(57) **CLAIM**

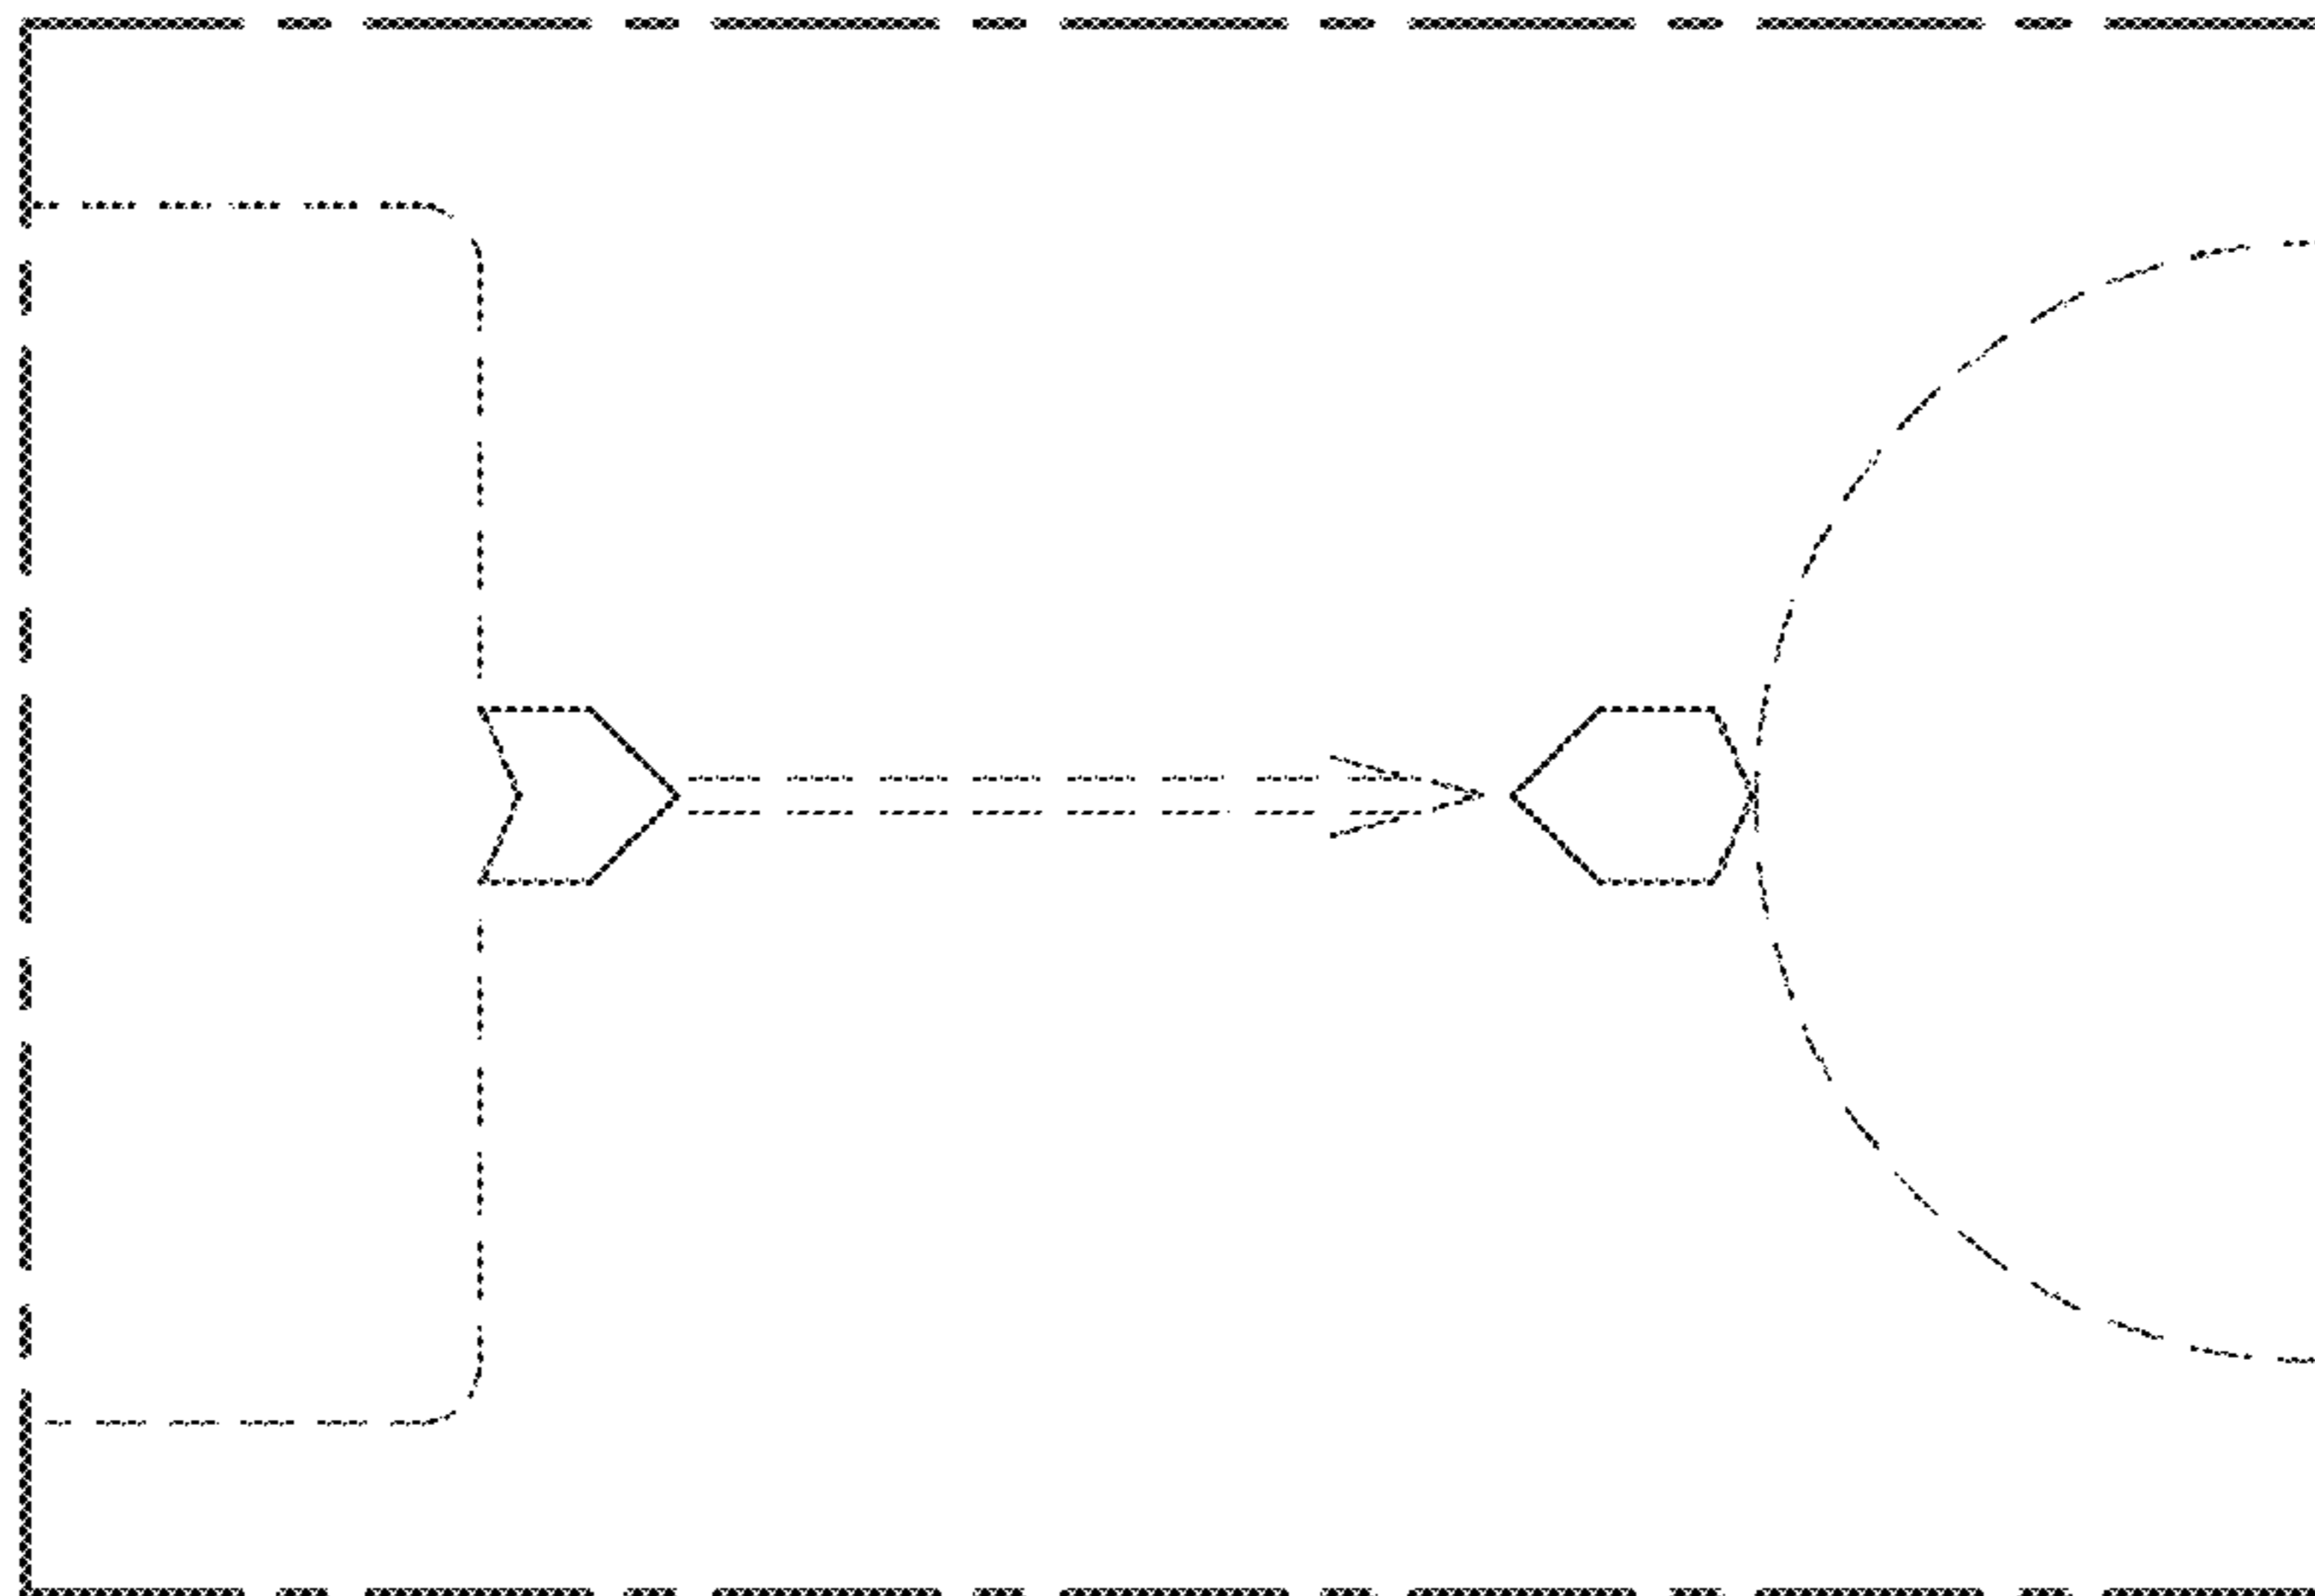

The ornamental design for a computer screen with visual programming icons, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a computer screen with visual programming icons showing our new design; and, FIG. 2 is an enlarged detail view thereof, showing the claimed subject matter.

The dashed broken lines in the figures represent the computer screen and elements of the graphical user interface. The dash-dot broken line in FIG. 2 represents the boundary of the detail taken from FIG. 1. All broken line disclosure in the figures forms no part of the claimed design.
