(57) **CLAIM**

We claim the ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is the first image in a sequence for a display screen or portion thereof with an animated graphical user interface showing our new design;

FIG. 2 is the second image thereof;

FIG. 3 is the third image thereof;

FIG. 4 is the first image in a sequence for a second embodiment thereof;

FIG. 5 is the second image thereof; and,

FIG. 6 is the third image thereof.

The appearance of the transitional graphical user interface transitions sequentially between FIGS. 1-3 in embodiment 1 and FIGS. 4-6 in embodiment 2. The process or period in which one image transitions to another forms no part of the claimed design.

The outermost dot-dash broken line showing of a display screen or portion thereof and the other broken lines showing elements of the graphical user interface illustrate portions of the article. None of the aforementioned broken line subject matters form part of the claimed design.
