The ornamental design for a trash bag, as shown and described.

CPC B65D 33/00; B65D 33/16; B65D 33/1608; B65F 1/00; B65F 1/06; B65F 1/0006

DESCRIPTION

See application file for complete search history.

FIG. 1 is a front elevation view of the trash bag showing my new design, the back view being identical; and, FIG. 2 is an enlarged detailed view of the encircled portion of FIG. 1, shown for ease of illustration.

The dot-dot-dash line of FIG. 1 merely indicates the upper boundary of the pattern of the trash bag; the area extending beyond this boundary line is encompassed as part of the claimed design. The broken lines show portions of the trash bag that form no part of the claimed design; thus, the area extending below the lower boundary of the pattern is not part of the claimed design. The dot-dash lines show no specific length and form no part of the claimed design. The trash bag has no appreciable thickness.
