(57) **CLAIM**

The ornamental design for a computer display screen or portion thereof with animated graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a computer display screen or portion thereof with animated graphical user interface showing a first image in a first embodiment of the claimed design;

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof;

FIG. 4 is a front view of a computer display screen or portion thereof with animated graphical user interface showing a first image in a second embodiment of the claimed design;

FIG. 5 is a second image thereof;

FIG. 6 is a third image thereof;

FIG. 7 is a fourth image thereof;

FIG. 8 is a fifth image thereof;

FIG. 9 is a front view of a computer display screen or portion thereof with animated graphical user interface showing a first image in a third embodiment of the claimed design;

FIG. 10 is a second image thereof;

FIG. 11 is a third image thereof;

FIG. 12 is a front view of a computer display screen or portion thereof with animated graphical user interface showing a first image in a fourth embodiment of the claimed design;

FIG. 13 is a second image thereof;

FIG. 14 is a third image thereof;

FIG. 15 is a fourth image thereof; and,

FIG. 16 is a fifth image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3, 4-8, 9-11, and 12-16. The process or period in which an image transitions to another image forms no part of the claimed design. The longer broken-line showing of a portion of a computer and the intermediate-length broken-line showing of a display screen of the computer, as well as the features within the interface shown in still shorter broken-lines, are included for the purpose of illustrating environmental structure and form no part of the claimed design.
