(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for a visualization of a graph data structure, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface for a visualization of a graph data structure, showing our new design. The outermost broken line illustrates a display screen and forms no part of the claimed design. All remaining broken lines illustrate portions of the graphical user interface that form no part of the claimed design.
