(57) **CLAIM**

The ornamental design for a tool chest, as shown and described.

DESCRIPTION

FIG. 1 is a first isometric view from the rear and one side of the tool chest in a closed position showing the design.
 FIG. 2 is a second isometric view from the front and one side of the tool chest in a closed position showing the design.
 FIG. 3 is a rear elevational view of the tool chest in a closed position showing the design.
 FIG. 4 is a bottom plan view of the tool chest in a closed position showing the design.
 FIG. 5 is a top plan view of the tool chest in a closed position showing the design.
 FIG. 6 is a left side elevational view of the tool chest in a closed position showing the design.
 FIG. 7 is a right side elevational view of the tool chest in a closed position showing the design.
 FIG. 8 is a front elevational view of the tool chest in a closed position showing the design.
 FIG. 9 is a first isometric view from the rear and one side of the tool chest in an open position showing the design.
 FIG. 10 is a second isometric view from the front and one side of the tool chest in an open position showing the design.
 FIG. 11 is a rear elevational view of the tool chest in an open position showing the design.
 FIG. 12 is a bottom plan view of the tool chest in an open position showing the design.
 FIG. 13 is a top plan view of the tool chest in an open position showing the design.
 FIG. 14 is a left side elevational view of the tool chest in an open position showing the design.
 FIG. 15 is a right side elevational view of the tool chest in an open position showing the design; and,
 FIG. 16 is a front elevational view of the tool chest in an open position showing the design.
 The features which are shown in broken line form no part of the claimed design.

1 Claim, 16 Drawing Sheets
