*Primary Examiner* — Brett Miller(74) *Attorney, Agent, or Firm* — Stinson Leonard Street LLP(57) **CLAIM**

The ornamental design for a plastic bag with textured strips, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevation of one embodiment of a plastic bag of the present invention; the plastic bag having three

textured strips extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof;

FIG. 2 is a front elevation of another embodiment of the invention, the plastic bag having three textured strips extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof;

FIG. 3 is a front elevation of another embodiment of the invention, the plastic bag having three textured strips extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof;

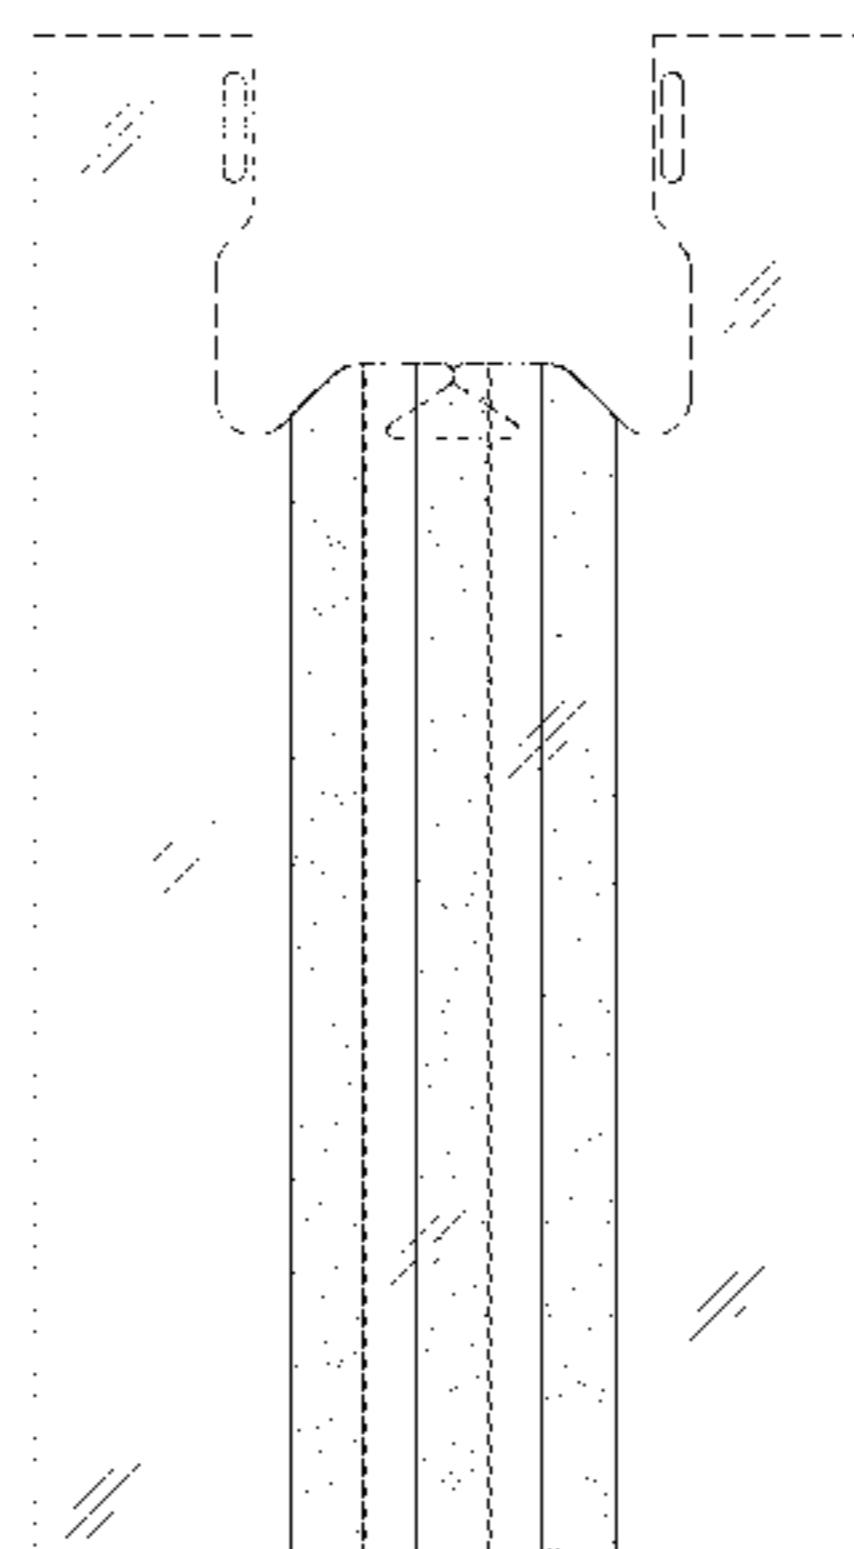

FIG. 4 is a front elevation of another embodiment of the invention, the plastic bag having three textured strips extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof;

FIG. 5 is a front elevation of another embodiment of the invention, the plastic bag having three textured strips extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof; and,

FIG. 6 is a front elevation of another embodiment of the invention, the plastic bag having three textured strips extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof.

The shading in FIGS. 1-6 depicts a texture contrast consonant with the visual appearance shown in these drawings. In FIG. 1, a front panel and a rear panel of the plastic bag are transparent, and a strip of the plastic bag has stippling to show that it has a different texture, and therefore a texture contrast is depicted between the textured strip and the remainder of the bag.

The broken lines illustrate unclaimed features and define portions of the plastic bag that form no part of the claim. The claim is directed to shaded surfaces.
