(57) **CLAIM**

The ornamental design for an aerator, as shown and
described.

DESCRIPTION

FIG. 1 is an upper front perspective view of the aerator of
the present invention;
FIG. 2 is a lower front perspective view of the aerator of the
present invention;
FIG. 3 is a front elevation view of the aerator of the present
invention, the rear elevation view being an identical image
thereto;
FIG. 4 is a left side elevation view of the aerator of the
present invention, the right side elevation view being an
identical image thereto;
FIG. 5 is a top view of the aerator of the present invention;
FIG. 6 is a bottom view of the aerator of the present
invention;
FIG. 7 is an upper front perspective view of a second
embodiment of the aerator of the present invention;
FIG. 8 is a lower front perspective view of the second
embodiment of the aerator of the present invention;
FIG. 9 is a front elevation view of the second embodiment
of the aerator of the present invention, the rear elevation
view being an identical image thereto;
FIG. 10 is a left side elevation view of the second embodi-
ment of the aerator of the present invention, the right side
elevation view being an identical image thereto;
FIG. 11 is a top view of the second embodiment of the
aerator of the present invention; and,
FIG. 12 is a bottom view of the second embodiment of the
aerator of the present invention.
The broken lines depict portions of the article that form no
part of the claimed design.
