DESCRIPTION

See application file for complete search history.

FIG. 1 is a front view of a display screen or portion thereof with a graphical user interface for an advertisement management application according to a first embodiment; and, FIG. 2 is a front view of a display screen or portion thereof with a graphical user interface for an advertisement management application according to a second embodiment. The broken lines showing an electronic device and display screen illustrate environmental structure and the article of manufacture respectively. The remaining broken lines and lined-through text and icons illustrate portions of the graphical user interface. None of the broken lines and lined-through text and icons form part of the claimed design.
