(57) **CLAIM**

The ornamental design for a display screen with a graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a display screen with a graphical user interface according to a first embodiment, showing the new design;

FIG. 2 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 3 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 4 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 5 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 6 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 7 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 8 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 9 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

(Continued)

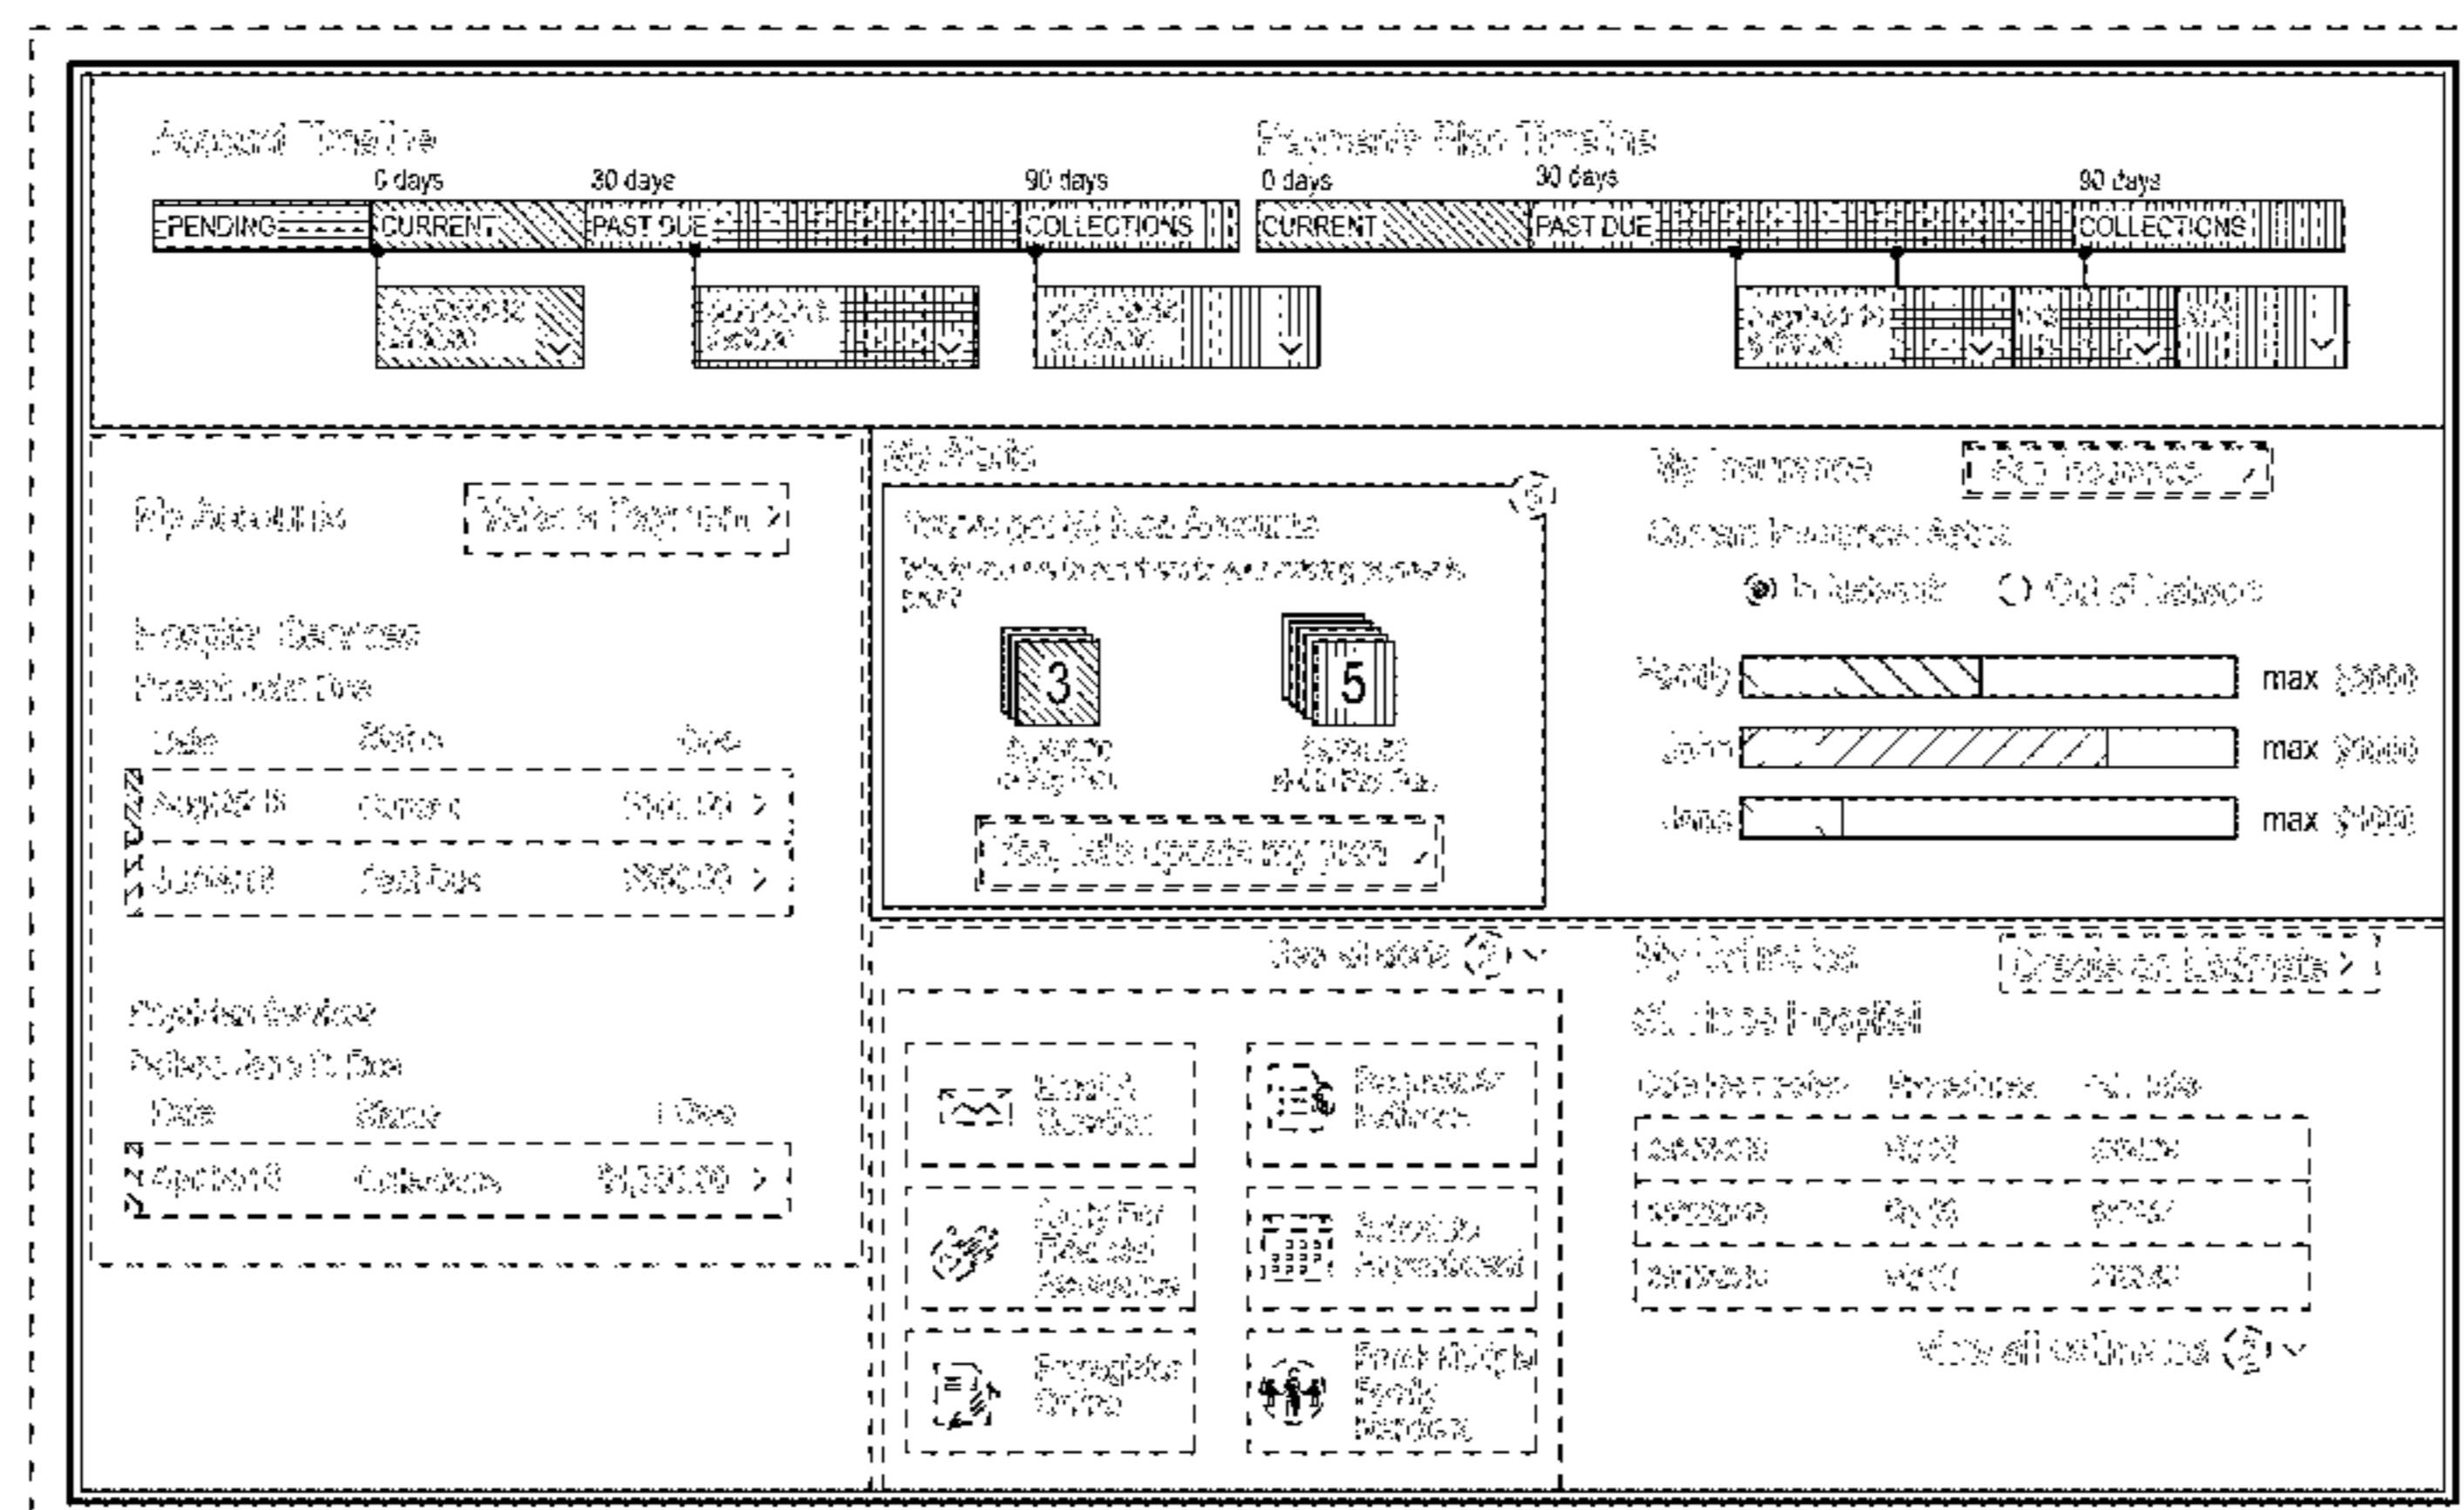

FIG. 10 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 11 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 12 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 13 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 14 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 15 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design;

FIG. 16 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design; and,

FIG. 17 is a front view of a display screen with a graphical user interface according to another embodiment, showing the new design.

The broken lines illustrate the environment of the claimed design and form no part thereof.
