(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a display screen with graphical user interface, showing our new design;

FIG. 2 is a front view of a second embodiment of a display screen with graphical user interface, showing our new design;

FIG. 3 is another front view of the second embodiment, but shown in a different broken line environment;

FIG. 4 is another front view of the second embodiment, but shown in a different broken line environment;

FIG. 5 is another front view of the second embodiment, but shown in a different broken line environment;

FIG. 6 is a front view of a third embodiment of a display screen with graphical user interface, showing our new design;

FIG. 7 is a front view of a fourth embodiment of a display screen with graphical user interface, showing our new design;

FIG. 8 is a front view of a fifth embodiment of a display screen with graphical user interface, showing our new design;

FIG. 9 is another front view of the fifth embodiment, but shown in a different broken line environment;

FIG. 10 is another front view of the fifth embodiment, but shown in a different broken line environment;

FIG. 11 is another front view of the fifth embodiment, but shown in a different broken line environment;

(Continued)

FIG. 12 is a front view of a sixth embodiment of a display screen with graphical user interface, showing our new design;

FIG. 13 is a front view of a seventh embodiment of a display screen with graphical user interface, showing our new design;

FIG. 14 is a front view of an eighth embodiment of a display screen with graphical user interface, showing our new design;

FIG. 15 is another front view of the eighth embodiment, but shown in a different broken line environment;

FIG. 16 is another front view of the eighth embodiment, but shown in a different broken line environment;

FIG. 17 is another front view of the eighth embodiment, but shown in a different broken line environment;

FIG. 18 is a front view of a ninth embodiment of a display screen with graphical user interface, showing our new design;

FIG. 19 is a front view of a tenth embodiment of a display screen with graphical user interface, showing our new design;

FIG. 20 is a front view of an eleventh embodiment of a display screen with graphical user interface, showing our new design;

FIG. 21 is another front view of the eleventh embodiment, but shown in a different broken line environment;

FIG. 22 is another front view of the eleventh embodiment, but shown in a different broken line environment;

FIG. 23 is another front view of the eleventh embodiment, but shown in a different broken line environment; and,

FIG. 24 is a front view of a twelfth embodiment of a display screen with graphical user interface, showing our new design.

The broken lines around the FIGS showing a display screen form no part of the claimed design. The broken lines within the FIGS show portions of the display screen with graphical user interface that form no part of the claimed design.
