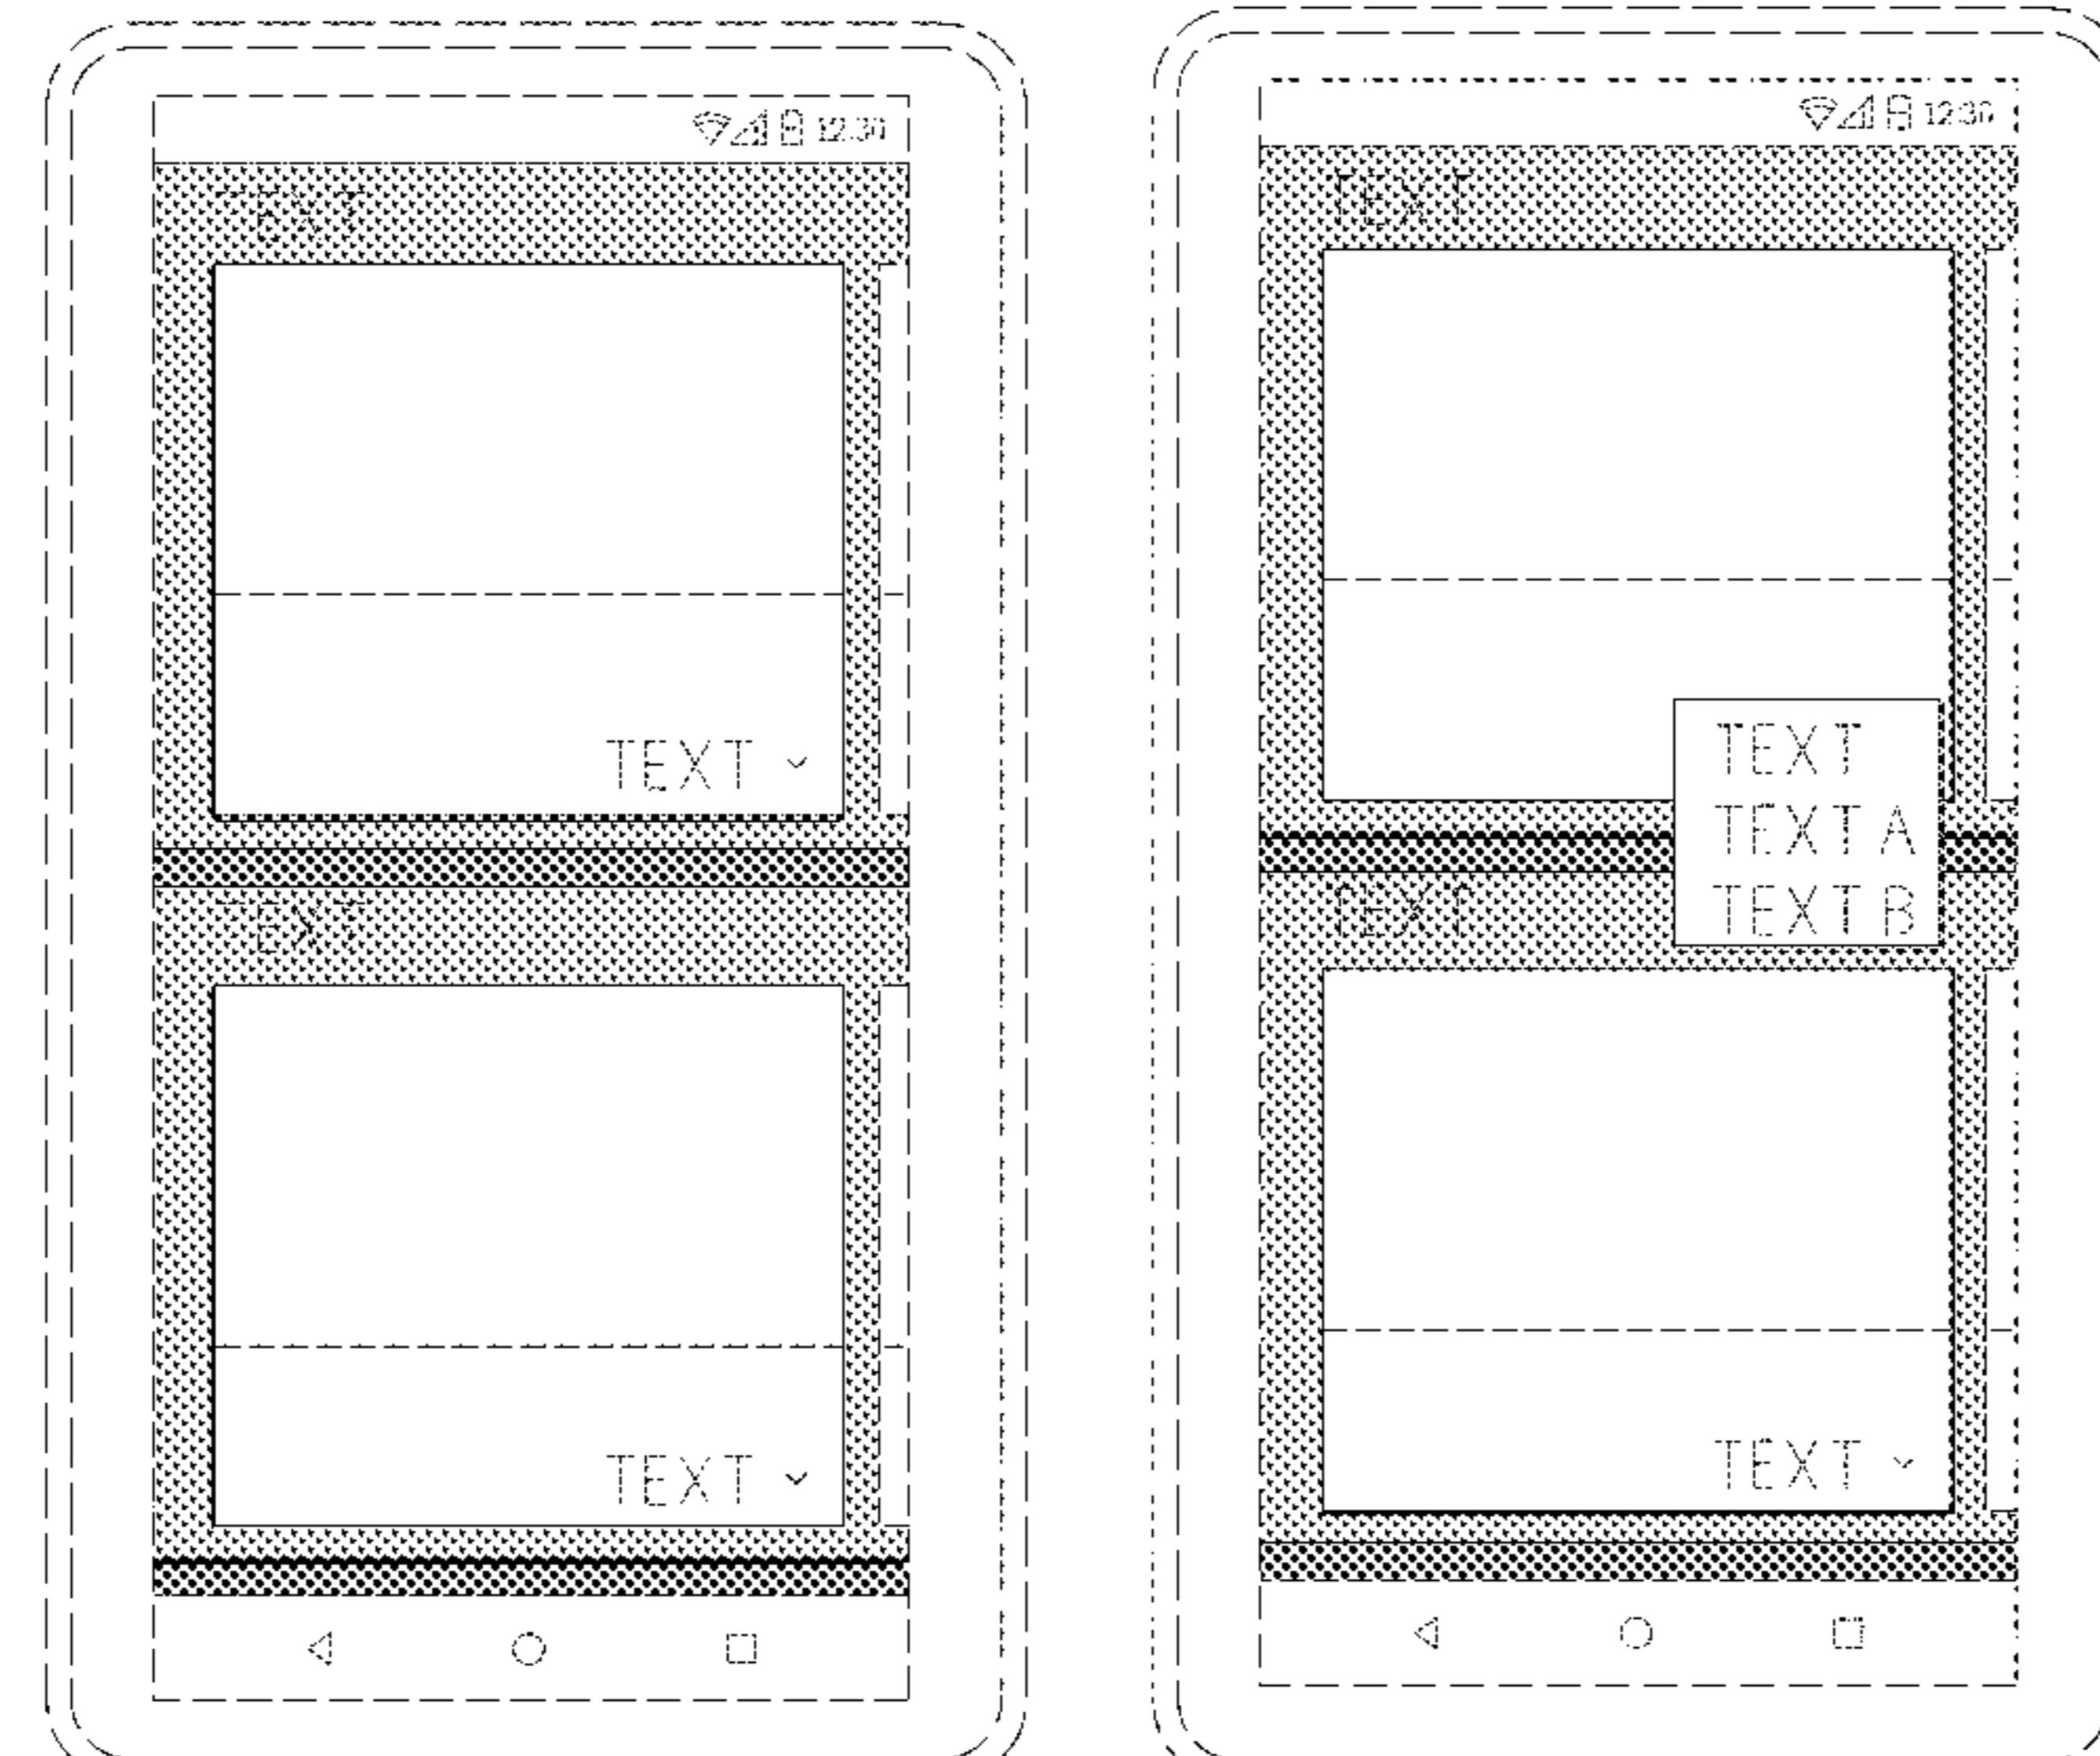

FIG. 2 is a front view showing a second image in the first sequence according to the first embodiment of the claimed design;

FIG. 3 is a front view of a first image in a second sequence according to a second embodiment of the claimed design; and,

FIG. 4 is a front view of a second image in the second sequence according to the second embodiment of the claimed design.

The process or period in which an image transitions to another image forms no part of the claimed design.

The longer broken-line showing of a portion of a mobile electronic device and the intermediate-length broken-line showing of a display screen boundary, as well as the features within the interface shown in still shorter broken-lines, are included for the purpose of illustrating environmental structure and form no part of the claimed design.
